4th International Conference on

ANESTHESIA

July 01-02, 2019
Valencia, Spain

#+44(2382) 146 717

SCIENTIFIC PROGRAM

DAY 1
Monday, 1st July

08:30-09:00 **Registrations**

09:00-09:30 **Introduction**

09:30-09:50 COFFEE BREAK

09:50-11:50 Meeting Hall 01 **KEYNOTE LECTURES**

11:50-13:10 **MEETING HALL**

Talks On:

- Sedation
- Ambulatory Anesthesia
- Pediatric Anesthesia
- Spinal Anesthesia

13:10-13:15 GROUP PHOTO

13:15-14:00 LUNCH BREAK

14:00-16:00 **MEETING HALL**

Talks On:

- NSAIDs
- Narcotics
- Inhibitory Neurosteroids
- Excitatory Neurosteroids

16:00-16:20 COFFEE BREAK

MEETING HALL (16:20-17:00)

Young Researchers in Anesthesia and Anesthesiology

DAY 2
Tuesday 2nd July

09:00-10:30 Meeting Hall 01 — **KEYNOTE LECTURES**

10:30-10:50 COFFEE BREAK

10:50-12:50 — **MEETING HALL**

Talks On:

- Mortality
- Pain
- Anesthetics
- Anxiolytics

12:50-13:35 LUNCH BREAK

13:35-15:55 — **MEETING HALL**

Talks On:

- Anesthesia Equipment
- Peripheral Nerve Block

15:55-16:15 COFFEE BREAK

MEETING HALL (16:15-17:00)

Poster Presentations

Awards & Closing Ceremony

Sang-Hwan Do
Seoul National University, Bundang Hospital, Republic of Korea

Presentation Title:

Effects of intraoperative magnesium sulphate administration on the incidence of chronic postsurgical pain in patients undergoing total knee arthroplasty

Biography:

Sang-Hwan Do is specialized in Orthopedic anesthesia, and has quite a few clinical experiences of using magnesium sulphate during surgeries of diverse kinds. Through his numerous publications on magnesium, he stresses the efficacies of this mineral in surgical patients, such as improvement of postoperative pain, potentiation of intraoperative neuromuscular blockade and so on. In this abstract, he suggests the possibility that magnesium could improve surgical outcome not only in the short-term but also in the long term period after surgery in terms of postoperative pain. Now he is working at Seoul National University Bundang Hospital.

Vakhtang Shoshiashvili
Research Institute of Clinical Medicine, European University.
Tbilisi, Georgia

Presentation Title:

Transnasal sphenopalatine ganglion block for postdural puncture headache treatment after spinal anesthesia – case report.

Biography:

Dr Vakhtang Shoshiashvili is specialized in anesthesiology and has a quite a few experiences of regional anesthesia and pain management. He also contributed in treatment of cancer pain conditions. Since 2013 he is an expert in anesthesia and intensive care at TSMU and Ministry of Health Care and Social Affairs Republic of Georgia. Currently he is also an associate professor at European University and since 2016 is working as an anesthesiologist at Research Institute of Clinical Medicine Tbilisi, Georgia.

Speaker Slots Available (10+)

Nikola Bradic

University Hospital Dubrava, Zagreb, Croatia

Presentation Title:

RIGHT HEART DYSFUNCTION IN CARDIAC SURGERY - PREVENTION AND MANAGEMENT

Biography:

Nikola Bradic, MD is working on Department of Cardiovascular Anesthesiology and Cardiac Intensive Medicine, University Hospital Dubrava, Zagreb, Croatia for the last twenty years. He is specialist of anesthesiology and subspecialist of intensive medicine. He is also senior lecturer in University North, Varazdin, Croatia, Department of Biomedical Sciences, and has lectures in topics of anesthesiology, resuscitation and intensive medicine. Currently is working on several scientific projects and multicenter trials from the field of cardiac anesthesiology and care of cardiac patients in intensive medicine. Primary interests are in patients' hemodynamics, pharmacotherapy, mechanical heart support and echocardiography.

