Brochure

3rd International Conference on Applied Microbiology and Beneficial Microbes

May 28-29
2018
Osaka, Japan

Theme:
Accumulate, segregate and remodel micro-organisms for upliftment of human life

https://appliedmicrobiology.conferenceseries.com/

Invitation

Conference Series welcomes you to attend the 3rd International Conference on Applied Microbiology and Beneficial Microbes, which is going to be held in Osaka, Japan during May 28-29, 2018.

We cordially invite all the participants who are interested in sharing their knowledge and research in the arena of Applied Microbiology and Beneficial Microbes. Applied Microbiology 2018 anticipates more than 200 participants around the globe with thought provoking Keynote lectures, Oral Presentations and Poster Presentations. The attending delegates include Editorial Board Members of related International Journals.

This is an excellent opportunity for the delegates from Universities and Institutes to interact with the world class Scientists.

The intending participants can confirm their participation by registering for the conference along with your colleagues. Avail the delegate early bird offer.

The main theme of the conference is "Accumulate, segregate and remodel micro-organisms for upliftment of human life".

Regards,
Applied Microbiology 2018
Operating Committee

Tentative Agenda

May 28, 2018

Time	Session
08:30-09:30	Registrations
09:30-11:30	Keynote Forum
	Group Photo
11:30-11:45	Network & Refreshments Break*
11:45-13:00	Microbiology/ Applied and environmental Microbiology
13:00-13:45	Lunch Break**
13:45-16:00	Medical and clinical microbiology/ Petroleum microbiology/ Veterinary microbiology
16:00-16:15	Microbial genomics and molecular microbiology/ Microbial pathogenesis
16:15-18:00	Trends in cellular microbiology and generation microbiology/ Advancements in food and industrial microbiology
	Day Concludes

May 29, 2018

Time	Session
08:30-09:30	Registrations
09:30-10:30	Keynote Forum
10:30-11:30	Diseases,diagnosis and treatment of microbial infections/ Infections and immunity/ Vaccines and vaccinations
11:30-11:45	Network & Refreshments Break*
11:45-13:00	Bioinformatics/ biotechnology and biochemistry/ Genetic Engineering
13:00-13:45	Lunch Break**
13:45-16:00	Astro,nano and predictive microbiology/ microbial biofilms/ Aero microbiology
16:00-16:15	Pharmaceutical microbiology/ Agricultural microbiology/ Oral microbiology/ Forensic microbiology
16:15-18:00	Poster Presentations

Day Concludes

Award Ceremony

Conferece Concludes

About Conference

The field of Applied Microbiology and Beneficial Microbes is growing rapidly and its development is making tremendous impacts in nursing. The importance and significance can be gauged by the fact that it has made huge advancements over the course of time and is continuing to influence various sectors.

Applied Microbiology 2018

- Opportunity to attend the presentations delivered by eminent scientists from all over the world
- Selected contributions will be published in following Conference Series Journals
    - Journal on Applied Microbiology
    - Archives of Clinical Microbiology
    - Research & Reviews: Journal of Microbiology and Biotechnology
- Participation in sessions on specific topics on which the conference is expected to achieve progress
- Global networking: In transferring and exchanging Ideas
- Share your excitement in promoting your skills in the field of designing
- Conference brings together Scientific Researchers, Business Entrepreneurs and Industry Developers

About Us

International Journals

- 900 Open Access Journals
- 21 Day rapid review process
- 30000 Editorial team, 35000 Reviewers team
- 3.5 Million readers and high visibility
- More than 100000 facebook fans
- Publication immediately after acceptance
- Quality and quick editorial, review processing

Key features

- User friendly/feasible website translation of your paper to 50 world's leading languages
- Enhanced feature: Audio version of published paper
- Digital articles to share and explore
- Sharing option: Social networking enabled
- Authors, reviewers and editors are provided with scientific credits

Conference Series Conferences

- 1000 Conferences all over the World every year
- Well organized scientific program
- Renowned speakers and scientists across the globe
- Poster presentations and world class exhibits
- Panel discussions and interactive sessions
- B2B meetings
- Perfect platform for Global Networking

Key features

- Presentation by renowned speakers from all over the world
- Poster presentations and world class exhibits
- Interactive Sessions
- Platform for global networking
- Connecting scientific community

About Osaka

Osaka is the second largest metropolitan area in Japan and serves a major economic hub. Historically a merchant city, Osaka has also been known as the "Nation's Kitchen". With a population of 2.5 million, Osaka is Japan's third largest and second most important city. It has been the economic powerhouse of the Kansai region for many centuries. The city's west side has the main port as well as a tourist destination with attractions such as Kyocera Dome, Universal Studios Japan, Osaka aquarium, Minami, Osaka castle, Umeda sky building and the Tempozan Harbour Village. Osaka is known for its food, both in Japan and abroad. Author Michael Booth and food critic François Simon of Le Figaro have both suggested that Osaka is the food capital of the world. Osaka's culinary prevalence is the result of a location that has provided access to high quality ingredients, a high population of merchants, and close proximity to the ocean and waterway trade. In recent years, Osaka has started to garner more attention from foreigners with the increased popularity of cooking and dining in popular culture. The National Museum of Art (NMAO) is a subterranean Japanese and international art museum, housing mainly collections from the post-war era and regularly welcoming temporary exhibitions. Osaka Science Museum is in a five storied building next to the National Museum of Art, with a planetarium and an OMNIMAX theatre. The Museum of Oriental Ceramics holds more than 2,000 pieces of ceramics, from China, Korea, Japan and Vietnam, featuring displays of some of their Korean celadon under natural light.
