Invitation

Fight-Hope for a Cure …Go Purple…Because it Matters

Dear Friends and Colleagues,

It is our great pleasure to welcome you to the **14th World summit on Alzheimer's Disease, Dementia Care Research and Awareness** scheduled on **August 31–September 01 2018** in the breath-taking city of **Boston, USA**.

Alzheimer's disease and Dementia has been distinguished as a worldwide wellbeing need, as the developing burden of the disease will challenge the present medicinal services frameworks and healthcare systems. Subsequently, the disease mechanisms, prevention, early diagnosis and treatment of Alzheimer's disease have been under intense research. Alzheimer's Summit 2018 gives an outstanding forum to meet and learn from highly respected top-level speakers, who will spotlight the up-to-date and significant advances in research fields of Neuroscience, Neurology, Alzheimer's disease, Dementia, Gerontology and other neurodegenerative diseases. Alzheimer's Summit 2018 is an excellent opportunity for the attendees to collaborate, network and exchange innovative ideas for future Alzheimer's-Dementia disease and other neurodegenerative diseases research, biomarkers, treatment and prevention.

We are glad to display our exciting scientific program, which features new and inspiring research findings related to new insights into Neuroscience and Neurology departments, diagnosis and prediction of Alzheimer's-Dementia disease and other neurodegenerative diseases, new advances in Imaging, Disease models and Translational Medicine, Technology-supported diagnosis and care, Novel approaches towards prevention and novel approaches in clinical treatment studies.

Alzheimer's Summit 2018 is perceived globally as an important calendar event for the aged and dementia care industry. The meeting will give an International stage to share new research, experiences and evidence-based practices with Keynotes and Plenary talks and concurrent sessions with Special and Additional sessions, Poster and ePoster opportunities along with International Workshops and Symposiums for meaningful networking and engagement. We would like to hear the personal stories of people living with Alzheimer's and Dementia along with Neurodegenerative diseases those with a diagnosis and family carers – and their passion to make a difference.

During the conference, we assure you that you will experience world class facilities and hospitality at the conference.

Life is full of give and take. Make it count in your professional life. We look forward to personally welcoming you to Boston, USA.

Sincerely,

Alzheimer's Summit 2018 Committee

Program at Glance

August 31 Day 1			
Day 1			
Reception/Registration		08:00-08:30	
		Time	**General Session**
		08:30-08:45	Inaugural Address
Keynote Forum		08:45-09:30	Keynote Talk 1
		09:30-10:15	Keynote Talk 2
Group Photo			
10:20-10:35 Morning Coffee/Tea Break (Networking)			
10:35-11:35 International Workshop 1			
Plenary Sessions Forum			
11:35 -13:15	**Session on**: Alzheimers: Symptoms, Causes, Diagnosis & Prevention		
	Session on: Alzheimers Disease Pathogenesis & Disease Mechanisms		
	Session on: Clinical Trials on Alzheimer's Disease & Dementia		
	Session on: Dementia Care Practice, Research and Development		
Panel Discussion			
13:15 -14:00 Afternoon Lunch Break			
14:00-16:05	**Session on**: Nursing Interventions, Care and Recovery		
	Session on: Vascular Dementia & Lewy bodies		
	Session on: Aging & Gerontology		
	Session on: Geriatrics, Care Practice & Awareness		
	Session on: Well-being & Quality of life		
Panel Discussion			
16:05-16:20 Evening Coffee/Tea Break & Networking			
16:20-17:35	**Session on:** Palliative care and Alternative Medicine		
	Session on: Novel Drugs and Therapeutic Targets		
	Session on: Genetics, Genomics and Gene expression		
Panel Discussions			
Award Ceremony and Day 1 Concludes			

