AQUA EUROPE 2018

PROGRAM AT A GLANCE

DATE: Oct 08-09, 2018

LONDON, UK

Conference Series llc LTD extends its welcome to **10th Euro-Global Summit on Aquaculture & Fisheries** during **Oct 08-09, 2018** at **London, UK** with a theme **"Impeccable Growth of the Aquaculture & Fisheries Sector"**. Participating at **Aqua Europe 2018** will provide an exceptional opportunity to interact with world-class Aquaculture Specialists and fisheries Experts in the field creating a channel for collaborations and partnerships.

UK: Conference Series llc LTD

702-508-5200

https://aquaculture-fisheries.aquaconferences.com/

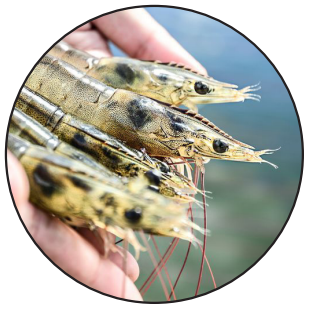

KEY SESSIONS

- Aqua Farming- Techniques & Methods Extensive Culture System
- Semi-Intensive Culture System
- Intensive Culture System
- Shrimp Farming & Other Crustacean Farming
- Recirculating Aquaculture Systems – RAS
- Aquaponics
- Aquaculture Diseases & Health Management
- Fisheries & Livestock Production
- Feed & Nutrition
- Aquaculture & Environment Interactions
- Diversification in Aquaculture
- Oceanography
- Marine Biology
- Nutrition delivery and feeding practices
- Ingredient formulation and processing

aquaeurope@meettheglobalexpert.com
https://aquaculture-fisheries.aquaconferences.com/

Keynote Forum

Cesium is a specific inhibitor of the AKT1-KC1 complex-mediated potassium influx in *Arabidopsis thaliana*

Ryoung Shin, RIKEN Center for Sustainable Resource Science, Japan

Removal of ammonia and nitrite nitrogen in Litopenaeus vannamei culture: application of bottom substrate improvement and bacterial immobilization

Hong-wei, Ocean University of China, China

IMUNO-2865® effects in sea bream (*Sparus aurata*) and chub (*Squalius cephalus*) as an immune supplement for the aquaculture industry

Ivan, University of Zadar, Croatia

Blue education for sustainable management of aquatic resources - presentation of the project blue smart

Tomislav, University of Zadar, Croatia

Development of integrated multi-trophic aquaculture (imta) in the adriatic sea

Ivan, University of Zadar, Croatia

Accumulation of some pollutants (Malathion and cadmium) and biochemical alterations in muscles of common carp Cyprinus Carpio collected from the river Nile and some Egyptian lakes

Mohamed yahya mohamed, National Institute of Oceanography and Fisheries, Egypt

Survival and growth of giant fresh water shrimp *Macrobrachium vollenhoveni* (Herklots, 1857) nourished in captivity using copra cake, flour and bran maize in food

Mardochée Ephraïm, Benin

Valorization of various sources of rabbit manure in agro-piscicultural system in Benin (West Africa): dynamics and effect of mineralization upon quality of fresh water

Richard, University of Abomey-Calavi, Benin

Assessment of sub-acute toxicity of Endosulfan 35% EC on hematological profile of (*Channa punctatus Bloch*)

Garima Harit, The IIS University, India

Bioaccumulation and Aarchitectural alterations in the liver and ovary of fresh water fish *Channa punctatus (Bloch.)* after chronic exposure to zinc

hemlata verma, University of Rajasthan, India

Impact of endosulfan on physiology of fresh-water fish, (*Channa punctatus Bloch*)

Neera Srivastava, University of Rajasthan, India

The experience of intensive perennial growing up of fingerlings of noble crayfish *Astacus astacus* (Linnaeus, 1758)

Golubev, Belarus

Diel migration of microzooplankton tintinnid in masinloc oyon-bay marine reserve

Jane Abigail, De La Salle University, Philippines

Proximate nutrient composition and cost of the selected potential fish feed ingredients in Lake Victoria basin

