About Sydney, Australia

Sydney, the capital of New South Wales, Australia is the Australia's oldest and largest city with a population of around 4 million. Sydney is built around a huge harbour and hosts many tourist attractions as well as a number of beaches, bays and a couple of national parks. Sydney was first visited by the British in 1770 when Captain James Cook and Joseph Banks sailed the Endeavor into Botany Bay. The First Fleet arrived at Botany Bay in 1788 under the command of Governor Arthur Phillip. Phillip but found Botany Bay unsatisfactory and sailed north and landed at Sydney Cove on Sydney Harbour. Phillip originally named the colony 'New Albion', but then the colony acquired the name 'Sydney', after the British Home Secretary, Thomas Townshend, Lord Sydney.

Sydney has many influences upon its style. Aboriginal sites and engravings can still be seen from the original occupiers, the Eora tribe. The city also has an anglo-mediterranean style and a growing Chinese and Asian influence. The city is divided into North and South by the Sydney Harbour, with both Sydney Harbour Bridge and Tunnel connecting them. Most of the tourist attractions are in the South part of the city, with a large business and residential area in the North. The South part of the city consists of The Rocks and Circular Quay to the North, with the Central Station marking the South. Darling Harbour marks the West and there are a number of parks to the East. On the corner of Market and Elizabeth Streets you will find the country's most prestigious department store - David Jones.
