B2B Meetings

Dear Attendees,

We are glad to announce the Annual Congress on Immunology & Immunotechnology to be held in Zurich, Switzerland from September 13-14, 2018 organized by Conference Series LLC, USA in collaboration with generous support and cooperation from enthusiastic academicians and editorial Board Members.

Our Annual Meeting (Immunology Congress 2018) is both a high quality meeting and a platform for discussion amongst the Immunologist, Research Scholars, Doctors, and Students and provides an informal networking opportunity to form new relationships, and strengthen existing ones.

As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts.

Life is full of give and take. Make it count in your professional life. Attend the Annual Congress on Immunology & Immunotechnology to network with your peers, exchange expertise and experiences, and arm yourself with the latest information to take your department to the next level.

We look forward to personally welcoming you to Zurich this September 2018.

Sincerely,
Immunology Congress 2018
Organizing Committee

Our International Open Access Journals

- 700+ Leading-edge Peer Reviewed Open Access Journals
- 21 Day Rapid Review Process
- 50000+ Editorial Board Team, 35000+ Reviewers team
- 30 Million Readers and High Visibility
- 1000+ Scientific Associations Collaborations
- 100000+ facebook fans Likes
- Publication immediately after acceptance
- Quality and Quick editorial, review processing

Salient Features

- Easy to Submit and Review Systems
- High Quality and Fast Publishing Guaranteed
- Unbiased, quality-oriented, and transparent reviews
- Truly impartial recognition of the best papers
- Feedback on the impact of every article
- Enhanced feature: Audio version of published paper
- Digital articles to share and explore
- Sharing option: Social networking enabled
- Authors, reviewers and editors are provided with scientific credits
- User friendly/feasible website articles translations across more than 50 world languages

Our International Scientific Conferences

- More than 3000 Conferences happening across the globe
- Conferences organized in Medical, Pharma, Engineering, Science, Technology and Business.
- CME/CPD Accredited Conferences fostering professional and Personal development
- Continuum of education through organized scientific program
- Renowned speakers and scientists representing from 40 countries
- Highly Interactive sessions and Panel Discussions
- B2B Meetings offers perfect platform for Global Networking

Salient Features

- Robust on-line publicity for all the speakers and organizing committee members
- Career Guidance Workshops for students and early career researchers
- Accepted Abstracts will be published in various indexed journals
- Accepted abstracts will be labeled with a Digital Object Identification Number (DOI) provided by Cross Ref
- Creation of speakers and abstracts pages in Google
- Opportunity to publish full Manu Scripts in our Open Access Journals

Special Issues : All accepted abstracts will be
published inrespective Conference Series LLC Journals
Each abstract will be provided with digital Object Identifier by Crossref

About Conference

Immunology Congress 2018

Immunology Congress 2018 Conference website is attracting 25000+ Immunologists & Immunologists, Cellular & Molecular Specialists online visitors ranging from Researchers, Academicians and Business professionals, who are working in this field. This unique opportunity that we extend to our speakers and attendees is not being offered by any other conference organizers. Through this the abstracts and research profiles of our speakers and organizing committee members get global visibility which is an additional feature that you would be receiving in addition to networking opportunities before, during and after the conference.

Immunology Congress 2018 salient features

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Meet with new vendors and suppliers

How Conference Series Conferences differs from others?

- 3000+ Conferences across the globe in 30+ countries all through the year
- Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

Goals

- The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goals of the conference is to provide a transformative professional development experience through
- Bringing together the world's scientific experts to catalyze and advance scientific knowledge about cellular & Molecular immunology present the most recent research findings, and promote and enhance scientific collaborations around the world.
- Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address regional, national and local responses to Elderly Population around the world and overcome barriers that limit access to care and services.

