6TH INTERNATIONAL CONFERENCE ON

THEORETICAL AND APPLIED PHYSICS

MAY 16-17, 2019 | BERLIN, GERMANY

Evolution of Interdisciplinarity in Physics Research

Hosted by Conference Series llc LTD
47 Churchfield Road, London, W3 6AY

Invitation...

Conference Series llc LTD extends an enthusiastic and sincere welcome to the 6th International Conference on Theoretical and Applied Physics. The conference is to materialize on May 16-17, 2019 in Berlin, Germany.

Theme: "Evolution of Interdisciplinarity in Physics Research"

Anticipating to develop a close networking platform for the academic and industrial representatives from around the world, the theme of the conference is designed as such that it touches every nook and corner of the basic and advanced applications of Physics.

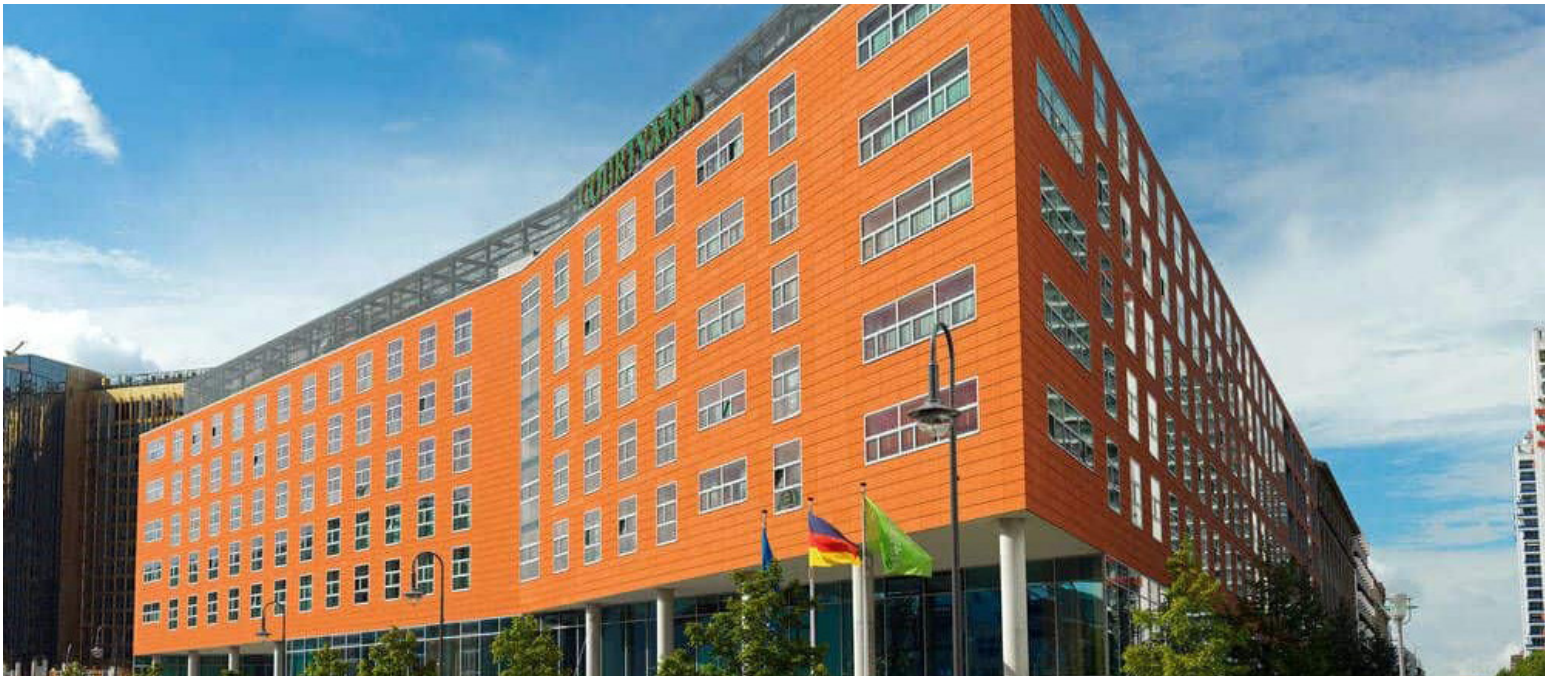

Applied Physics 2019 aims to give a concrete base to your hi-tech visions by expecting participation of 150+ notable minds under one single roof.

