7th World Congress and Exhibition on

Antibiotics and Antibiotic Resistance

March 16-17, 2020 London, UK

B2B Meetings

Invitation

Dear Attendees,

We are glad to announce the 7th World Congress and Exhibition on Antibiotics and Antibiotic Resistance to be held in London, UK from March 16-17, 2020 organized by Conference Series LLC Ltd in collaboration with generous support and cooperation from enthusiastic academicians and editorial Board Members.

Antibiotics 2020 conference features highly enlightening and interactive sessions to encourage the exchange of ideas across a wide range of disciplines in the field of Antibiotics and Antibiotic Resistance. The conference includes explicit keynote talks from distinguished scientists, plenary sessions, Poster competition, Young Researcher sessions, Symposiums, Workshop and Exhibitions. The conference highlights the theme "*Focusing on Novel Strategies in Antibiotics Research*" covering all important aspects in Antibiotics and Antibiotic Resistance.

As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts.

Life is full of give and take. Make it count in your professional life. Attend the Antibiotics Conference to network with your peers, exchange expertise and experiences, and arm yourself with the latest information to take your department to the next level.

We look forward to personally welcoming you to London this June

Sincerely,
Antibiotics 2020
Organizing Committee

About Us

Our International Open Access Journals

- 700+ Leading-edge Peer Reviewed Open Access Journals
- 21 Day Rapid Review Process
- 50000+ Editorial Board Team, 35000+ Reviewers team
- 30 Million Readers and High Visibility
- 1000+ Scientific Associations Collaborations
- 100000+ facebook fans Likes
- Publication immediately after acceptance
- Quality and Quick editorial, review processing

Salient Features

- Easy to Submit and Review Systems
- High Quality and Fast Publishing Guaranteed
- Unbiased, quality-oriented, and transparent reviews
- Truly impartial recognition of the best papers
- Feedback on the impact of every article
- Enhanced feature: Audio version of published paper
- Digital articles to share and explore
- Sharing option: Social networking enabled
- Authors, reviewers and editors are provided with scientific credits
- User friendly/feasible website articles translations across more than 50 world languages

Our International Scientific Conferences

- More than 3000 Conferences happening across the globe
- Conferences organized in Medical, Pharma, Engineering, Science, Technology and Business.
- CME/CPD Accredited Conferences fostering professional and Personal development
- Continuum of education through organized scientific program
- Renowned speakers and scientists representing from 40 countries
- Highly Interactive sessions and Panel Discussions
- B2B Meetings offers perfect platform for Global Networking

Salient Features

- Robust on-line publicity for all the speakers and organizing committee members
- Career Guidance Workshops for students and early career researchers
- Accepted Abstracts will be published in various indexed journals
- Accepted abstracts will be labeled with a Digital Object Identification Number (DOI) provided by Cross Ref
- Creation of speakers and abstracts pages in Google
- Opportunity to publish full Manu Scripts in our Open Access Journals

Special Issues : All accepted abstracts will be

published inrespective Conference Series Journals

Each abstract will be provided with digital Object Identifier by Crossref

About Conference

Antibiotics 2020 Conference website is attracting 25000+ Doctors, Public Health Researchers, Academicians, Practitioners, Early Career Scholars, students along with Industries, Organizations and other key stake holders from Healthcare and Medicine who are working in this field. This unique opportunity that we extend to our speakers and attendees is not being offered by any other conference organizers. Through this the abstracts and research profiles of our speakers and organizing committee members getting global visibility which is an additional feature that you would be receiving in addition to networking opportunities before, during and after the conference.

Antibiotics 2020 salient features

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Meet with new vendors and suppliers

How Conference Series Conferences differs from others?

- 3000+ Conferences across the globe in 30+ countries all through the year
- Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

Goals

- The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goals of the conference is to provide a transformative professional development experience through
- Bringing together the world's scientific experts to catalyze and advance scientific knowledge about Antibiotics and Antibiotic Resistance to present the most recent research findings, and promote and enhance scientific collaborations around the world.
- Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address regional, national and local responses to the Population around the world and overcome barriers that limit access to care and services.

