INTERNATIONAL CONFERENCE ON

ARTIFICIAL INTELLIGENCE & ROBOTICS

August 21-22, 2020 | Osaka, Japan

Welcome to ROBOTICS & AI 2020

Conference Series is delighted to welcome you to London to take part and share in the International Conference on AI and Robotics 2020 to be held from August 21-22, 2020 in-Osaka, Japan

You will experience the vibrant city of UK, drenched with culture, history and more. The conference promises several and thought-provoking program, a global meet for the seminar and discussion of the cutting-edge research which is related to the AI and Robotics.

It is an event to make network, to listen, to discuss, to share knowledge and to bring together inspired AI and Robotics researchers and scientists.

We welcome all researchers and will facilitate interactions with prominent senior investigators in the field of Automation as well as the scientists from leading AI based companies.

We hope the conference will provide a forum to exchange scientific ideas, encourage new research, and new contacts for closer partnership, so that we can together define the future for the young researchers who are today's reality and tomorrow's future.

We encourage you to stay connected during AI and Robotics 2020, keep us proactive and support us to shape the future of AI and IOT.

Looking forward to meeting you all in London city 2020!

ROBOTICS & AI 2020

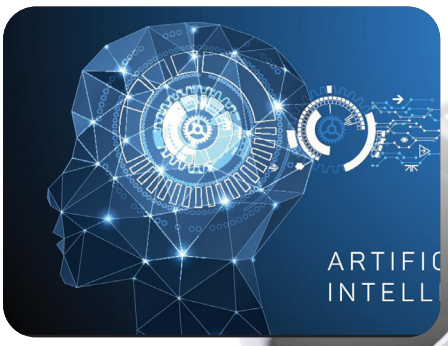

Major Sessions:

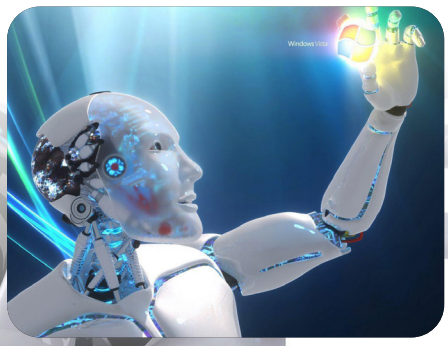

- Quest for Artificial Intelligence
- Natural Language Processing
- Modern Artificial Intelligence
- Intelligent Automation
- Ethics of Artificial Intelligence
- Landmarks in The Development of Robotics
- Evolutionary Robotics
- Components of Robot
- How Robots Changing Our Life
- Robots in Industry
- A Brief History of Internet of Things
- What the Future Holds?
- Big Data Analysis
- Internet: Making People and Cities Smart
- IoT- Simplifying our Life
- IoT and Globalisation
- Humanoid robot
- Medical robotics
- Role of 3D printing in robotics

Why to join the summit

- Meet Experts & Influencers
- Networking Opportunities
- Learning In a global Space
- Added Research Value
- Investment in Knowledge for future

About Osaka

Osaka is a designated city in the Kansai region of Japan. It is the capital city of Osaka Prefecture and the largest component of the Keihanshin Metropolitan Area, the second largest metropolitan area in Japan and among the largest in the world with more than 20 million inhabitants.

Osaka was traditionally considered Japan's economic hub. By the Kofun period (300–538) it had developed into an important regional port, and in the 7th and 8th centuries it served briefly as the imperial capital. Osaka continued to flourish during the Edo period (1603–1867) and became known as a center of Japanese culture. Following the Meiji Restoration, Osaka greatly expanded in size and underwent rapid industrialization. In 1889, Osaka was officially established as a municipality.
