- Opportunity to publish full Manu Scripts in our Open Access Journals

Special Issues : All accepted abstracts will be

Published in Respective Supported Journals

Each Accepted abstracts will be provided with
A digital Object Identifier by Crossref

About Conference

The theme for the AI & IoT 2018 is "AI -The Real Race For Future". This unique opportunity that we extend to our speakers and attendees is not being offered by any other conference organizers. Through this the abstracts and research profiles of our speakers and organizing committee members getting global visibility which is an additional feature that you would be receiving in addition to networking opportunities before, during and after the conference.

AI & IOT 2018 salient features

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Meet with new vendors and suppliers

How Conference Series Conferences differs from others?

- 3000+ Conferences across the globe in 30+ countries all through the year
- Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

Goals

- The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goals of the conference is to provide a transformative professional development experience through
- Bringing together the world's scientific experts to catalyze and advance scientific knowledge about Acupuncture & Traditional Medicine present the most recent research findings, and promote and enhance scientific collaborations around the world.
- Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address regional, national and local challenges around the world and overcome barriers that limit access to growth & development.

About Conference

Objectives

After participating in this meeting, attendees should be able to

- Discuss emerging issues in Artificial Intelligence, Robotics & IoT
- Discuss and apply recent research findings related to Artificial Intelligence, Robotics & IoT
- To discuss and share knowledge with Scientist, Researchers, Professors, Engineers and Industry Leaders and Business Intelligences

Who should attend

International conference of Artificial intelligence, Robotics & IoT 2018 is exclusively planned and designed for Scientist, Director, HoD's of Mechanical Engineering, Automation Engineering, Space Engineering, Computer Science Engineering, Electrical Engineering, Physics Department, Mathematics Department, professionals related to Research, Industry, City Planning, CEO, Presidents, Vice Presidents, Market Leaders, Students studying and doing research in the above streams

About hosting organization

Conference Series is the world's leading specialist in organizing Academic, Scientific and Business conferences, meetings, symposiums and exhibitions in different verticals and horizontals like Medical, Pharma, Engineering, Science, Technology and Business to promote scientific research. Every year we host more than 3000+ global events inclusive of 1000+ Conferences 1000+ Symposiums 1000+ Workshops in USA, Europe, Middle East and Asia with the generous support and cooperation from our 30000+ Editorial Board Members, 1000+ Scientific Societies. All the conference proceedings are published in the special issues of our 700+ Open Access International Journals with the DOI provided by Crossref

Major Sessions

- Quest for Artificial Intelligence: Dreams and Dreamers
- Natural Language Processing
- Big Data Analysis
- Modern Artificial Intelligence
- Intelligent Automation
- The Coming Future of AI
- Evolutionary Robotics
- Components of Robot
- How Robots Changing Our Life
- Robots in Industry
- A Brief History of Internet
- Internet: Making People and Cities Smart
- IoT- Simplifying our Life
- IoT and Globalization
- What the Future Holds?