Gerald Kwikiriza, Naro_Kacwhekano Zonal Agricutural Research and Development Institute, Uganda

Proximate, amino acid and mineral composition of African catfish (*Clarias gariepinus*) from three different enclosures

Igejongbo Toyosi, The Federal University of Technology Akure, Nigeria

Comparative study of the morphology and histology of the testes of wild and cultured male African catfish

Mbilari Badawi Mshelia, University of Maiduguri, Nigeria

Aquaculture and Fisheries are the most powerful and sustainable tool for reducing global poverty and hunger in the developing countries of the world like South Asia.

Muhammad Usman, Agricultural Research System, Pakistan

Assessment of vitellogenin in the genome of two clariid catfishes – *heterobranchus bidorsalis* and *clarias gariepinus*

Olubunmi, Federal University of Agriculture, Nigeria

Effects of essential amino acids deficiencies on gastrointestinal and hepatic enzymes activities of silvery-black porgy (*Sparidentex hasta*)

Jasem, Agricultural Research Education and Extension Organization(AREEO), Iran

Effects of yeast (*Saccharomyces cerevisiae*) products on African catfish (*Clarias gariepinus*) production

Ayodeji, Federal University of Agriculture, Nigeria

Smartphone-based assessment for ship stability experiment

Mohammed Abdelkader, Algeria

Featured Speakers

Feeding habits, length –weight relationship and condition factor of chrysichthys nigrodigitatus (Lacepède, 1803)

Festus, Nigeria

Keynote Slots & Speaker Available

Provisional (2007 / 8) landing decline of Kinneret Tilapia was not overfishing but ecological impact

Moshe, Israel

Reproductive performance and sex ratio of Nile tilapia (Oreochromis niloticus) fed dietary *Aspilia* mossambicensis and *Aazadirachta indica* leaf powder

Imani, Tanzania

Growth performance and genotoxicity effects of clarias gariepinus at varying level of inclusion of walnut shell (Tetracarpidium conophorum)

Simeon, University of Lagos, Nigeria

The crucial role of women in food security through aquaculture development especially in rural areas

Jayshree soni, Jai Narayan Vyas university, India

Phage therapy for *vibriosis*

Palaniappan, BIHER-Bharath University, India

Featured Speakers

Isolation and identification of fungal genera from freshwater ornamental fish in Punjab

Fauzia, Queen Mary College Lahore, Pakistan

Growth of *Clarias gariepinus* fingerlings fed on fixed ration level at different feeding frequencies

Morenike,Lagos State University, Nigeria

Effect of dichlorvos on Biochemical Parameters of *Clarias gariepinus* Juveniles

Nwamba Helen Ogochukwu, Enugu State University of Science and Technology, Nigeria

KEYNOTE & SPEAKER SLOTS AVAILABLE

Find 150 More Speaker Presentations from USA, Europe, Middle East and Asia pacific

10th Euro-Global Summit on Aquaculture & Fisheries

October 08-09, 2018 London, UK

Park Inn by Radisson Hotel

Title:IMUNO-2865® effects in sea bream (Sparus aurata) and chub (Squalius cephalus) as an immune supplement for the aquaculture industry

Name: Ivan Zupan

Affiliation: University of Zadar, Croatia

Biography: Ivan Zupan is an Assistant Professor at Department of Agronomy, Ecology and Aquaculture of the University of Zadar. Previously, he has a 6 years' experience as a farm manager on a sea bass/sea bream fish farm in the Middle Adriatic, Croatia. Simultaneously, he pursued his scientific interest and gained a PhD title of ″Applied Marine Sciences″ at the University of Split, Croatia. His interests are to investigate and define the main ecosystem interaction problems and challenges for fish and invertebrates in aquaculture, and to find solutions for better management strategies trough the scientific research. He has published over 15 manuscripts in web of science collection and participated in several EU funded research as a leader or collaborator.

