4th International Conference on

Antimicrobials, Multiple Drug Resistance and Antibiotics Resistance

April 20-21, 2018
Las Vegas, USA

Invitation

Antibiotics Resistance 2018

6 Plenary Sessions
16+ Hrs of Knowledge Exchange
3 Panel Discussions
2+ hours Networking Lunch
8 Keynote Speakers

Dear Attendees,

We are glad to announce the **4th International Conference on Antimicrobials, Multiple Drug Resistance and Antibiotics Resistance in Las Vegas, USA** from April 20-21, 2018 organized by Conference Series LLC Ltd.

This conference is a unique international platform that's a confluence of all professors, Scientists, Academia, Researchers, Innovators, Regulators – coming together to present and discuss current topics in Antibiotics and Antimicrobials resistance, Genetics and Proteomics of antimicrobial resistance, Organizing antibiotic surveillance, Safety Concern usage of Antimicrobials, Safety Concern usage of Antibiotics drugs, ARG genetic linkages, Criteria of evaluation of quality of Antimicrobials, Criteria of evaluation of quality of Antibiotics drugs, Role of long term antibiotics & antimicrobial in diseases and will be available to discuss with you the latest issues and trends in Overcoming Milestones towards Antibiotics Resistance 2018 "Advances in Infectious Diseases and future trends in antimicrobials".

As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, with industry leaders and experts.

We look forward to personally welcoming you to Las Vegas, USA.

About Conference

6 Plenary Sessions
16+ Hrs of Knowledge Exchange
3 Panel Discussions
2+ hours Networking Lunch
8 Keynote Speakers

Conference Series LLC Ltd is honoured to you to participate 4th International Conference on Antimicrobials, Multiple Drug Resistance and Antibiotics Resistance Conference which is scheduled during April 20-21, 2018 at Las Vegas, USA and it is attracting 250+, professors, Scientists online visitors ranging from Researchers, Academicians and Business professionals, who are working in this field. This unique opportunity that we extend to our speakers and attendees is not being offered by any other conference organizers. Through this the abstracts and research profiles of our speakers and organizing committee members getting global visibility which is an additional feature that you would be receiving in addition to networking opportunities before, during and after the conference.

How Conference Series LLC Ltd Conferences differs from others?

- 3000+ Conferences across the globe in 70+ countries Annually
- Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

Antibiotics Resistance 2018
Salient features

Antibiotics Resistance 2018

- Meet Academia and Industry idealistic persons to get inspired
- Expand your knowledge and find solutions to problems
- Forge connections and for global networking
- Highly Organized and Structured Scientific Sessions
- Poster presentations and world class exhibitions
- Meet with new vendors and suppliers

Purpose

4th International Conference on Antimicrobials, Multiple Drug Resistance and Antibiotics Resistance is an arena for interdisciplinary exchange among professionals in the fields of Antimicrobials & Antibiotics.

Goals

The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goal of the conference is to provide a transformative professional development experience. Bringing together the world's scientific experts to catalyse and advance scientific knowledge about Antibiotics and Antimicrobials present the most recent research findings, and promote and enhance scientific collaborations around the world Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address regional, national and local responses to Elderly Population around the world and overcome barriers that limit access to care and services.

6 Plenary Sessions

> Very glad that I was able to speak at such a wonderful conference and appreciate the opportunity.
>
> *- Mel Torrie, CEO*
> *Autonomous Solutions, USA*

> I enjoyed and learned a lot from the meeting!
>
> *- Manuel B Datiles*
> *National Institutes of Health, USA*

> I thought that the meeting was well organized and smoothly run. The scientific quality of the presentations was very variable but there were several excellent ones. Valencia is an attractive city for a meeting and the hotel and conference facilities excellent.
>
> *- Constantin Polychronakos*
> *McGill University., Canada*

> The meeting was well organized from a practical and administrative aspect but the combination of a small meeting with few attendees and diverse aspects of metabolomics did make the conference a bit thin in returning scientific value to my investment in time and money to the meeting. My proposal would be to select fewer main topics.
>
> *- Lars Lofgren, Associate principal scientist, AstraZeneca R&D, Sweden*

> It is an exciting and wonderful experience during the 3-days meeting, which gives us the opportunity to get to know so many friends and inspire new ideas in our research. Also, the meeting organization is perfect and considerate. We very appreciate all the works you have done for us. I also hope to meet these friends and new friends in the next meeting.
>
> *- Houkai Li, Professor, Shanghai University of Traditional Chinese Medicine, China*

> Thank you for your efforts to make the conference as successful as it was. To address your specific inquiry - the hotel was very nice with the rooms accommodating and comfortable. The meals/snacks via breakfast and coffee breaks were also excellent. The conference venue was also excellent. The audio visual and technical supports were superb.
>
> *- Vincent Gallicchio,*
> *Clemson University., USA*
