6TH INTERNATIONAL CONFERENCE ON THEORETICAL AND APPLIED PHYSICS

MAY 16-17, 2019 | ROME, ITALY

Evolution of Interdisciplinarity in Physics Research

Hosted by Conference Series llc LTD
47 Churchfield Road, London, W3 6AY

Invitation...

Conference Series llc LTD extends an enthusiastic and sincere welcome to the 6th International Conference on Theoretical and Applied Physics. The conference is to materialize on May 16-17, 2019 in Rome, Italy.

Theme: "Evolution of Interdisciplinarity in Physics Research"

Anticipating to develop a close networking platform for the academic and industrial representatives from around the world, the theme of the conference is designed as such that it touches every nook and corner of the basic and advanced applications of Physics.

Applied Physics 2019 aims to give a concrete base to your hi-tech visions by expecting participation of 150+ notable minds under one single roof.

Here's where you can get thought inciting talks and exhibitions of knowledge from people having research experience worth a fortune.

Join us @ Rome for the mammoth congress- Applied Physics 2019!!!

Regards
Applied Physics 2019
Consolidating Board

Segments within the Congress

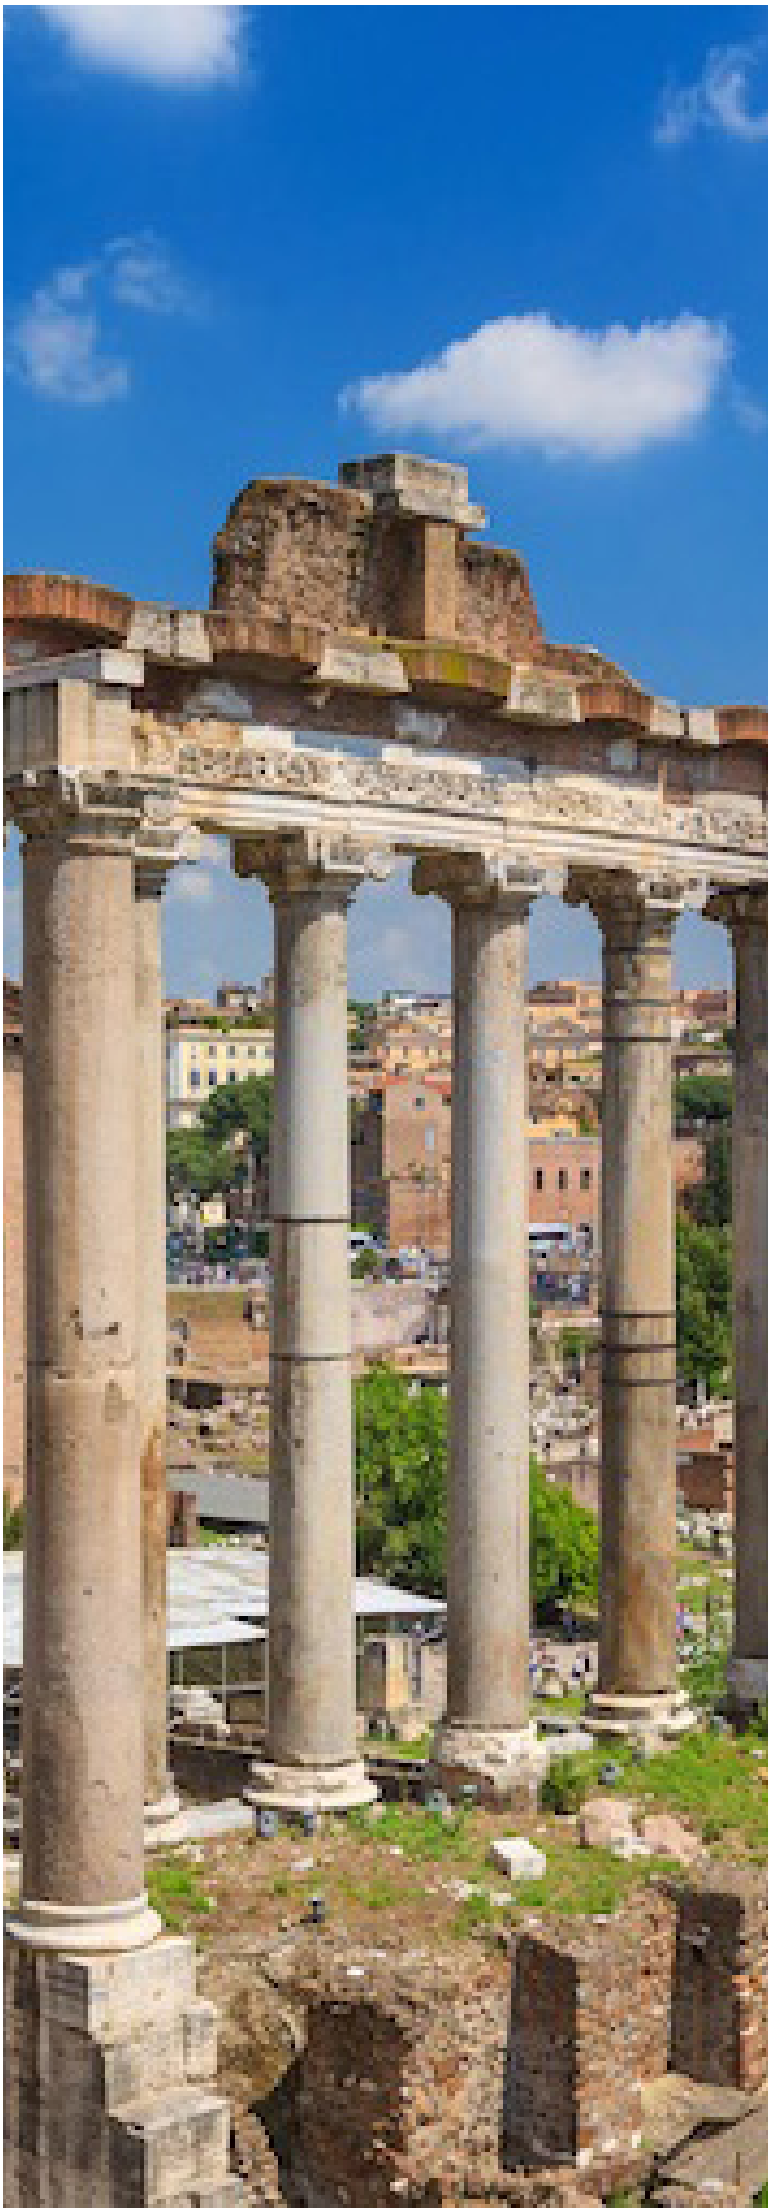

A balanced mixture of Keynote speeches, Session talks and Poster presentations along with probable Exhibitions from industries will play quite a major role in assuring the attendees of a detailed discussion and justify the cause for which they will be in Rome.

DAY 1:

The Welcome Remarks.....1
Meet the Keynotes.....2
Stretch out with Coffee.....3
Redefined Session Talks.....4
The Luncheon.....5
A Continuity to Talks.....6
Workshop Platform.....7
Young Mind Showcase.....8
Day Out..... 9

DAY 2:

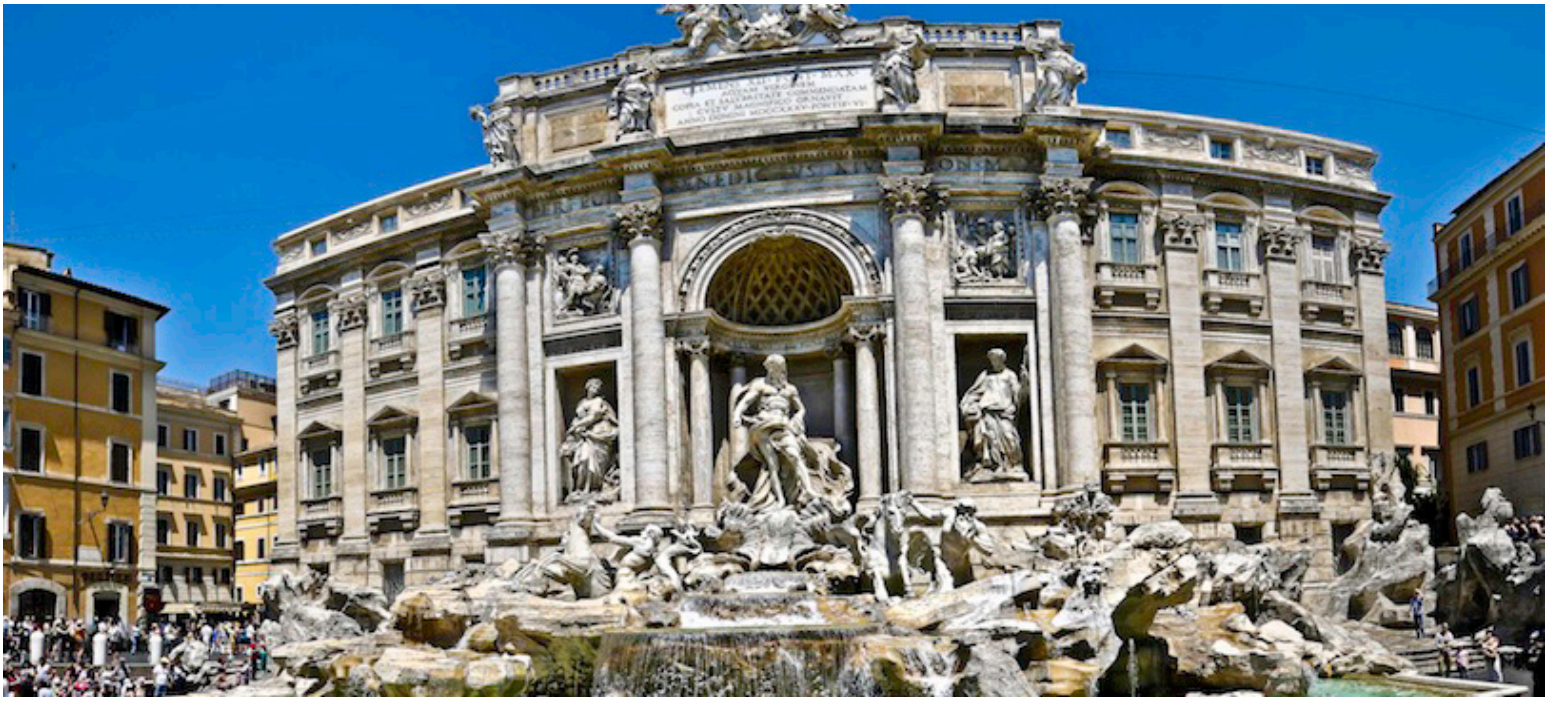

Picking up from Keynotes again..... 10
Coffee and Webbing Time..... 11
The Canvas Show..... 12
Frontier Session Talks.....13
Rewarding and Awarding..... 14
Closure Comments..... 15

"To be covered" Extents

The conference theme is designed as such that it shall encourage the Physics related academicians, industrialists and researchers to talk and discuss on the well-balanced mixture of the topics of these sessions. The conference discussions will include the debate and lectures on:

- Theoretical, Experimental and Computational Physics
- Condensed Matter Physics
- High Energy Nuclear Physics
- Astro-Particle Physics and Cosmology
- Material Science & Engineering
- Plasma Physics
- Lasers, Optics & Photonics
- Solid State Physics
- Quantum Physics & Technology
- Atomic and Molecular Physics
- Electromagnetism
- Spintronics
- Nanotechnology
- Medical Physics
- Bio Physics

Audience Measurement

As Physics has applications across numerous industries ranging from theoretical and experimental physics to medicine and industry, the research on the same has increased in the academic field.