Title: Removal of ammonia & nitrite nitrogen in *Litopenaeus vannamei* culture: application of bottom substrate improvement and bacterial immobilization

Name:Hong-wei Shan

Affiliation: Hong-wei, Ocean University of China, China

Biography: Hong-wei Shan, Lecturer, Department of Aquaculture, College of Fisheries, Ocean University of China. My research focuses on the development and management of culturing technique in crustacean. I also focus on the development and application of probiotics in aquatic animals. Species of interest include: Pacific white shrimp (Litopenaeus vannamei), Chinese shrimp (Fenneropenaeus chinensis) and Swimming crab.

Title: Blue education for sustainable management of aquatic resources - presentation of the project blue smart

Name: Tomislav Saric

Affiliation: University of Zadar, Croatia

Biography: Tomislav Saric works at the University of Zadar as a Assistant Professor. He holds lectures from the subject "Anatomy and physiology of domestic animals", "Introduction to scientific work and biometrics" and "Aquaculture". His scientific interest are aquaculture and protection of fish and shellfish health. Currently, he is manager at the Blue education for sustainable management of aquatic resources - BLUE SMART project.

Title: Development of integrated multi-trophic aquaculture (*imta*) in the adriatic sea

Name: Ivan Zupan

Affiliation: University of Zadar, Croatia

Biography: Ivan Zupan is an Assistant Professor at Department of Agronomy, Ecology and Aquaculture of the University of Zadar. Previously, he has a 6 years' experience as a farm manager on a sea bass/sea bream fish farm in the Middle Adriatic, Croatia. Simultaneously, he pursued his scientific interest and gained a PhD title of ″Applied Marine Sciences″ at the University of Split, Croatia. His interests are to investigate and define the main ecosystem interaction problems and challenges for fish and invertebrates in aquaculture, and to find solutions for better management strategies trough the scientific research. He has published over 15 manuscripts in web of science collection and participated in several EU funded research as a leader or collaborator.

Title: Accumulation of some pollutants (Malathion and cadmium) and biochemical alterations in muscles of common carp Cyprinus Carpio

Name: Mohamed Yahya Mohamed Aly

Affiliation: National Institute of Oceanography and Fisheries

Biography: Mohamed yahya Mohamed Aly Scientist is currently working as national Institute of Oceanography and Fisheries Egypt at the Ministry of Scientific Research. Dr Scientist received his PhD in Oceanography (marine biology) from the University of Suez Canal University, 2014, titled: (Decreasing the Natural Mortality of Fishes in the Hatcheries from Hatchling to Fingerling with References to Environmental Pollutant. Dr Scientist completed his Masters. Environmental Science from Environment Research Institute, the University of Ain Shams2010. He then worked at the Institute, national Institute of Oceanography and Fisheries, Pollution Laboratory. Dr Scientist has authored several publications in various journals and books. His publications reflect his research interests in Fish population dynamics, Fisheries Biology and aquaculture

Title: Valorization of various sources of rabbit manure in agro-piscicultural system in Benin (West Africa): dynamics and effect of mineralization upon quality of fresh water

Name: Richard

Affiliation: University of Abomey-Calavi

Biography: Richard is working in the University of Abomey-Calavi (UAC), Faculty of Science and Techniques (FAST), Laboratory of Research in the Wetlands (LRZH), 01 BP 526, Cotonou, Benin.

Title: Assessment of sub-acute toxicity of Endosulfan 35% EC on hematological profile of *Channa punctatus* (Bloch)

Name: Garima Harit

Affiliation: Department of Zoology, The IIS University

Biography: Garima Harit has completed her research work under the supervision of Prof. Neera Srivastava from Department of Zoology, University of Rajasthan, Jaipur. Her areas of specialization are fish biology, ecotoxicology & fish behaviour. She has 8 papers published in renowned journals along with 2 papers & a chapter in communication. She has given several oral and poster presentations in various National and International Conferences and has also received Best Paper Award in 2016 for her research work from University of Rajasthan. She was also nominated as a Jury Member of Eco film festival in an International Conference this year. Dr. Garima Harit is presently working as an Assistant Professor in Department of Zoology, The IIS University, Jaipur.

