*Dear Colleagues,*

We are delighted to announce our **7th World Congress on Mental Health, Psychiatry and Wellbeing** scheduled from **March 27-28, 2020** in **Barcelona, Spain**.

With the hope that digital health is empowering to reduce inefficiencies in healthcare delivery, improving access, reducing costs with relevance to helathcare data Security and making medicine more personalized and precise, we came up with the new edition of Digital Health. This will provide an international platform to the worldwide delegates to present their own views and principles with a discussion forum on several sessions.

Emotional wellness is not recently the nonattendance of mental issue. It is characterized as a condition of prosperity in which each individual understands his or her own potential, can adapt to the typical worries of life, can work gainfully and productively, and can make a commitment to her or his group. Emotional well-being impacts every single one of us. We as a whole have emotional well-being, similarly as we as a whole have physical wellbeing. Individuals living with an emotional well-being issue or condition can encounter positive psychological well-being, and an individual may encounter poor emotional wellness without a psychological wellness condition. Emotional wellness is not settled.

**Annual Mental Health 2020** promises that you will experience a great event. Starting a walk by knowing the experiences of other successful people will help you to reach your destination soon. We believe that this will be the best platform to know it.

Then what are you waiting for, come let us meet there and learn and share more..