Luis Tollinche

Memorial Sloan Kettering Cancer Center

Presentation Title:

Implementation of point of care ultrasound to confirm intraoperative placement of gastric tubes

Biography:

Is currently in his 13th year on faculty at Memorial Sloan Kettering Cancer Center; He is grateful to serve as a clinician at a world renowned cancer hospital alongside experts in medicine and academia. In addition to his clinical duties as an associate attending in the department of anesthesia and critical care medicine, he serves myriad leadership roles and functions. He is the Chair of Anesthesia QA and serves as a co-chair on the hospital RCA committee. He is also the Director of Robotic Anesthesia and serves on both Clinical Practice Committee and our M2/M6 platform committees. On the state level he serves dual roles on the New York State Society of Anesthesiologists where he is on the QA committee for the state and serves as an alternate delegate for the District of Manhattan. On a national level, he is an oral board examiner for the American Board of Anesthesiology.

Speaker Slots Available (10+)

Osama Yanes
Damascus hospital, Syria

Presentation Title:
Anesthesia in the Syrian crisis

Biography:
Osama Yanes M.D Anesthesia specialist since 1998. Worked in different anesthesia subspecialty such cardiac anesthesia oby-gyn and others and that at different hospitals mainly Damascus hospital Ibn –alnafees hospital and al – Basel heart center. Attended a course for one year at Ohio State University research training. Contributed to Euro SCORE model for cardiac surgery as a highest number of patients contribution in 2010. Awarded in Epidural Anesthesia from Ministry of Health in Syria.

Speaker Slots Available (10+)

A

Nikola Bradic
University Hospital Dubrava, Zagreb, Croatia

Presentation Title:
MANAGEMENT OF PRIMARY GRAFT DYSFUNCTION AFTER HEART TRANSPLANTATION

Biography:
Nikola Bradic, MD is working on Department of Cardiovascular Anesthesiology and Cardiac Intensive Medicine, University Hospital Dubrava, Zagreb, Croatia for the last twenty years. He is specialist of anesthesiology and subspecialist of intensive medicine. He is also senior lecturer in University North, Varazdin, Croatia, Department of Biomedical Sciences, and has lectures in topics of anesthesiology, resuscitation and intensive medicine. Currently is working on several scientific projects and multicenter trials from the field of cardiac anesthesiology and care of cardiac patients in intensive medicine. Primary interests are in patients' hemodynamics, pharmacotherapy, mechanical heart support and echocardiography.

Ashraf EL-Molla

Consultant Anesthesiologist, Saudi Arabia

Presentation Title:

Victims and Culprits of Evidence Biased and Chaotic Medicine presented by Hemodynamic Monitors

Biography:

Ernesto Delgado Cidranes

Complutense University Madrid, Spain

Presentation Title:

Real-time Neuroaxial inflammation in lumbar pain through PET-MRI: Looking at the future.

Biography:

Dr. Ernesto Delgado Cidranes MD. PhD. APMCM. FSNA. FSCTA is an Anesthesiology, Resuscitation and Intensive Care Professor at Complutense University Madrid, Spain. He is the Scientific Director of ISGAR Society (Internationa Dr. Ernesto Delgado Cidranes MD. PhD. APMCM. FSNA. FSCTA is an Anesthesiology, Resuscitation and Intensive Care Professor at Complutense University Madrid, Spain. He is the Scientific Director of ISGAR Society (International Society of Urogynecology, Aesthetic and Research), Scientific Chairman of UroGyneTV. Founder and CEO Advanced Pain & Aesthetic Management Center, Madrid.

Speaker Slots Available (10+)

Rudy Vitraludyono

Brawijaya University Faculty of Medicine, Malang, Indonesia

Presentation Title:

Brain Abcess in Cyanotic Congenital Heart Disease: (Double Out let Right Ventricle, Transposition of Great Artery, Pulmonary Atresia, Ventricular Septal Defect, Major Aorto Pulmonary Collateral Artery) a Case Report

Biography:

Rudy Vitraludyono has completed his specialist at Medical Faculty of Brawijaya University Malang East Java Indonesia. He is member of Pediatric Anesthesia Division of Saiful Anwar General Hospital Malang East Java Indonesia

Shagun Bhatia Shah

Rajiv Gandhi Cancer Institute and Research Centre (RGCI&RC)

Presentation Title:

Anaesthesia for Robotic Surgery: Patient Positioning, Ergonomics and Clinical Pearls

Biography:

