7th World Conference on

Applied Microbiology and Beneficial Microbes

February 21-22, 2022 | Webinar

Scientific Program

January 29, 2022 | Webinar (BST)

Introduction

Presentations

8:30-8:50	**Title: Bacteriological profile and antibiotic sensitivity pattern among lower respiratory tract infections patients attending tertiary health care center Jhalawar** **Mahesh Dan,** Jhalawar Medical College, India
8:50-09:10	**Title: Characterization of r-pyocin activity against gram-positive pathogens for the first time with special focus on** *staphylococcus aureus* **Alzhraa Ali Mohamed,** Zagazig University, Egypt
09:10-09:30	**Title: Molecular identification of probiotics isolated from some Nigerian traditional functional foods and beverage with *in vitro* probiotic traits targeting survivability potentials in the gastrointestinal tract** **Dinebari P. Berebon,** University of Nigeria, Nigeria
09:30-09:50	**Title: Bioprospecting of secondary metabolites from marine actinomycetes for combating the multidrug resistance among uropathogens** **Deepa Mathew P,** Scott Christian College, India
09:50-10:10	**Title: Process optimization for herbal yogurt preparation incorporated with encapsulated** *caesalpinia bonducella* **seed extract** **Sadhna Mishra,** Banaras Hindu University, India
10:10-10:30	**Title: Quality characteristics of underutilized, non-conventional *amorphophallus paeoniifolius* flour and its value addition** **Anuradha Singh,** Galgotias University, India
10:30-10:50	**Title: Optimization of fermentation kinetics of soymilk fermentation by *l.Plantarum* mtcc 25433 (bbc33), *l. Plantarum* mtcc 25432 (bbc32b)with and without starter culture under varying conditions.** **Tejpal Dhewa,** Central University of Haryana, India
