Columbus, Ohio, America's 15th-largest city is a diverse town with funky festivals, die-hard sports fans, and a famously long-lived gorilla. Read on for more wacky facts about this capital city. Forty-eight percent of Americans live within 600 miles of Columbus. Major cities like Atlanta, Chicago, and New York City are less than a day's drive away. When Ohio obtained its statehood in 1803, Columbus hadn't been built yet. Chillicothe, a modest city on the Scioto River, was the original state capital. The seat of government temporarily moved to Zanesville in 1810 before Chillicothe regained its capital city status three years later. Famous Columbusites include R.L. Stine, author of the bestselling Goosebumps novels, and celebrity chef Guy Fieri. His birth name was actually Ferry, an Americanized version of his grandparents' surname Fieri, which he adopted in 1995. The city's Scioto Mile is a string of parks on both sides of the Scioto River, with a huge interactive fountain and trails. On the west bank, the COSI science center offers hands-on exhibits and a planetarium. Downtown, the Columbus Museum of Art includes American and European paintings and a sculpture garden. The German Village area has restored brick houses built by 1800s settlers.