Dr. Shagun Bhatia Shah is a motivated and dedicated anaesthesiologist with seventeen years of experience in anaesthesia and over 50 publications in various international peer reviewed journals. Her interest in oncoanaesthesia drove her to practice as a consultant at RGCI&RC. Her specific interests include recent advances in anaesthesia like USG-guided nerve blocks, difficult airway and anaesthesia for robotic surgery. She is certified in TOE (Trans oesophageal echocardiography) use and utilizes it for managing cardiac patients undergoing noncardiac oncosurgery. She has successfully conducted clinical trials like “Optic Nerve Sheath Diameter guided noninvasive ICP measurement in patients undergoing robotic surgery in steep Trendelenberg position” and is presently conducting the trial “ TOE for intraoperative goal directed fluid therapy in cardiac patients undergoing non cardiac oncosurgery and robotic surgery in ST-position” among others. She is ready to walk that extra mile with post- operative and terminally ill cancer patients to alleviate their pain and suffering.

Chandni Nigam

Imperial College London, United Kingdom

Presentation Title:

Title: Differences between the anaesthetic state and natural sleep

Biography:

Dr. Chandni Nigam is a graduate of Imperial College London, UK and is an ophthalmologist by profession. She has also completed a BSc in Surgery & Anaesthesia from her alma mater. She has held the position of President of the Imperial College Ophthalmology Society and is a published author of peer-reviewed articles.

Speaker Slots Available (10+)

Kent Berg.

Thomas Jefferson University Hospital, Philadelphia, PA

Presentation Title:

Title: Telemedicine in Anesthesia

Biography:

Dr. Berg completed his MD, MBA degrees from Tufts University School of Medicine in Boston, MA, USA in 2004. He completed his Anesthesia Residency and Adult Cardiothoracic Anesthesia Fellowship from the University of Florida (UF), Gainesville, FL, USA in 2009. Dr. Berg joined the faculty at UF in 2009 until he moved to Thomas Jefferson University Hospital, Philadelphia, PA, in Sept 2016, where he currently practices cardiothoracic anesthesia and is the Anesthesia Vice Chair of Information Systems & Technology.

Alkananda Behera

All India Institute of Medical Sciences (AIIMS) , New Delhi, India

Presentation Title:

Title: Postoperative analgesia for open midline incisions in Gynaecological Oncology Surgery: Ultrasound guided bilateral rectus sheath block with multimodal analgesia versus intrathecal morphine – A non-inferiority trial

Biography:

Alkananda Behera graduated from the prestigious All India Institute of Medical Sciences (AIIMS), New Delhi, which is the best ranking medical college in India over the past several decades. She completed her post-graduation (Doctor of Medicine) in Anaesthesia in June 2018 from the same college. She is currently working as a Senior Resident in the Department of Anaesthesiology, Pain Medicine and Critical Care at her alma mater. Her academic interests include regional anaesthesia, ultrasound-guided blocks, pain medicine and pediatric anaesthesia. She also actively participates in extra-curricular activities which includes music, dance, drama and sports.

Speaker Slots Available (10+)

Qufshe Bardar Oias Fazlul Baqui

Head of the Department of Pharmacology & Therapeutics and Project Director of Prime Medical College in Bangladesh

Presentation Title:

Postoperative Analgesic Use Pattern in a Tertiary Care Hospital in Bangladesh

Biography:

He is Prof. Dr. Qufshe Bardar Oias Fazlul Baqui, Former Professor & Head of the Department of Pharmacology & Therapeutics and Project Director in Prime Medical College in Bangladesh for last six years. He has joined in MD (AUCMS), Penang, Malaysia as Professor & Head of the department of Pharmacology on 1st April 2014. Currently he is working as Academic coordinator, Member of the review committee and Head of the department of Pharmacology and Therapeutics.

He has 30 years teaching experiences in the field of pharmacology and therapeutics. He has many publications in research activities published in National & International journal of which he has presented in Oxford University, Cambridge University in UK and WHO conference Chaingmai, Thailand.

He has attended many international conferences in Riyadh, Saudi Arabia, Malaysia, Thailand, UK and Bangladesh.

Itee Chowdhury

Rajiv Gandhi Cancer Institute, New Delhi

Presentation Title:

Pleth varibility index[PVI] based intraoperative fluid management in head and neck free flap reconstructive surgeries

Biography:

Itee Chowdhury MBBS, DA, DNB, is senior consultant in the department of anaesthesiology at Rajiv Gandhi Cancer Institute And Research Centre New Delhi India, working as oncoanaesthetist for the last twenty years. She is also post graduate guide for Diplomate Of National Board (DNB) Gov Of India, takes keen interest in research activity.

