About the conference

The “23rd Global Summit on Analytical and Bioanalytical Techniques” will be conducted on September 12-13, 2022, at Prague, Czech Republic and will feature timely keynote presentations, oral talks, poster presentations, and exhibitions. The theme of the conference is “Shaping the Future with Emerging Research in Analytical Chemistry”

This conference aims to provide a forum for researchers from various fields such as the chemical industry, food analysis, pharmacogenomics research, DNA analysis, method development and validation by providing a platform for critical analysis of new data, scope for analytic chemists, and the sharing of cutting-edge research findings and results on all aspects of bioanalytical and analytical techniques.

Theme: “Shaping the future with emerging research in analytical chemistry”

Why to attend the conference

To discuss and relate the issues and achievements in the field of Analytical Chemistry Conference series LLC Ltd Conferences has taken the initiative to gather the world class experts both from academic and industry background in a common platform at its Chemistry conferences. At our conference venue, there will also be oral/poster presentations by professors/ Asst.professors/research scholars and key notes presentations by key note speakers. Presentations will be peer-reviewed and awarded, also work will be published in respective supporting journals.

It will be a knowledge exchange from various eminent speakers and research scholars. It will address to the current scenario of analytical research which will help a research person continue his further research and achieve future endeavors.

Sessions of the conference

- Analytical Chemistry and Methodology
- Bioanalytical Methodology
- Polymer Science and Material Science
- Biopolymers and Biomaterials
- Chromatography
- Electrophoresis
- Spectroscopy
- Nuclear Magnetic Resonance Spectroscopy
- Environmental Analytical Chemistry
- Thermal Analysis and Glycaemic
- Advances in Separation Techniques
- Pharmaceutical Analytics
- Applications of Analytical and Bioanalytical Methods
- New Instrumentation and Equipment
- Regulatory Issues and Biosafety Challenges in Bio analysis
- Scope for Analytical Chemist