Program at Glance

September 01 Day 2	Day 2	
	Time	**General Session**
Keynote Forum	09:00-09:45	Keynote Talk 3
	09:45-10:30	Keynote Talk 4
10:30-10:45 Morning Coffee/Tea Break (Networking)		
10:45-11:45 International Workshop 1		
Plenary Sessions Forum		
11:45-13:00	**Session on**: Neurology and Neuroscience	
	Session on: Neurological Disorders and Stroke	
	Session on: Cognitive Neuroscience and Artificial Intelligence	
Panel Discussion		
13:00 -13:45 Afternoon Lunch Break		
13:45-15:50	**Session on**: Neurodegeneration and Neurodegenerative Diseases	
	Session on: Neuroinfections and Neuroimmunology	
	Session on: Neuroimaging and Biomarkers	
	Session on: Neurochemistry and Neuropharmacology	
	Session on: Integrated care and Family caregiving	
Panel Discussions		
15:50-16:05 Evening Coffee/Tea Break & Networking		
Poster Sessions		
Young Research Forum		
Video Presentations and Webinars		
Coffee/Tea Break 15:30-15:45 (Networking)		
Awards and Closing Ceremony		

NOTE: Program Shedule is subject to change with final allotment of the Speaker slots

Alzheimer's – Dementia Statistics and Prevalence

Alzheimer's disease is named after Dr. Alois Alzheimer. In 1906, Dr. Alzheimer noticed changes in the brain tissue of a woman who had died of an unusual mental illness. Her symptoms included memory loss, language problems, and unpredictable behavior. Worldwide Alzheimer's or a related Dementia is one of the greatest general medical problems confronting the world today. It influences more than 44 million individuals over the globe. Only 1-in-4 people with Alzheimer's disease have been diagnosed which is most common in Western Europe and least prevalent in Sub-Saharan Africa.

Alzheimer's is the 6th leading cause of death in the United States which is the only disease in the 10 leading causes of deaths in the United States that cannot be cured, prevented or slowed. An estimated 5.7 million Americans of all ages are living with Alzheimer's dementia in 2018. Currently every 1 in 10 Americans over the age of 65 has Alzheimer's. Between 2017 and 2025 every state is expected to see at least a 14% rise in the prevalence of Alzheimer's.

In the past, there has been an 89% increase in deaths due to Alzheimer's between 2000 and 2014. More than 5 million Americans are living with Alzheimer's and by 2050, it's estimated there will be as many as 16 million Americans living with Alzheimer's. As per the update, 1/3rd of Americans over age 85 are afflicted with the illness.

Proportion of People With Alzheimer's Disease in the United States by Age: 85+ years – 38%, 75-84 years, 44%, 65-74 years, 15%, <65 years, 4%

Within United States, Mississippi has a higher rate of Alzheimer's mortality than any other state at 45.8% followed by lowest in New York at 13.1%.

Aim and Goals:

- To improve both Quality of care and Quality of Life
- Expand Supports for People with Alzheimer's disease and their Families
- Enhance Public Awareness and Engagement
- Ensure well-trained palliative care through workforce training, education and awareness, and enhanced research.
- Advances in Disease Monitoring, Assessment and Care
- Translational Research and Therapy to Enable Predictive Drug Development

Major Scientific sessions:

Our conference will incorporate a wide range of research, care, technology and innovation topics. This involves a broad range of scientific and multidisciplinary aspects and we do welcome new ideas and topic proposals from the presenters and include those respective sessions based on their suggestions under conference panel.

- Alzheimer's: Symptoms, Causes, Diagnosis and Prevention
- Alzheimer's disease Pathogenesis and Disease mechanisms
- Geriatrics, Care Practice and Awareness
- Clinical Trials on Alzheimer's disease and Dementia
- Dementia Care Practice, Research and Development
- Vascular Dementia and Lewy bodies
- Aging and Gerontology
- Neurology and Neuroscience
- Neurodegeneration and Neurodegenerative Diseases
- Nursing Interventions, Care and Recovery
- Cognitive Neuroscience and Artificial Intelligence
- Neurological Disorders and Stroke
- Novel Drugs and Therapeutic Targets
- Neuropathology and Neuro Surgery
- Neurochemistry and Neuropharmacology
- Neuroimaging and Biomarkers
- Well-being and Quality of life
- Translational Research and Therapy
- Genetics, Genomics and Gene expression
- Mild cognitive impairment (MCI)
- Education in Gerontology and Geriatrics
- Integrated care and Family caregiving
- Mental Health and Psychiatry
- Palliative care and Alternative Medicine