She has more than twenty publications in various anaesthesia journals. This project was concieved with the aim to find a cause of free flap failures involving reexplorations. The results were very encouraging and benefited reconstructive surgeons at her institute.

Speaker Slots Available (10+)

Eveline Claes

Jessa Hospital Hasselt, Belgium

Presentation Title:

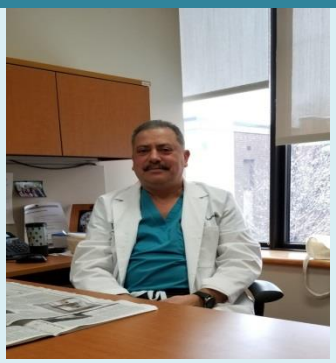

Quality of life three months after endo-CABG : An observational prospective cohort study

Biography:

Eveline Claes has completed her MD at the age of 26 and completed her specialism in Anesthesiology from the Catholic University of Leuven in 2017. She is currently fellow Intensive Care in the Jessa Hospital.

Dmitri Chamchad

Lankenau Institute of medical research, Wynnewood, Philadelphia USA

Presentation Title:

Different recovery protocols after scheduled Caesarian sections.

Biography:

Mahsa Babaie

Tehran University of Medical Sciences

Presentation Title:

Comparison of intraoperative and early postoperative efficacy of hypertonic saline versus mannitol as anti-edema therapy among patients with cerebral low grade glioma: A randomized clinical trial.

Biography:

Mahsa Babaie has completed her Pharm.D at the age of 26 years from Tehran University of Medical Sciences. She works as at Neurosurgery department as a pharmacist reserchear since 2016.

Jen-Yin Chen

Chi Mei Medical Center, Tainan, Taiwan

Presentation Title:

Changes of bowel sound parameters in patients receiving intravenous sedation for gastroscopy and colonoscopy - an observational study.

Jen-Yin Chen is specialized in anesthesia and pain management. She published several articles in the associations between nutrition and neuralgia. She has cooperated with Professor Lin and his students to create a specific analyzer of bowel sound to record, save, view and analyze bowel sounds since 2013. The bowel sound team wishes for analyzing the influence of anesthetics on intestinal peristalsis. Email: chenjenyin@gmail.com

Speaker Slots Available (10+)

Jessica Sullivan

University of East Anglia

Presentation Title:

Intra-tracheal haemorrhage and hypoxic VF arrest as a result of traumatic NG tube insertion

Biography

Jessica has completed her medical degree at the University of East Anglia. After completing her foundation years Jessica began working as a Junior clincial fellow at London St.Bartholomew's intensive care in order to further her exposure to anaesthesia. She has previously presented at a national conference in London – 'Medics Mentoring Weekend' and was commended for the exceptional standard of her presentation skills.

Cindy Yeoh

Memorial Sloan Kettering Cancer Center, New York, NY

Presentation Title:

Automated notifications improve time to anesthesia induction: Integrating health information technology systems to enhance perioperative efficiency

Biography:

Rola Hammoud

Clemenceau Medical Center, Beirut, Lebanon

Presentation Title:

Best Practices to ensure Patient Safety under Anesthesia

Biography:

Rola Hammoud is a graduate of **Brussels Free University** (General Medicine) in 199, and of the **American University of Beirut** as anesthesiologist in 1994. Pursued further training in intensive care and maternal anesthesia in the UK, and diplomate in loco-regional anesthesia from Marseilles University, France.

She holds a Masters in Hospital Management from **ESA business school and University Paris VII** (France), a Teaching diploma and a Mediation diploma.

Graduate of the **American College for Healthcare executives** (Fellow) on March 2013, Chicago-Illinois. Certified in the "Management of health care delivery for executives" from the **Harvard Business School** (2015-2016).

Lecturer on Anesthesiology , Patient Safety and Risk Management at multiple Lebanese universities' healthcare management programs. Regional speaker on Healthcare Quality and Accreditation.