About Conference

Objectives

- After participating in this meeting, attendees should be able to
- Discuss emerging issues in Cellular & Molecular Immunology
- Discuss and apply recent research findings related to Cellular & Molecular Immunology
- Reflect on the place of critical distance in Cellular & Molecular Immunology

Who should attend

Annual Congress on Immunology & Immunotechnology is exclusively designed for Immunologists, Cellular & Molecular Specialist, Physicians, Academicians, Young researchers, Health care professionals, attorneys, philosophers and others engaged in endeavors related to Immunology Research, Immunotechnological advances & business.

About hosting organization

Conference Series is the world's leading specialist in organizing Academic, Scientific and Business conferences, meetings, symposiums and exhibitions in different verticals and horizontals like Medical, Pharma, Engineering, Science, Technology and Business to promote scientific research. Every year we host more than 3000+ global events inclusive of 1000+ Conferences 1000+ Symposiums 1000+ Workshops in USA, Europe, Middle East and Asia with the generous support and cooperation from our 30000+ Editorial Board Members, 1000+ Scientific Societies. All the conference proceedings are published in the special issues of our 700+ Open Access International Journals with the DOI provided by Crossref

MajorSessions

- Immunogenomics
- Veterinary Immunology & Immunopathology
- Vaccines & Immunotherapy
- Immunotoxicology & Molecular Biomarkers
- Immunoresearch & Immunotechnology
- Immunological Clinical Practices &Trials
- Pediatrics Immunology
- Immunosenescence
- Cancer & Tumor Immunology
- Allergies & Hypersensitivity
- Clinical Immunology: Current & Future Trends
- Lymph-proliferative Disorders
- Immunodermatology
- Immunohematology
- Humoral & Cellular Immunology
- Neuroimmunology
- Mucosal Immunology
- Ocular Immunology & Inflammation
- Autoimmune & Inflammatory Diseases
- Reproductive & Behavioral Immunology
- Microbial, Parasitic, Viral and Fungal immunology
- Nutritional Immunology
- Eco-Immunology:Evolutive Aspects & Future Perspectives
- Transplantation Immunology
- Computational Immunology
- Immunodeficiency

About Zürich

Zürich is the largest city of Switzerland by land area and population. It is the financial center of Switzerland, houses the stock exchange and the headquarters of a large number of national and international companies, and also home of World FIFA's headquarter. German Swiss national and international media agencies as well as the German Swiss national TV channel company are also located here. Its two major universities, ETH Zürich (Swiss Federal Institute of Technology, 21 Nobel Prize laureates) and University of Zürich (12 Nobel Prize laureates) are listed among world's 15, or 50, respectively, best universities. Because Zürich is the central node of the Swiss-wide train network and also runs the biggest and busiest international airport in the country, it generally is the first place where tourists arrive. Because of the city's close distance to tourist resorts in the Swiss Alps and its mountainous scenery, it is often referred to as the "portal to the Alps".

Zürich Transport:
Zürich is famous for its highly efficient, clean and safe public transport system, owned by the several municipal transport agencies and managed by the Zürcher Verkehrsverbund , which covers the entire canton of Zürich, plus some municipalities in bordering cantons for the passenger's convenience. The network includes trams, buses (local city/ municipality buses as well as the yellow bright Swiss Post Auto buses), suburban trains (S-Bahn), regular trains (SBB), cable cars and boats. The size and complexity of the network may be daunting at first, but you will soon realize that there are dozens of ways to get from one place to another and following any of them will still be efficient. ZVV's transport system is coherently and comprehensively integrated (fare-wise and timetable-wise) into Switzerland's Federal Railways system SBB-CFF-FFS, Swiss Post Auto bus network, and any cities/area's local bus and tram system of the covered area.

Swiss cuisine:
Swiss cuisine is distinctive and unique, and as any other national one, it was formed under the influence of different environmental, social, geographical, economic and historical factors. The main feature of Swiss cuisine is considered to be an abundance and variety of products used for cooking. Few traditional Swiss dishes are Zürigeschnätzlets, Rösti, Würste , Chnöpfli, Fondue, Raclette, Hiltl, Züri-Gschnätzlets, Bona Dea.
