NOVEMBER 5-7
2018

Dear Attendees,

We are glad to announce the **International Conference on Analytical and Bio analytical Techniques** to be held in Columbus, USA from November 05-07, 2018 organized by Conference Series LLC, USA in collaboration with generous support and cooperation from enthusiastic academicians and editorial Board Members.

This conference is a unique international platform that's a confluence of all stake holders of the ecosystem – Industry, Academia, Researchers, Innovators, Regulators – coming together to present and discuss current topics in HPLC, Mass Spectrometry, Gas Chromatography, Hyphenated Chromatographic Techniques & Separation Techniques, Pharmaceutical Analysis, Analytical Chemistry, Biomedical Analysis, Pharmaceutical Research Evaluations and will be available to discuss the latest issues and trends in Improving the delivery of Healthcare for the care of elderly. "Analytica Acta: Changing paradigms changing analytica".

As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts.

Purpose

International Conference on Analytical and Bio analytical Techniques is an arena for interdisciplinary exchange among professionals in the fields of Analytical Chemistry and research fields.

Goals

The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goals of the conference is to provide a transformative professional development experience through

Bringing together the world's scientific experts to catalyze and advance scientific knowledge about Analytical chemistry and Bio analytical techniques present the most recent research findings, and promote and enhance scientificcollaborations around the world

Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address regional, national and local responses to Elderly Population around the world and overcome barriers that limit access to care and services.

Objectives

After participating in this meeting, attendees should be able to

Discuss emerging issues in Analytical chemistry

Discuss and apply recent research findings related to Analytical chemistry

Reflect on the place of critical distance in Analytical chemistry
