INVITATION

Dear Attendees,

Antimicrobials 2020 is providing a global platform for research that affords new insights into Microbiology, Industrial Microbiology, Food Microbiology, Pharmaceutical Microbiology, Public Health, Epidemiology and Infectious Diseases. Antimicrobials 2020 will bring together key decision makers and innovators within this rapidly growing field. This intensive 2-Day program will focus on various fields of microbiology and beneficial microbes. In addition to the many scientific sessions and take-home case study examples, you will leave this event with many other novel development strategies. We hope you will join us in Singapore in April.

Life is full of give and take. Make it count in your professional life. 8th World Congress on Antibiotics, Antimicrobials & Antibiotic Resistance to be held on April 27-28, 2020 in Singapore. This consolidates incite keynote presentations, Oral talks, Poster presentations and Exhibitions.

Sincerely,

Antimicrobials 2020

Organizing Committee

Antimicrobials 2020

ABOUT US

Our International Open Access Journals

- 700+ Leading-edge Peer Reviewed Open Access Journals
- 21 Day Rapid Review Process
- 50000+ Editorial Board Team, 35000+ Reviewers team
- 30 Million Readers and High Visibility
- 1000+ Scientific Associations Collaborations
- 100000+ Likes
- Publication immediately after acceptance
- Quality and Quick editorial, review processing

Salient Features

- Easy to Submit and Review Systems
- High Quality and Fast Publishing Guaranteed
- Unbiased, quality-oriented, and transparent reviews
- Truly impartial recognition of the best papers
- Feedback on the impact of every article
- Enhanced feature: Audio version of published paper
- Digital articles to share and explore
- Sharing option: Social networking enabled
- Authors, reviewers and editors are provided with scientific credits
- User friendly/feasible website articles translations across more than 50 world languages

Our International Scientific Conferences

- More than 3000 Conferences happening across the globe
- Conferences organized in Medical, Pharma, Engineering, Science, Technology and Business.
- CME/CPD Accredited Conferences fostering professional and Personal development
- Continuum of education through organized scientific program
- Renowned speakers and scientists representing from 40 countries
- Highly Interactive sessions and Panel Discussions
- B2B Meetings offers perfect platform for Global Networking

Salient Features

- Robust on-line publicity for all the speakers and organizing committee members
- Career Guidance Workshops for students and early career researchers
- Accepted Abstracts will be published in various indexed journals
- Accepted abstracts will be labeled with a Digital Object Identification Number (DOI) provided by Cross Ref
- Creation of speakers and abstracts pages in Google
- Opportunity to publish full Manu Scripts in our Open Access Journals

ABOUT CONFERENCES

Antimicrobials 2020 is providing a global platform for research that affords new insights into Microbiology, Industrial Microbiology, Food Microbiology, Pharmaceutical Microbiology, Public Health, Epidemiology and Infectious Diseases. Antimicrobials 2020 will bring together key decision makers and innovators within this rapidly growing field. This intensive 2-Day program will focus on various fields of microbiology and beneficial microbes. In addition to the many scientific sessions and take-home case study examples, you will leave this event with many other novel development strategies. We hope you will join us in Singapore in April.

Antimicrobials 2020 salient features

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Meet with new vendors and suppliers

How Conference Series Conferences differs from others?

- 3000+ Conferences across the globe in 150+ countries all through the year
- Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientist's representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

Goals

- The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goals of the conference is to provide a transformative professional development experience through.
- Bringing together the world's scientific experts to catalyze and advance scientific knowledge about International Conference on Dermatology , present the most recent research findings, and promote and enhance scientific collaborations around the world.
- Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address regional, national and local responses to Elderly Population around the world and overcome barriers that limit access to care and services.

ABOUT CONFERENCES

Objectives

- After participating in this meeting, attendees should be able to
- Discuss emerging issues in Dermatology
- Discuss and apply recent research findings related to Dermatology and Skin Diseases.
- Reflect on the place of critical distance in Dermatology Research.

Who should attend?

- Directors, CEO's, Association presidents, Vice Presidents and professionals, Noble laureates, Addiction Researchers & Academicians, Recovery Managers, Care Advisors, Clinical Services Managers, Occupational Therapists, Counsellors, Treatment Managers, Healthcare Workers, Psychotherapists, Addiction Interventionist, Psychiatrists and Psychologists, Social Workers, Therapy Advisors, Pharmaceutical development companies, Research Institutes and members, Supply Chain companies, Manufacturing Companies, Training Institutes, Business Entrepreneurs and students.

Conference Sessions

- Developing new drugs: academic and industrial innovations
- Antibiotics by Drug origin
- Micro-Organisms in Recent Drug Discovery
- Antibiotics: Uses, Side effects, Allergies and Reactions
- Common Infections treated with Antibiotics
- Antibiotics and their interactions
- Types of Antibiotics and importance
- Antibiotic Resistance: Prevention Mechanisms and control organisms
- Role of long term Antibiotics & Antimicrobial in diseases
- Antibiotic resistance in a one-health context and Causes
- The Emergence of Antimicrobial Resistance
- Antibiotics in Different Industries
- Applications of Antibiotics
- Drug Discovery and Novel Delivery Technologies
- Antibiotics for Emerging and Re-emerging Diseases
- Alternative Strategies for antimicrobial resistance worldwide
- Current research in antibiotic resistance

About hosting organization

Conference Series is the world's leading specialist in organizing Academic, Scientific and Business conferences, meetings, symposiums and exhibitions in different verticals and horizontals like Medical, Pharma, Engineering, Science, Technology and Business to promote scientific research. Every year we host more than 3000+ global events inclusive of 1000+ Conferences 1000+ Symposiums 1000+ Workshops in USA, Europe, Middle East and Asia with the generous support and cooperation from our 30000+ Editorial Board Members, 1000+ ScientificSocieties. All the conference proceedings are published in the special issues of our 700+ Open Access International Journals with the DOI provided by CROSSREF.

ABOUT SINGAPORE

Singapore, city, capital of the Republic of Singapore. It occupies the southern part of Singapore Island. The city, once a distinct entity, so came to dominate the island that the Republic of Singapore essentially became a city-state. Its strategic position on the strait between the Indian Ocean and South China Sea, complemented by its deep water harbour, has made it the largest port in Southeast Asia and one of the world's greatest commercial centres.

Singapore known variously as the "Lion City" or "Garden City," the latter for its many parks and tree-lined streets has also been called "instant Asia" because it offers the tourist an expeditious glimpse into the cultures brought to it by immigrants from all parts of Asia.

The traditional city proper stretches north and east of the port area and is characterized by low (140–150-foot [40–50-metre]) hills. Within the city run the Singapore and Rochor rivers, which are tidal inlets crowded with native craft. The original settlement north of the Singapore River remains the heart of the city; it is the locale of the principal commercial, government, and public buildings and the Anglican St. Andrew's Cathedral (1862).

Singapore's port area, one of the world's largest, covers 36 square miles (93 square km). The Port of Singapore Authority operates six gateways Jurong port, Container Terminal, Keppel, Telok Ayer, Sembawang, and Pasir Panjang wharves that provide facilities for vessels ranging from oceangoing liners to lighters.

IMPORTANT DATES

Abstract Submission Opens:	**September 01, 2019**
Registration Opens:	**September 01, 2019**
On Spot Registration:	**April 27, 2020**
