Thursday 13th December 2018 | **Day 1**

09:00-09:30 Registration Opens

Hall

09:30-10:00 Opening Ceremony

Special Session

10:00-11:00

Title: Endovascular thrombectomy - Undergoing procedural sedation vs general anesthesia in acute stroke patients: A systematic review of the literature and singlecentre retrospective study

Aislinn Kilian, Cleveland Clinic Abu Dhabi, UAE

11:00-11:30 Networking and Refreshments Break with Group Photo

Scientific Sessions: Anesthetics | Cardiothoracic Anesthesia | Spinal Anesthesia | Paediatric Anesthesia | Veterinary Anesthesia | Analgesic Nephropathy | Neuro Oncology and Surgery Analgesic | Down Syndrome Analgesic

Session Chair: **Ahmed Yahya Ayoub,** Al Dhafra Hospitals, UAE

11:30-12:00

Title: Perioperative analgesia in thoracic surgery: What is the best approach?

Nizar Asadi, Royal Brompton and Harefield Foundation Trust, UK

12:00-12:30

Title: Issues and challenges of pediatric anesthesia in Bangladesh

Azad Abul Kalam, Combined Military Hospital, Bangladesh

12:30-13:00

Title: Raynaud's phenomenon during anesthesia for liposuction

Soha Talaat, National Heart Institute, Egypt

Lunch Break 13:00-14:00 @ Restaurant

14:00-15:00

Keynote Presentation

Title: Behavioral changes in children receiving anesthesia

Hany Mohamed Elzahaby, Ain Shams University, Egypt

15:00-15:30

Title: Anesthesia and environment and relevance of Total Intravenous Anesthesia

Khoisnam Dhananjay Singh, Burjeel Royal Hospital, UAE

15:30-16:00

Title: Quality improvement report examining the effectiveness of postoperative intravenous lidocaine infusions in improving acute postoperative pain

Nadir Ibrahim, University of Manchester, UK

Video Presentation

16:00-16:30

Title: Reducing opioid consumption through multimodal analgesia within an enhanced recovery pathway

Vicki Morton, Providence Anesthesiology Associates, USA

16:30-17:00 Networking and Refreshments Break @ Foyer

Panel Discussion

Friday 14th December 2018 | **Day 2**

Hall

Workshop

10:00-11:00

Title: Pivotis in diagnoising back pain radiating to the front of the lower extrimities
Alicja Steiner, Pain Management Physician, USA

11:00-11:30 Networking and Refreshments Break @ Foyer

Special Session

11:30-12:30

Title: Patient and family caregiver related barriers to effective cancer pain control
Ahmed Yahya Ayoub, Al Dhafra Hospitals, UAE

Scientific Sessions: Anesthetics Impact on Brain | Anesthetic Medications and Drugs | Airway Management | Pain Research And Management | Palliative Nursing Care | Pain Relief and Neuro modulation | Advances in Analgesic Medicine

Session Chair: **Soha Talaat,** National Heart Institute, Egypt

12:30-13:00

Title: Anesthesia for the micropremie
Hany Mohamed Elzahaby, Ain Shams University, Egypt

Lunch Break 13:00-14:00 @ Restaurant

14:00-14:30

Title: Dexmedetomidine and Remifentanil is used as total intravenous Anesthetic agents in providing general anesthesia for a 3 month old infant for a Posterior Sagittal Anorectoplasty (PSARP)
Ayesha Jabeen Ali, KK Women's and Children's Hospital, Singapore

14:30-15:00

Title: CPR- Engagement program designed for health care practitioners
Fouz sharaf Alzahrani, Alyamamah University, Saudi Arabia

Poster Presentations 15:00 - 16:00

AM-1

Title: Audit of perioperative anaemia in vascular patients at the countess of Chester Hospital, UK
Mohamed Khafaga, Countess of Chester Hospital, UK

AM-2

Title: Brain abscess evacuation in children with cyanotic congenital heart disease (Atresia Pulmonal, Ventricular Septal Defect, Patent Ductus Arteriosus, Overriding Aorta, Mayor Aorto Pulmonary Collateral Artery) – A case report
Muhammad Aulia Arifahmi, Brawijaya University, Indonesia

AM-3

Title: Observational study into anesthetic risks posed for patients undergoing gastro-intestinal procedures under mac/conscious sedation posed for patients
Samie Asghar Dogar, Aga Khan University, Pakistan

AM-4

Title: Knowledge and attitude towards first aid: A cross-sectional study in the United Arab Emirates
Ahmad Osama Saqer, University of Sharjah College of Medicine, UAE

AM-5

Title: Dexmedetomidine and Remifentanil is used as total intravenous Anesthetic agents in providing general anesthesia for a 3 month old infant for a Posterior Sagittal Anorectoplasty (PSARP)
Ayesha Jabeen Ali, KK Women's and Children's Hospital, Singapore

Panel Discussion

Closing Cermony