She is Anesthesiologist & Chief Quality Officer at Clemenceau Medical Center- Beirut, Affiliated with Johns Hopkins Medicine International

Founder of the "Lebanese Society for Quality and Safety in Healthcare"

Coordinator of the PAFSA & WFSA "Patient Safety Committee"

Amritpal Singh Jandu

Broomfield Hospital (MEHT), UK

Presentation Title:

Major Quality Improvement Project: Recycling, Sustainability & "Green Anaesthesia"

Biography:

Amritpal Singh Jandu was awarded his medical degree (MBBS) and his bachelors of science (BSc) in clinical pharmacology by Kings College London. He has since gone onto pass the post graduate MRCP diploma (medicine) and is currently working towards completing the post graduate FRCA diploma (anaesthetics). Dr Jandu is currently working as an anaesthetist/intensivist at Broomfield Hospital (Essex, UK) and has published two papers as first author in the Journal of Intensive Care Society. He is passionate about environmental issues and keen to reduce the environmental impact of the National Health Service.

Speaker Slots Available (10+)

Mohsen Jahandideh

Isfahan University of Medical Sciences, Isfahan, Iran

Presentation Title:

Novel approaches to anesthesia in Electroconvulsive therapy

Biography:

Dr Mohsen Jahandideh was Born in 1981 in Esfahan, city of turquoise domes. He Graduated from medical school in 2008 from Azad university and always been passionate about anaesthesiology. Currently he is pursuing his career as a resident of anaesthesiology from univesity of medical science. In his free time, he enjoys going to gym, swimming and playing guitar.

Bhavna sriramka

Ims And Sum Hospital, Bhubaneswar,Orissa,India

Presentation Title:

Comparison of 4 mg dexamethasone versus 8 mg dexamethasone as an adjuvant to levobupivacaine in fascia iliaca block- a prospective study

Biography:

Dr Bhavna sriramka has completed her diploma in anesthesia and DNB Anesthesia in 2012 and has a special interest in academics and research in anesthesia especially in peripheral nerve blocks. Have more than 15 publications in National and International journal.

Speaker Slots Available (10+)

John Arnett Mitchell

Mount Sinai Medical Center, Chicago, Illinois

Presentation Title:

Prevention of Post-Operative Nausea and Vomiting by the Use of Rapid Sequence Intubation

Biography:

Zafri Yusoff

Duchess of Kent Hospital Sandakan Sabah Malaysia.

Presentation Title:

The study of the model to predict incidence of epidural anaesthesia conversion to general anaesthesia using pulse oximetry technology during lower segment caesarean section surgery

Biography:

Zafri Yusoff trained in anaesthesia for medical assistant and have performed epidural anaesthesia especially for caesarean section while working in Duchess of Kent Hospital Sandakan Sabah Malaysia. I contributed for peri operative anaesthesia curriculum development and also anaesthesia for medical assistant in Malaysian Ministry of Health. I have presented a paper regarding the epidural failure in peri operative anaesthesia conference in Langkawi Malaysia in 2013 and also in colloquium at University of Sultan Azlan Shah Kuala Kangsar Malaysia in 2017. At the moment also involved in teaching peri operative anaesthesia and gained experience while practicing anaesthesia at Queen Elizabeth Hospital

Dr. Muhammad Imran

United Kingdom

Presentation Title:

SATISFACTION OF PATIENTS WITH THE PREOPERATIVE ANAESTHETIST VISIT - AN AUDIT

Khusboo Mago

India

Presentation Title:

INCIDENCE OF DE NOVO ATRIAL FIBRILLATION IN POSTOPERATIVE CARDIAC SURGICAL PATIENTS: AN INDIAN EXPERIENCE

Biography:

Speaker Slots Available (10+)

Vladko Pelivanov

University of Dalhousie, Nova Scotia, Canada

Presentation Title:

CANNABIS and the future of pain management: a review of the current clinical evidence

Biography: Vladko Pelivanov is an anesthesiologist and pain physician who was born and raised in Skopje, North Macedonia, EU. He graduated from the University of "Saints Cyril and Methodious", including his residency training in Anesthesiology. He subsequently moved to Canada with his family and completed his anesthesiology residency training (yes, second one) at the University of Saskatchewan in 2014. He did fellowship training in chronic pain management before taking on an academic position with the Department of Anesthesiology, Pain Management and Perioperative Medicine at Dalhousie University in 2015. Vladko's clinical interests lie in general anesthesia and acute and chronic pain management. Outside of the hospital environment, Vladko loves spending time with his children and spouse as well as their new puppy Maggie.

