Tentative Program

2nd International Conference on

Applied Microbiology and Beneficial Microbes

October 23-25, 2017 Osaka, Japan

Interactive Sessions | Keynote Lectures | Plenary Lectures | Workshops

Exhibitors | B2B Meetings

For available speaker slots

Invitation...

Dear Colleagues,

Conference Series LLC welcomes you to attend "2nd International Conference on Applied Microbiology and Beneficial Microbes" during Oct 23-25, 2017 at Osaka, Japan with the theme "Scoping out Innovative research in applied microbiology and Future Trends of Beneficial Microbes". This international meet (Applied Microbes 2017) provides the perfect platform for the scientific community as an interactive and engaging 3-day event by bringing together the microbiology community, the renowned speakers, doctors, scientists and professors presenting the latest developments, and identifying unmet treatment needs. Applied Microbes 2017 hopes to accelerate microbial research and improving innovative outcomes.

Organizing Committee Members

Guilio Tarro

President
Foundation T. & L. de Beaumont Bonelli for cancer research
Italy

Konstantinos Kormas

Professor
University of Thessaly
Greece

Sevgi Ciftci

Associate Professor
Istanbul University
Turkey

Nikos E Mavroudis

Programme Leader
Northumbria University
United Kingdom

Tentative Agenda

Day 1: October 23, 2017	
Time	Session
08:30-09:30	Registrations
09:30-11:00	Keynote Forum
11:00-11:30	Group Photo
11:30-11:45	Network & Refreshments Break*
11:45-12:20	Microbiology| Applied microbiology| Beneficial Microbes
12:20-13:00	Medical & public health microbiology|Clinical & diagnostic microbiology |Pharmaceutical microbiology
13:00-13:45	Lunch Break**
13:45-16:00	Industrial microbiology|Fermenters and Fermentation|Microbial biotechnology and Bioinformatics
16:00-16:15	Network & Refreshments Break*
16:15-18:00	Microbial biochemistry|Food and Beverage microbiology|Dairy microbiology
Day Concludes	
Day 2: Oct 24, 2017	
Time	Session
08:30-09:30	Registrations
09:30-10:30	Keynote Forum
10:30-11:30	Agricultural microbiology| Veterinary microbiology| Environmental microbiology
11:30-11:45	Network & Refreshments Break*
11:45-12:20	Water microbiology| Aeromicrobiology| Microbial Nanotechnologies
12:20-13:00	Biofuels and Petroleum microbiology | Biopharmaceuticals| Biofilms
13:00-13:45	Lunch Break**
13:45-16:00	Antibiotics and Chemotherapy| Prebiotics and Probiotic | Brewing microbiology
16:00-16:15	Network & Refreshments Break*
16:15-18:00	Workshop
Day Concludes	
Day 3: Oct 25, 2017	
Time	Session
09:30-10:30	Microbial ecology| Geomicrobiology
10:30-11:30	Genetic engineering| Metabolic engineering| Oral Microbiology
11:30-11:45	Network & Refreshments Break*
11:45-12:20	Molecular microbiology|Cellular microbiology| Vaccinology and Immunology
12:20-13:00	Soil microbiology and nutrient cycling | Forensic microbiology
13:00-13:45	Lunch Break
13:45-16:00	Special sessions
16:00-16:15	Network & Refreshments Break*
16:15-17:00	Award Ceremony
Conference Concludes

Conference Highlights

- Microbiology
- Applied microbiology
- Beneficial Microbes
- Medical and public health microbiology
- Clinical and diagnostic microbiology
- Pharmaceutical microbiology
- Industrial microbiology
- Fermenters and Fermentation
- Microbial biotechnology and Bioinformatics
- Microbial biochemistry
- Food and Beverage microbiology
- Dairy microbiology
- Agricultural microbiology
- Veterinary microbiology
- Environmental microbiology
- Water microbiology
- Aeromicrobiology
- Microbial Nanotechnologies
- Biofuels and Petroleum microbiology
- Biopharmaceuticals
- Biofilms
- Antibiotics and Chemotherapy
- Prebiotics and Probiotics
- Brewing microbiology
- Microbial ecology
- Geomicrobiology
- Genetic engineering
- Metabolic engineering
- Oral Microbiology
- Molecular microbiology
- Cellular microbiology
- Vaccinology and Immunology
- Soil microbiology and nutrient cycling
- Forensic microbiology

Glimpses of Industrial Microbiology Conferences

Plan your Trip to Osaka

Osaka Illuminations

About Osaka

Japan is a world apart – a cultural Galapagos where a unique civilization blossomed, and today thrives in contrasts of traditional and modern. The Japanese spirit is strong, warm and incredibly welcoming. Japan is a leading nation in scientific research, particularly technology, machinery and biomedical research. Japan leads the world in robotics production and use.

Osaka is the second largest metropolitan area in Japan and serves a major economic hub. Historically a merchant city, Osaka has also been known as the "Nation's Kitchen". With a population of 2.5 million, Osaka is Japan's third largest and second most important city. It has been the economic powerhouse of the Kansai region for many centuries.

The city's west side has the main port as well as a tourist destination with attractions such as Kyocera Dome, Universal Studios Japan, Osaka aquarium, Minami, Osaka castle, Umeda sky building and the Tempozan Harbour Village. Osaka is known for its food, both in Japan and abroad. Author Michael Booth and food critic François Simon of Le Figaro have both suggested that Osaka is the food capital of the world. Osaka's culinary prevalence is the result of a location that has provided access to high quality ingredients, a high population of merchants, and close proximity to the ocean and waterway trade. In recent years, Osaka has started to garner more attention from foreigners with the increased popularity of cooking and dining in popular culture.

The National Museum of Art (NMAO) is a subterranean Japanese and international art museum, housing mainly collections from the post-war era and regularly welcoming temporary exhibitions. Osaka Science Museum is in a five storied building next to the National Museum of Art, with a planetarium and an OMNIMAX theatre. The Museum of Oriental Ceramics holds more than 2,000 pieces of ceramics, from China, Korea, Japan and Vietnam, featuring displays of some of their Korean celadon under natural light. The Osaka Museum of History, opened in 2001, is located in a 13-story modern building providing a view of Osaka Castle. Its exhibits cover the history of Osaka from pre-history to the present day. Osaka Museum of Natural History houses a collection related to natural history and life.
