Dear Attendees,

We are glad to announce the **9th World Congress and Expo on Applied Microbiology** to be held in **Zurich, Switzerland** during **October 25-26, 2021** organized by Conference Series llc LTD, Europe in collaboration with generous support and cooperation from enthusiastic academicians and editorial Board Members. Applied Microbiology 2021 is centered with the theme “Impact of COVID-19 on Mental Health and Drug Addiction”.

Advanced Nano 2020 is an extraordinary event to facilitate the dissemination and application of research findings related to Microbiology and its research. The conference invites participants from all leading Universities, Applied Microbiology Research Institutions and Microbiology Companies to share their research experiences on all aspects of this rapidly expanding field and thereby, providing a showcase of the latest innovations and advancements in Applied Microbiology.

As the premier event we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts.

Life is full of give and take. Make it count in your professional life. Attend the **Applied Microbiology Conference** to network with your peers, exchange expertise and experiences, and arm yourself with the latest information to take your department to the next level.

We look forward to Personally welcoming you to Switzerland this October.

Sincerely
Applied Microbiology 2021
Organizing Committee

About Conference

Applied Microbiology 2021 Conference website is attracting 56000+ Neurologists, Neurosurgeons and Psychiatrists, Brain Researchers, Neuro Oncologists, Pharmacists, Research scientists, Neurology Organizations and societies, Pharmaceutical companies, Neuro and CNS drug Industries, Neuroscience associations, Professors and Students. This unique opportunity that we extend to our speakers and attendees is not being offered by any other conference organizers. Through this the abstracts and research profiles of our speakers and organizing committee members getting global visibility which is an additional feature that you would be receiving in addition to networking opportunities before, during and after the conference.

Applied Microbiology 2021 salient features

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Meet with new vendors and suppliers

How Conference Series Conferences differs from others?

- 3000+ Conferences across the globe in 30+ countries all through the year
- Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking Add a little bit of body text.

Special Issues : All accepted abstracts will be
published inrespective Conference Series llc LTD Journals
Each abstract will be provided with digital Object Identifier by Crossref

Goals

- The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goals of the conference is to provide a transformative professional development experience through
- Bringing together the world's scientific experts to catalyze and advance scientific knowledge about Brain Disorders and Therapeutics present the most recent research findings, and promote and enhance scientific collaborations around the world.
- Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address Impact of COVID-19 on Mental Health and Drug Addiction.

Objectives

After participating in this meeting, attendees should be able to

- Discuss emerging issues in Applied Microbiology
- Discuss and apply recent research findings related to Applied Microbiology
- Reflect on the place of critical distance in research of Applied Microbiology

Who Should Attend?

9th World Congress and Expo on **Applied Microbiology** is among the World's leading Scientific Conference. The two day event on Applied Microbiology will host 60+ Scientific and technical sessions and sub-sessions on cutting edge research and latest research innovations in the field of Applied Microbiology. This year Applied Microbiology conference will comprises of 28 major sessions designed to offer comprehensive sessions that address current issues in various fields of Neurology. The attendees can find- Exclusive Sessions and discussions on latest innovations Applied Microbiology. By participating in the conference, attendees will be able to get desired knowledge over future challenges in varied sorts of Applied Microbiology Conference disorders & its related issues. This World congress on Applied Microbiology Conference provides an opportunity to share research with Experts, professionals, academicians and researchers from all over the world. Execute new methods or revise existing methods based on best presented facts as Presented at Applied Microbiology 2021.

About Zurich

The city of Zurich, a global center for banking and finance, lies at the north end of Lake Zurich in northern Switzerland. The picturesque lanes of the central Altstadt (Old Town), on either side of the Limmat River, reflect its pre-medieval history. Waterfront promenades like the Limmatquai follow the river toward the 17th-century Rathaus (town hall).With its location right in the heart of Switzerland, Zurich is a modern, cosmopolitan hub that is regularly ranked as one of the world's top cities for quality of life. It's also considered Switzerland's trend-setting city thanks to its highly innovative arts and creative scene.

Not one but two top universities shape the academic landscape in the largest city in Zurich: the ETH Zurich and the University of Zurich. According to international rankings, both belong to the elite among the European research and education institutions. In addition, a number of famous Nobel laureates, such as Erwin Schrödinger, Wilhelm Conrad Röntgen, and Albert Einstein were students or professors here. Thanks to its central location in Europe, its excellent infrastructure, and the flourishing network between business, research, and specialist associations, Zurich is an ideal location for meetings and conventions. The industry experts at the Zürich Tourism Convention Bureau have profound knowledge of and a strong network in all the main economic clusters and help convention organizers to plan and implement their specialist congresses and meetings.