Padma Puppala

FOUNDER, BECAUSE I SAID I WOULD

Presentation Title:

Use of clinical hypnosis as an adjunct in postoperative pain management of patients undergoing joint replacement surgery; a randomized case control study

Biography:

Padma Puppala has completed her masters in Anaesthesiology from Andhra Pradesh Universityof health sciences and obtained Fellowship from Royal college of Anaesthetists, London in 2001. She has also done an executive MBA from Indian school of business in 2014. Currently, she is the director of Anaesthesiology, critical care and pain at Fortis hospital Mohali, a 350 bedded tertiary care hospital in Punab, Northern India. She is a faculty of National board of postgraduate medical education and has been a guide for thesis projects of postgraduate trainees for last five years. Her areas of clinical expertice include acute pain management and regional anaesthesia in orthopaedic surgery.

Anesthesia

June 21-23, 2018 | Dublin, Ireland

UK: Conference Series llc LTD

47 Churchfield Road, London, W3 6AY

Toll Free: +0-800-014-8923

Day 1 June 21, 2018

09:00-09:30 Registrations

Hall - Lucan Suite

conferenceseries.com 09:30-10:00 **Opening Ceremony**

Keynote Forum

	Introduction
10:00-10:30	**Title: Novel regional therapies in the treatment of unresectable melanoma** **Mecker G Moller,** University of Miami, USA
10:30-11:00	**Title: Hepatic resection versus TACE in UICC stage T3 Hepatocellular carcinoma patients: A propensity scores matching study** **Chong Zhong,** The First Affiliated Hospital of Guangzhou University of Chinese Medicine, China
11:00-11:30	**Title: Anesthesia practice: US and international trends in anesthesiology manpower and practice management** **Gary Haynes,** Tulane University School of Medicine, USA

Group Photo 11:30-11:45 @ Foyer

Networking & Refreshment Break 11:45-12:00 @ Foyer

Session: General Surgery | Oncology and Surgery | Plastic Surgery | Anesthesia and Anesthesiology | Airway Management | Microsurgery | Nursing and Surgery

Session Chair: Gary Haynes, Tulane University School of Medicine, USA

Session Co-Chair: Choro Athiphro Kayina, All India Institute of Medical Sciences, India

Session Introduction

12:00-12:20	**Title: Confirmation of endotracheal tube placement: Comparison of ultrasound based versus conventional methods-An exploratory study** **Choro Athiphro Kayina,** All India Institute of Medical Sciences, India
12:20-12:40	**Title: Evaluation of simplified lymphatic microsurgical preventing healing approach (SLYMPHA) for the prevention of breast cancer - Related clinical lymphedema after axillary lymph node dissection** **Alicia Huff Vinyard,** Augusta University, USA
12:40-13:00	**Title: Ultrasound image analysis using deep learning algorithm for the diagnosis of thyroid nodules** **Young Jun Chai,** SMG-SNU Boramae Medical Center, South Korea

Lunch Break 13:00-13:45 @ Peacock Restaurant

13:45-14:05	**Title: Critical care air transfers** **Shalini Nalwad,** ICATT International Health Solutions Pvt Ltd, India
14:05-14:25	**Title: Time to stop chaos and confusion about perioperative fluid infusion: Current conceptions need correction** **Ahmad Nadeem Qamar,** Prince Sultan Military Medical City, Saudi Arabia
14:25-14:45	**Title: Quality of life and burnout of surgeons** **Fabiano Calixto Fortes de Arruda,** Goias Federal University, Brazil
14:45-15:05	**Title: The general surgery is an art, a well define discipline and never die** **Alberto Montori,** Sapienza University of Rome, Italy

Networking & Refreshment Break 15:05-15:20 @ Foyer

15:20-15:40	**Title: Gallstone disease: Evaluation and management in patients after bariatric surgery** **L. Renee Hilton,** Augusta University Medical Center, USA

15:40-16:00	**Title: The strategies of repairing the defects or deformities in superficial tissues and organs with skin flaps** **Jiake Chai,** The First Affiliated Hospital of PLA General Hospital, China
16:00-16:20	**Title: Early versus delayed cholecystectomies in patient with acute cholecystitis: A prospect from jersey** **Muhammad Aleem,** Jersey General Hospital, UK
16.20-16:40	**Title: Calcifying cystic odontogenic tumor a rare entity** **Muhammad Zeeshan Baig,** Islamabad Medical and Dental College, Pakistan
16:40-17:00	**Title: Hole detected in goal directed fluid therapy: The challenge of fluid challenge to optimize stroke volume** **Ahmad Nadeem Qamar,** Prince Sultan Military Medical City, Saudi Arabia
	Panel Discussion