Antibiotics 2020

B2B Meetings

About Conference

Objectives

After participating in this meeting, attendees should be able to

- Discuss emerging issues inAntibiotics and Antibiotic Resistance
- Discuss and apply recent research findings related toAntibiotics and Antibiotic Resistance
- Reflect on the place of critical distance inAntibiotics and Antibiotic Resistance

Who should attend

Antibiotics 2020 is a platform to discuss and learn about the latest advancements in the field of Antibiotics and Antibiotic Resistance as the world's consideration turned regarding the urgency of new antibiotics as the antimicrobial resistance is growing day by day. Many developed nations and International health organizations are trying to focus of the current situation and making new policies to prevent the adverse effects of Antibiotic resistance.This 2-day conference gathers researchers, academia, labs, Drug Manufacturers, government agencies, health professionals, hospitals, young investigators, pharma and labs and presents their opinions through key notes, and case study presentations. This conference lays a platform for all the researchers working in the field of Antibiotics to know the latest developments and the current situation of the Antibiotic resistance problem..

About hosting organization

Conference Series is the world's leading specialist in organizing Academic, Scientific and Business conferences, meetings, symposiums and exhibitions in different verticals and horizontals like Medical, Pharma, Engineering, Science, Technology and Business to promote scientific research. Every year we host more than 3000+ global events inclusive of 1000+ Conferences 1000+ Symposiums 1000+ Workshops in USA, Europe, Middle East and Asia with the generous support and cooperation from our 30000+ Editorial Board Members, 1000+ Scientific Societies. All the conference proceedings are published in the special issues of our 700+ Open Access International Journals with the DOI provided by Crossref

MajorSessions

- Antibiotics
- Antimicrobial Therapy
- Antimicrobial Peptides
- Antibiotics for Emerging & Re-Emerging Diseases
- Drug Discovery Technologies in Antibiotics
- Antibiotic production and Delivery method
- Microorganisms Producing Antibiotics
- Applications of Antibiotics
- Veterinary Importance of Antibiotics
- Antibiotics for Oncology
- Antibiotics Overuse and Resistance
- Antibiotic-resistant Bacterial infections
- Mechanism and Evolution of Antibiotic Resistance
- Genetics of Antibiotic Resistance
- Clinical Trials of Antibiotics
- Clinical and Economic Burden of Antibiotic Resistance
- Antibiotics: Market Analysis & Business Opportunities
- Prevention and Control of Antibiotic resistance
- New antibiotics and non-antibiotic approaches

Antibiotics 2020

About London

London is the biggest city in Western Europe, and the world's largest financial centre and also the capital of England and the United Kingdom. It is the world's leading financial centre for international business and commerce and is one of the command centres for the global economy. The economy of London is dominated by service industries, particularly financial services and associated professional services, which have strong links with the economy in other parts of the United Kingdom and internationally.

The London pharmaceutical industry has been an established economic sector since the late 1880s. Throughout the decades, this sector has continued to expand both in terms of revenues and of its scope and significance. This trend has been particularly marked during the past ten years. The pharmaceutical sector was among the top five most important contributors to the national economy. Currently London has the 9th largest pharmaceutical market in the world. Recent market research has shown that there are many reasons to be positive about the future of this industry, as it is estimated that by 2018 the sector will have grown by 2 per cent.

London is at the heart of the UK's pharmaceutical sector. A government survey estimated that towards the end of 2013 there were 82 pharmaceutical sites in London. This industry sector generates approximately 70,000 jobs nationwide, the vast majority of which are based in London. The 2014 Strength and Opportunities report showed that approximately 15,000 people are employed in this sector in London, making the British capital the second best place in the country to find a job in this industry. During the past twelve months, nearly 2,000 new pharmaceutical jobs were created in London. Approximately 33 per cent of all pharmaceutical jobs are in R&D roles, but this is not the only area that generates employment. Managerial roles and sales positions are also common entry routes into this industry sector.