The conference welcomes abstracts for Keynotes, Plenary sessions, Symposia, Workshops, Oral and Poster presentations in the fields not limited to Neuroscience and Neurology but also, **Biological and Medical Sciences | Health Sciences | Behavioural and Social Sciences | Humanities and Arts | Social Research, Policy, and Practice**

We have identified a number of key topics for which we would like presenters/participants to submit their Abstracts

Abstract Submission:

https://alzheimers.global-summit.com/abstract-submission.php

Registration:

https://alzheimers.global-summit.com/registration.php

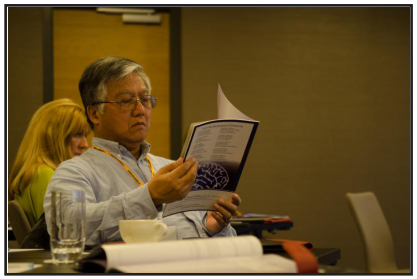

Who to Attend?

- Professors, Associate Professors, Assistant Professors from Academics
- PhD Scholars, Graduates and Post Graduates
- Neurologists
- Neuroscientists
- Neurosurgeons
- Neuroradiologists
- Neuropsychiatrists & Neuropsychologists
- Psychologists, Psychiatrists and Psychotherapists
- Interventional radiologists
- Physiatrists & Pharmacists
- Emergency Medicine Specialists
- International speakers & Researchers
- Scientists
- Students, College Faculty members
- Primary care Physicians & Hospitalists
- Nurses and Nurse practitioners
- Rehabilitation Specialists
- Occupational and Speech Therapists
- Business Entrepreneurs
- Healthcare professionals and Investigators
- Counselors and Coaches
- Social Workers
- Behavioral Health Administrators
- Primary Care providers
- Directors, CEO's of Organizations
- Association Presidents and Vice Presidents
- Noble laureates in Health Care and Medicine
- Pharmaceutical Companies
- Research Institutes and Members
- Supply Chain Companies
- Manufacturing Companies
- Training Centers and Institutes
- Industry Suppliers and Vendors
- Business Entrepreneurs

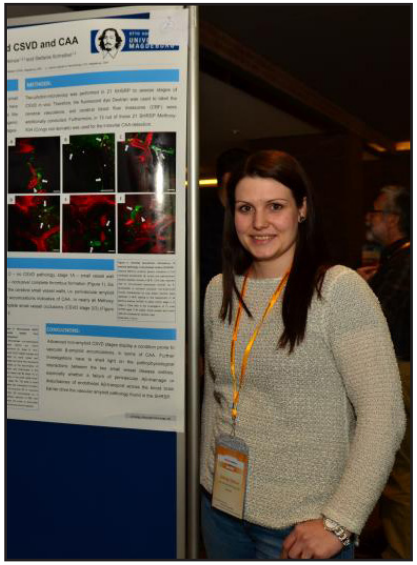

Glimpses of past conferences

Tourist Attractions

Tourism

Tourism also composes a large part of Boston's economy, with 21.2 million domestic and international visitors spending $8.3 billion in 2011; excluding visitors from Canada and Mexico, over 1.4 million international tourists visited Boston in 2014, with those from China and the United Kingdom leading the list.

The city of Boston has got many spots to visit are Freedom tail, New England Aquarium, Fenway Park, Museum of Fine Arts, Museum of Science, Old State House, John F. Kennedy Presidential Library and Museum, Boston National Historical Park, Franklin Park Zoo, Boston Children's Museum, Harvard Museum of Natural History, Skywalk Observatory, Boston Light, Peabody Museum of Archaeology and Ethnology, Harvard Art Museums, Bunker Hill Monument, Harvard Square and visiting nearby cities (a big bonus in Boston, since New York is right next door). And there is always some sort of festival; after all, there are 250,000 students in this buzzing city. Whenever you visit Boston, it really does have something for everyone and certainly Boston has it all.
