Program Announcement

Venue

Radisson Hotel Narita
650-35 Nanae Tomisato-Shi, Chiba, Japan 286-0221

Important Dates

Abstract Submission opens: November 26, 2018
Registration opens: November 26, 2018
Early bird registration: January 28, 2019
On spot registration: October 25, 2019

Accommodation

A large number of rooms have been reserved. Discounted room rates for Alternative Medicine 2019 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by public transportation.

Exhibition and Sponsorship

An Exhibition will be held concurrently with the Conference. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the fields of Alternative and Traditional Medicine.

About Tokyo

Japan is an economic giant; The "Land of the Rising Sun" is a country where the past meets the future. Japan has often been seen in the West as a land combining tradition and modernity, and many traditional structures and practices are preserved. Japan was the first Asian country to independently modernize, and the country continues to embrace new technologies and aesthetics. Complexity and contrast are the keynotes of life in Japan—a country possessing an intricate and ancient cultural tradition yet one that, since 1950, has emerged as one of the world's most economically and technologically advanced societies. Heavy emphasis is placed on education, and Japan is one of the world's most literate countries. Japan sought to become a modern industrialized nation and pursued the acquisition of a large overseas empire, initially in Korea and China. The Japanese rank second only to the United States in spending on scientific research and technology development. However, in Japan, 80% of all research and development (R&D) is carried out by industry, in contrast to the United States, where industry undertakes about half of all R&D (the US government supports the rest).