Thus, the conference targets the larger portion of industrial sector and the academic sectors where the developmental work and the applications of the Physics are happening.

Applied Physics 2019 projects its audience to be part of universities, industries, research groups, manufacturers and distributors.

Conference Series llc LTD participants hail from around the globe including the America, Europe, Middle East and Asia Pacific.

Few of those many participating countries that Conference Series llc LTD has covered in its 20 years of dominance are listed below

- USA
- Canada
- Mexico
- Brazil
- Argentina
- Colombia
- Bolivia
- Spain
- Italy
- France
- Czech Republic
- Belgium
- Slovenia
- Greece
- Malaysia
- Australia
- South Korea
- China
- India
- Russia
- Japan

Young Researchers Forum

This segment has been instituted by the Applied Physics 2019 Conference on behalf of Conference Series LLC ltd to recognize the budding scientists and researchers with an outstanding track record in the Physics related study and technology.

This segment shall serve the purpose of being a pivotal step towards association and networking among Young Scientist Minds.

Who can be in YRF?

- Any fledgling and budding scientist/researcher below the age of 33 years
- Post-Graduate students, Post-doctoral fellows, Trainees, Junior faculty

What can they achieve?

- A platform to showcase their innovative ideas
- An opportunity to interact with speakers with high research experience and established industrialists
- Award will be presented to the best YRF talk

Exhibiting With Us

We, in the conference, are providing the perfect business platform to promote your products and services as well, which will help in taking and generating new leads.

Why exhibit with us?

- A continuous non-competitive show
- One complimentary registration valued up to 599 USD
- Discounted registrations for all other additional booth personnels
- Access to the conference attendees
- Discounted hotel rates
- Promotional and sponsorship opportunities galore
- Standard booth setup
- Best platform to develop new conglomerate & alliances
- Best site to hustle up your route into the business territory in the World
- Network development with both Academia and Business

"Make it... Take it..."

This is what exhibiting with us means. Make a place at Applied Physics 2019 as an exhibitor and Take the International recognition with you.

Getting Around Rome

Rome is home to many industries that are related to work in the field of Magnetism and Magnetic Materials which make us believe that Rome could be the place for the next meet. Alongside that fact Rome is an ancient city which stores history of European Civilization and the world itself. Perfectly said that Rome was not built in a day. It has seen many ups and downs and now it stands at such a great height that it attracts roamers from all around the globe. This colossal, Colosseum-stud city has a lot of attractions for its guests and Conference Series Ltd. is pleased to welcome you to the serenity of this European city. Around 65,000 expert researchers were working in innovative work in the city. There are additionally 86 open libraries in the city. Research Gate, a worldwide long range interpersonal communication site for researchers, is situated in Rome.

Culinary Specialties of Rome:

One of the many reasons why travelling in Italy is so wonderful is that all 20 regions offer their own unique culinary delights. There are many foods in Rome that you can't find anywhere else in the country, or when you do find them they just don't taste as good. The list is long, but we managed to narrow it down to five foods that you must try when in the Eternal City—some of the best food in Rome!

Literally translated as 'white pizza', this foccacia style pizza bread can be found in all bakeries in Rome. Be sure to head to one of our recommended favorites for pizza bianca that is light, fluffy, crispy and salty!

When Italians think of food in Rome without question the first thing that comes to mind is carbonara; it's painful to imagine life without it. And so the obvious question is who makes the best carbonara in Rome? Well if you are looking for a heated argument there is no better way to start one that by posing that question. Without starting too much trouble we will offer up three of our favorite restaurants for carbonara in all of Rome.

Stylish Shopping

Go for a wander and discover Rome's endless shopping possibilities. Whether you're looking for international designer fashion, unusual ideas in hip Rome style or a cheap bargain, you'll be sure to find just the thing in the shopping centres, department stores, small shops and high-class boutiques.

This is the best-known and therefore the most crowded of Rome's shopping malls named Valmontone: you can find second-hand, vintage and upcycling stores throughout the city. You can also find bargains at the outlet stores in the city.