Day 2 June 22, 2018

Hall - Lucan Suite

Keynote Forum

09:30-10:00	**Title: Awake craniotomy anesthesia: A comparison between the monitored anesthesia care (MAC) versus the asleep-awake-asleep (AAA) technique** **Punita Tripathi,** Johns Hopkins Bayview Medical Center, USA
10:00-10:30	**Title: Carbetocin at elective cesarean delivery: A non-inferiority study between 20 and 100 mcg** **Samar Tabl,** University of Saskatchewan, Canada
10:30-11:00	**Title: The combined use of acellular urinary bladder matrix with negative pressure for treatment of complex lower extremity wound coverage** **Claire Dillingham,** Wake Forest University, USA
	Networking & Refreshment Break 11:00-11:15 @ Foyer
	Sessions: Plastic Surgery | Robotic Surgery | Oncology and Surgery | Regional Anesthesia | Surgery Anesthesia | Critical Care | Sedation
	Session Chair: Claire Dillingham, Wake Forest University Medical School, USA
	Session Introduction
11:15-11:35	**Title: Evaluation of VASER's employment safety in liposuction surgery to improve body contouring** **Felipe Massignan,** Advanced Nucleus in Plastic Surgery, Brazil
11:35-11:55	**Title: Development of proficiency with robotic pancreaticoduodenectomy** **Sharona Ross,** University of Central Florida, USA
11:55-12:15	**Title: The effectiveness of the new method of "radial" sphincterotomy** **Kenan Yusif Zade,** Military Hospital of State Border Service of Azerbaijan Republic, Azerbaijan
12:15-12:35	**Title: Efficacy of ultrasound guided popliteal sciatic-Saphenous adductor canal block versus ankle block in diabetic foot surgery** **Nawfal Almubarak,** University of Basrah, Iraq
12:35-12:55	**Title: Effectiveness of a perioperative transthoracic ultrasound training program for students and residents** **Juliet June Ray, University of Miami Miller School of Medicine,** USA
	Lunch Break 12:55-13:40 @ Peacock Restaurant
13:40-14:00	**Title: Echocardiography guided septic shock management** **Walid Saad Alhabashy,** Mercy University Hospital, Ireland

14:00-14:20	**Title: Relationship between the resected stomach volume and early postoperative weight loss following laparoscopic sleeve gastrectomy** **Mohammed Abdallah Salman,** Cairo University, Egypt
14:20-14:40	**Title: Combined real time ultrasound scan and fiberoptic bronchoscopy for percutaneous dilatational tracheostomy: A safe technique** **Ahmed Abdelaatti,** University Hospital Galway, Ireland
14:40-15:00	**Title: Robotic transhiatal esophagectomy** **Sharona Ross,** University of Central Florida, USA

Networking & Refreshment Break 15:00-15:15 @ Foyer

Poster Presentation 15:15-15:45 @ Foyer

P1	**Title: Perioperative intravenous lidocaine is as effective as thoracic epidural analgesia on postoperative pain and lung function following upper abdominal surgery** **Asmaa Moatasem,** Assiut University, Egypt
P2	**Title: The effect of deep neuromuscular block on surgical stress response during laparoscopic gastrectomy** **Ah-Young Oh,** Seoul National University Bundang Hospital, South Korea
P3	**Title: Downregulation of neuroligin1 ameliorates postoperative pain through inhibiting neuroligin1/postsynaptic density (PSD) 95-mediated synaptic targeting of α-amino-3-hydroxy-5-methyl-4-isoxazole propionate (AMPA) receptor *GluR*1 subunits in rat dorsal horns** **Ruijuan Guo,** Beijing Friendship Hospital, China
P4	**Title: An unusual presentation of undiagnosed gastro esophageal reflux disease (GERD) during general anesthesia for an elective surgery** **Jinghui Chen,** Singapore General Hospital, Singapore
P5	**Title: Run reversible principal for sedation safety, practitioner and patient serenity** **Ahmad Nadeem Qamar,** Prince Sultan Military Medical City, Saudi Arabia

Closing Ceremony

Day 3 June 23, 2018

Hall - Lucan Suite

Networking and Lunch 13:00-13:45 @ Peacock Restaurant