Here's where you can get thought inciting talks and exhibitions of knowledge from people having research experience worth a fortune.

Join us @ Berlin for the mammoth congress- Applied Physics 2019!!!

Regards
Applied Physics 2019
Consolidating Board

Segments within the Congress

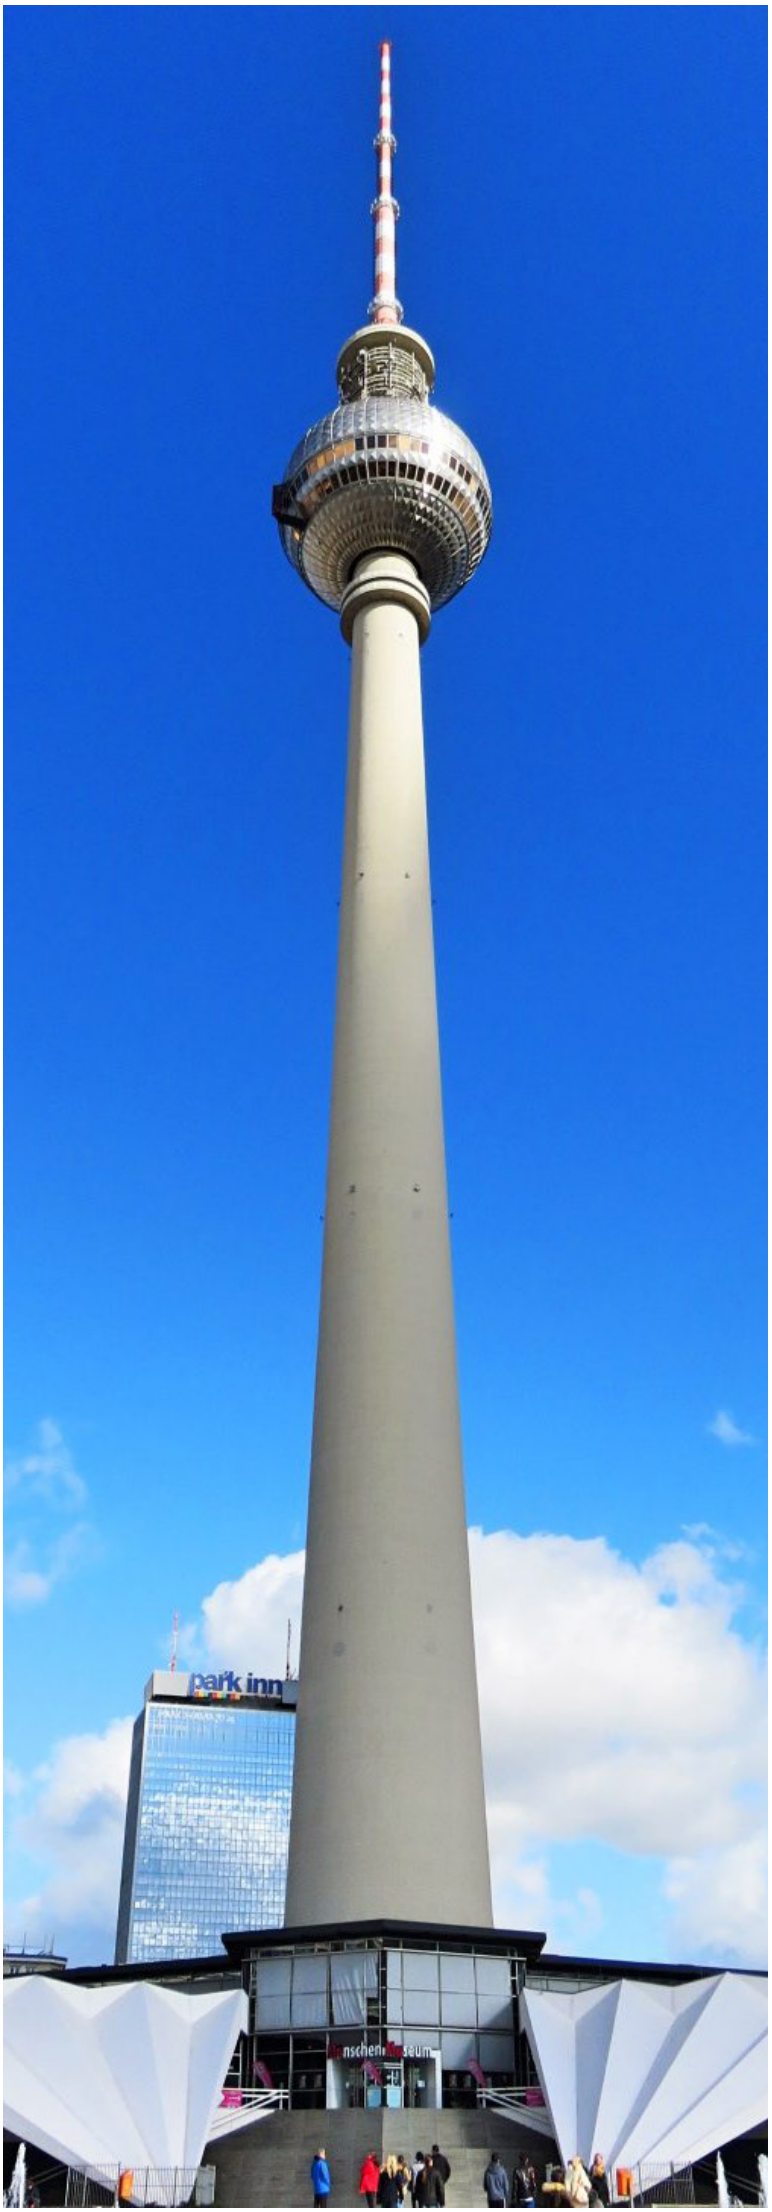

A balanced mixture of Keynote speeches, Session talks and Poster presentations along with probable Exhibitions from industries will play quite a major role in assuring the attendees of a detailed discussion and justify the cause for which they will be in Berlin.

DAY 1:

The Welcome Remarks.....1
Meet the Keynotes.....2
Stretch out with Coffee.....3
Redefined Session Talks.....4
The Luncheon.....5
A Continuity to Talks.....6
Workshop Platform.....7
Young Mind Showcase.....8
Day Out..... 9

DAY 2:

Picking up from Keynotes again..... 10
Coffee and Webbing Time..... 11
The Canvas Show..... 12
Frontier Session Talks.....13
Rewarding and Awarding..... 14
Closure Comments..... 15

"To be covered"

Extents

The conference theme is designed as such that it shall encourage the Physics related academicians, industrialists and researchers to talk and discuss on the well-balanced mixture of the topics of these sessions. The conference discussions will include the debate and lectures on:

- Theoretical, Experimental and Computational Physics
- Condensed Matter Physics
- High Energy Nuclear Physics
- Astro-Particle Physics and Cosmology
- Material Science & Engineering
- Plasma Physics
- Lasers, Optics & Photonics
- Solid State Physics
- Quantum Physics & Technology
- Atomic and Molecular Physics
- Electromagnetism
- Spintronics
- Nanotechnology
- Medical Physics
- Bio Physics

Audience Measurement

As Physics has applications across numerous industries ranging from theoretical and experimental physics to medicine and industry, the research on the same has increased in the academic field.

Thus, the conference targets the larger portion of industrial sector and the academic sectors where the developmental work and the applications of the Physics are happening.

Applied Physics 2019 projects its audience to be part of universities, industries, research groups, manufacturers and distributors.

Conference Series llc LTD participants hail from around the globe including the America, Europe, Middle East and Asia Pacific.

