Invitation

Dear Colleagues,

Conference Series llc LTD., is delighted to welcome you to Tokyo, Japan for the Prestigious **4th International Conference on Applied Microbiology and Beneficial Microbe.** Applied Microbes 2019 will focus on **"Scoping out Innovative research in Applied Microbiology & Future Trends of Beneficial Microbes".** We are confident that you will enjoy the Scientific Program of this upcoming Conference.

We look forward to see you at Tokyo, Japan.

With Regards,

Applied Microbes 2019

Operating Committee, Conference Series LLC Conferences

Editorial Board Members of Supporting Journals:

Alexey Goltsov
Abertay University, UK

Juan Bueno
Caldas University, Colombia

Lu Cai
University of Louisville, USA

Gamil S G Zeedan
National Research Centre, Egypt

Charles J Malemud
Case Western Reserve University, USA

Haval Shirwan
University of Louisville, USA

Antonino Carbone
IRCCS C R O, Italy

Akira Ukimura
Osaka Medical College, Japan

Udai P Singh
University of South Carolina, USA

Volker Kroemker
University of Applied Science, Germany

12+ Interactive Sessions

5+ Keynote Lectures

50+ Plenary Lectures

5+ Workshops

20+ Exhibitors

Program Announcement

Venue

Tokyo, Japan

Important Dates

Abstract submission opens: October 10, 2018
Registration opens: October 10, 2018
Early bird registration: November 25, 2018
on spot registration: May 20, 2019

Accommodation

A large number of rooms have been reserved. Discounted room rates for Applied Microbes 2019 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by public transportation.

Exhibition and Sponsorship

An Exhibition will be held concurrently with the Conference. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the fields of Applied Microbiology.

About Tokyo

Japan is an economic giant; The "Land of the Rising Sun" is a country where the past meets the future. Japan has often been seen in the West as a land combining tradition and modernity, and many traditional structures and practices are preserved. Japan was the first Asian country to independently modernize, and the country continues to embrace new technologies and aesthetics. Complexity and contrast are the keynotes of life in Japan—a country possessing an intricate and ancient cultural tradition yet one that, since 1950, has emerged as one of the world's most economically and technologically advanced societies. Heavy emphasis is placed on education, and Japan is one of the world's most literate countries. Japan sought to become a modern industrialized nation and pursued the acquisition of a large overseas empire, initially in Korea and China. The Japanese rank second only to the United States in spending on scientific research and technology development. However, in Japan, 80% of all research and development (R&D) is carried out by industry, in contrast to the United States, where industry undertakes about half of all R&D (the US government supports the rest).
