Our Programme

Our programme aims to explore the recent inventions and their applications by creating a fine platform for all the professionals and delegates from Chemical Engineering background to reach the ultimate goals for healthy future.

We encourage the discussions through networking, presentations, workshops, symposia and debates between Biofuels and Bioenergy companies, scientists, graduates, professors and researchers and also pleased to give industries the opportunity to explore themselves through exhibitions.

Venue & Hospitality

Bali is the province of Indonesia and is located in the westernmost of Lesser Sunda Islands. The Island of bali is surrounded with small islands Nusa Penida, Nusa Cenigan, Nusa Lembongan. Indonesia is the main tourist destination which has significant number of tourists. It's a coral triangle with high biodiversity of marine species. The main tourist locations of Bali are sanur, seminyak, Jimbaran, nusa dua and pecatu, kuta. The Bali tradition espoused the pre-existing animistic traditions of the indigenous people. This influence reinforces the belief that the gods and goddesses are present in all things. Every element of nature, therefore, possesses its own power, which imitates the power of the gods. Ritualising states of self-control are a notable feature of religious expression among the people, who for this reason have become famous for their graceful and decorous behaviour.

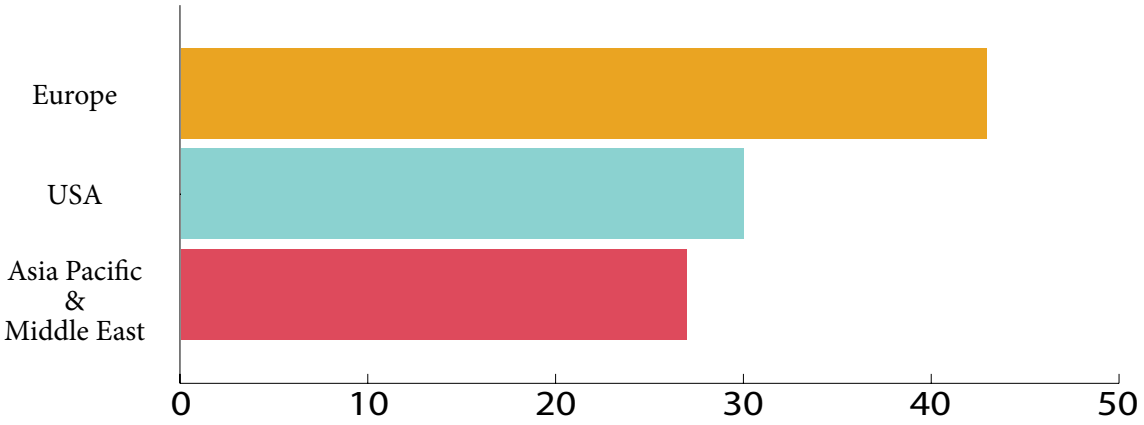

our DELEGATE is your CLIENT