Few of those many participating countries that Conference Series llc LTD has covered in its 20 years of dominance are listed below

- USA
- Canada
- Mexico
- Brazil
- Argentina
- Colombia
- Bolivia
- Spain
- Italy
- France
- Czech Republic
- Belgium
- Slovenia
- Greece
- Malaysia
- Australia
- South Korea
- China
- India
- Russia
- Japan

Young Researchers Forum

This segment has been instituted by the Applied Physics 2019 Conference on behalf of Conference Series LLC ltd to recognize the budding scientists and researchers with an outstanding track record in the Physics related study and technology.

This segment shall serve the purpose of being a pivotal step towards association and networking among Young Scientist Minds.

Who can be in YRF?

- Any fledgling and budding scientist/researcher below the age of 33 years
- Post-Graduate students, Post-doctoral fellows, Trainees, Junior faculty

What can they achieve?

- A platform to showcase their innovative ideas
- An opportunity to interact with speakers with high research experience and established industrialists
- Award will be presented to the best YRF talk

Exhibiting With Us

We, in the conference, are providing the perfect business platform to promote your products and services as well, which will help in taking and generating new leads.

Why exhibit with us?

- A continuous non-competitive show
- One complimentary registration valued up to 599 USD
- Discounted registrations for all other additional booth personnels
- Access to the conference attendees
- Discounted hotel rates
- Promotional and sponsorship opportunities galore
- Standard booth setup
- Best platform to develop new conglomerate & alliances
- Best site to hustle up your route into the business territory in the World
- Network development with both Academia and Business

"Make it... Take it..."

This is what exhibiting with us means. Make a place at Applied Physics 2019 as an exhibitor and Take the International recognition with you.

Getting Around London

The city has a high density of universally eminent research institutions, for example: the Fraunhofer Society, the Leibniz Affiliation, the Helmholtz Affiliation, and the Max Planck Society, which are autonomous of, or just inexactly associated with its universities. Around 65,000 expert researchers were working in innovative work in the city. Berlin is one of the knowledge and innovation groups (KIC) of the European institute of Advancement and Innovation (EIT). The KIC is based at the Inside for Business enterprise at TU Berlin and has a concentration in the improvement of IT ventures. It accomplices with major multinational organizations, for example: Siemens, Deutsche Telekom, and SAP. One of Europe's fruitful research, business and innovation groups is based at WISTA in Berlin-Adlershof, with more than 1,000 associated firms, college divisions and logical institutions. Notwithstanding the libraries that are associated with the different colleges, the Staatsbibliothek zu Berlin is a noteworthy research library. Its two principle areas are on Potsdamer Straße and on Unter sanctum Linden. There are additionally 86 open libraries in the city. Research Gate, a worldwide long range interpersonal communication site for researchers, is situated in Berlin.

Culinary Specialties of Berlin:

Cooking in the German state of Berlin is simple and down-to-earth and meals are hearty and satisfying. Cooking here has been influenced by the immigrants from neighboring regions. Very common in Berlin are dishes with pork, goose, fish (such as carp, eel, and pike), cabbage, legumes (such as peas, lentils, turnips, and beans), pickles, and potatoes.

Germans are known for their traditional German cousine around the world. What many people don't know is the fact that German cuisine is so much more than just sausage and meat.

Depending on where in Germany you stay you will find a big variety of traditional and comfort foods.

The area around Hamburg is known for fresh fish dishes (don't get fooled by our picture here, even though the Hamburger is named after this city it is not a traditional dish) while the South is known for all types of foods made of pork.

Stylish Shopping

Go for a wander and discover Berlin's endless shopping possibilities. Whether you're looking for international designer fashion, unusual ideas in hip Berlin style or a cheap bargain, you'll be sure to find just the thing in the shopping centres, department stores, small shops and high-class boutiques.

The largest and most famous department store in Berlin is KaDeWe on Kurfürstendamm. Here you can experience exclusive shopping over six floors. Old turns into new: you can find second-hand, vintage and upcycling stores throughout the city. You can also find bargains at the outlet stores in the city.
