- Anesthetic Adjunct
- Steroid Anesthetics
- Propofol
- Benefits of Anesthesia
- Anxiolytics
- Narcotics
- Paralytics
- Pain
- Analgesia
- NSAIDs
- Amnesia
- Postoperative Nausea and Vomiting
- Acute Stress Response
- Peripheral Nerve Block
- Mortality
- Emergence
- Coma
- Anesthesia Equipment
- Animal Anesthesia

Why to join the summit

- Meet Experts & Influencers
- Networking Opportunities
- Learning In a global Space
- Added Research Value
- Investment in Knowledge for future

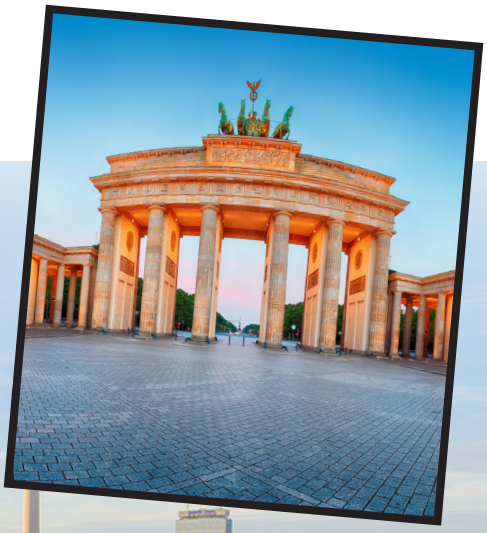

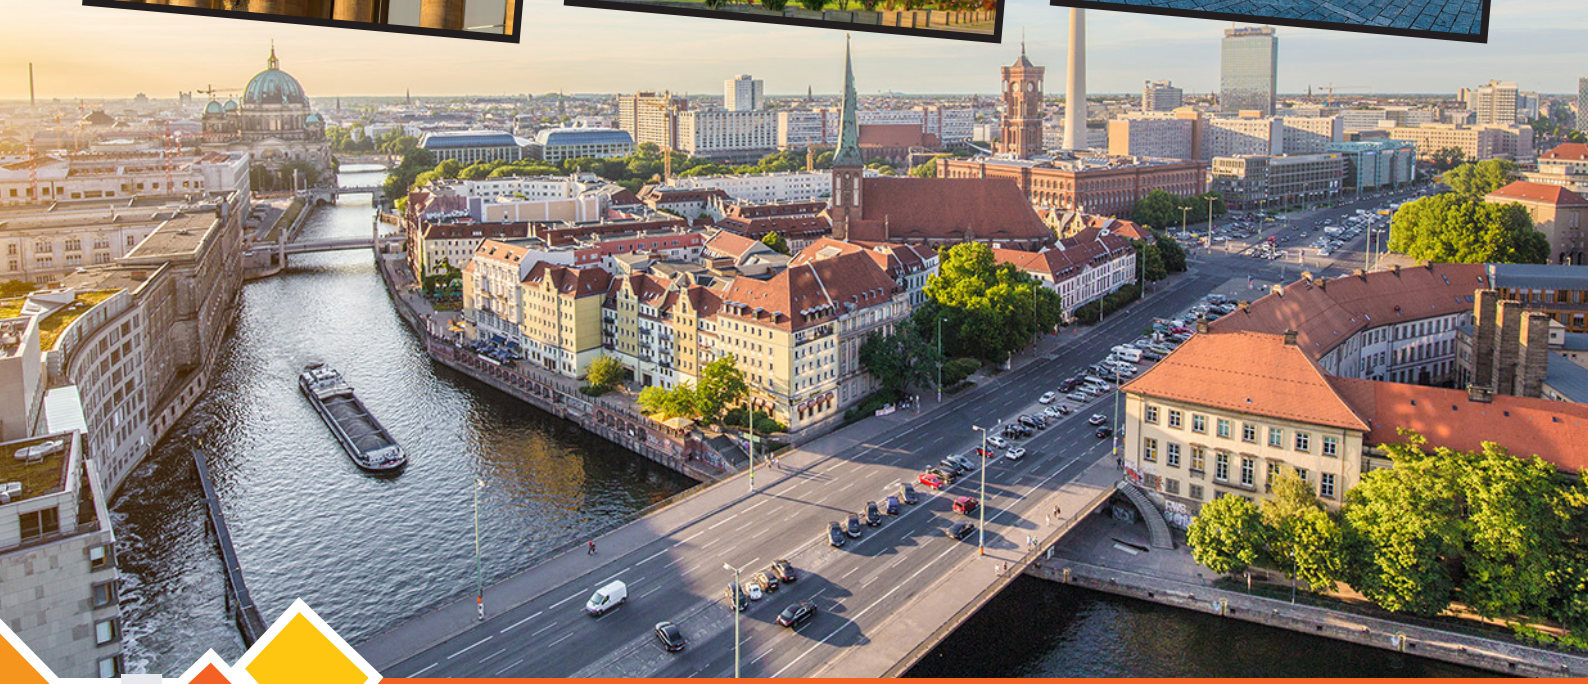

About Berlin

Berlin is the capital and largest city of Germany by both area and population, and its 3,711,930 inhabitants make it the second most populous city proper of the European Union after London. The city is one of Germany's 16 federal states, and it is surrounded by the state of Brandenburg, the capital of which, Potsdam, is contiguous with Berlin. The two cities are at the center of the Berlin/Brandenburg Metropolitan Region, which is, with 6,004,857 inhabitants, Germany's third-largest metropolitan region after the Rhine-Ruhr and Rhine-Main regions. Berlin straddles the banks of the River Spree, which flows into the River Havel in the western borough of Spandau. Among the city's main topographical features are the many lakes in the western and south eastern boroughs, formed by the Spree, Havel, and Dahme rivers, the largest of which is Lake Müggelsee. Due to its location in the European Plain, Berlin is influenced by a temperate seasonal climate.
