ABOUT TORONTO

Toronto, city, capital of the province of Ontario, southeastern Canada. It is the most populous city in Canada, a multicultural city, and the country's financial and commercial center. Its location on the northwestern shore of Lake Ontario, which forms part of the border between Canada and the United States, and its access to Atlantic shipping via the St. Lawrence Seaway and to major U.S. industrial center via the Great Lakes have enabled Toronto to become an important international trading center. Moreover, the city is positioned on the edge of some of the best farmland in Canada, with a climate favorable to growing a wide range of crops, thereby making Toronto transportation, distribution, and manufacturing center. Most importantly, its central location, along with a host of political policies favoring international trade, places this city with the greatest economic ties to, and influence from, the United States. Since the second half of the 20th century, the city has grown phenomenally, from a rather sedate provincial town—"Toronto the Good"—to a lively, thriving, cosmopolitan metropolitan area. Area 244 square miles (632 square km); metro. area, 2,280 square miles (5,905 square km). Pop. (2011) 2,615,060; metro. Area , 5,583,064; (2021) 2,794,356; metro. Area, 5,928,040.