Title: Bioaccumulation and Aarchitectural alterations in the liver and ovary of fresh water *fish Channa punctatus* (Bloch.) after chronic exposure to zinc

Name: Hemlata verma

Affiliation: Fish Biology Laboratory, Center for Advanced Studies

Biography: Hemlata Verma, Ph.D in Fish biology from University of Rajasthan, Jaipur, also has her expertise in rat models (Tracheostomy, Left anterior coronary artery (LAD) Ligation, Heart failure model) at All India Institute of Medical Sciences, New Delhi. She has awarded “Rajeev Gandhi National Fellowship” as a J.R.F. as well as S.R.F., by UGC, New Delhi. She is now working as Women Scientist Scheme-A (WOS-A) for a project entitled “Structural changes and oxidative stress induced by silicon nanoparticles (Sio2-NPs) on some organs of Channa punctatus (Bloch)” funded by Department of Science & Technology, New Delhi. The project is related to common condition of silicosis in Rajasthan. She also has teaching experience & has attended many national and international seminars and conferences.

Title: Impact of Endosulfan on Physiology of Fresh-water Fish, Channa punctatus

Name: Neera Srivastava

Affiliation: Department of Zoology, University of Rajasthan

Biography: Prof. Srivastava has attended a more than 30 National & International Conferences. She has been a resource person in more than a dozen seminars & refresher courses for University & college teachers & has chaired sessions in several of them. She has also been invited as a guest speaker. She has been associated with undergraduate & postgraduate teaching assignments of the University of Rajasthan since 1973 and continues to do so as a 'guest faculty'.

Title: The experience of intensive perennial growing up of fingerlings of noble crayfish *Astacus astacus* (Linnaeus, 1758) in Belarus

Name: Alexander P. Golubev

Affiliation: University. Minsk

Biography: Prof., Dr. Alexander Golubev is a highly qualified specialist in the fields of population ecology and aquaculture of crustacean. He conducted expensive scientific research on the biology and ecology of aquatic invertebrates – real or potential aquaculture objects (Artemia salina, Astacus astacus, A.leptodactylus, etc.). He developed methods of calculation of the production of crustacean populations, taking into account the energy consumption at molting and reproduction. Now he works in the fields of elaboration of methods of cultivation of crayfish in the climatic conditions of Belarus. He is author of monograph «La production chez les Crustacès. Rôle dans les ècosystémes et utilisations» (1986). Publ.: Institut Français de Recherche pour l'Exploitation de la Mer. Brest (France).

Title: Diel Migration of Microzooplankton Tintinnid in Masinloc oyon - Bay Marine Reserve

Name: Jane Abigail Santiago

Affiliation: De La Salle University

Biography: Jane Abigail Santiago has been with the National Fisheries and Research Development Institute of the Philippines within the Save Manila Bay Project. Her expertise is zooplankton taxonomy and systematics. She was awarded with Accelerated Science and Technology Human Resource Development Program of Department of Science and Technology in the Philippines. Her current work deals with the assessment of cryptobiodiversity and ocean acidification of the different Marine Protected Areas in the Philippines using morphological and metagenomics data.

Title: Proximate nutrient composition and cost of the selected potential fish feed ingredients in Lake Victoria basin, Uganda

Name:KWIKIRIZA GERLAD

Affiliation:Aquaculture Scientist

Biography: Gerlad is working as the Aquaculture Scientist in NARO_KACWHEKANO ZONAL AGRICUTURAL RESEARCH AND DEVELOPMENT INSTITUTE.

Title: Proximate, amino acid and mineral composition of African catfish (Clarias gariepinus) from three different enclosures.

Name: T.F Igejongbo

Affiliation: The Federal University of Technology

Biography: Mrs Igejongbo T.F, (Nee Adeyemi) has her masters degree in Fish nutrition and is currently undergoing her Ph.D in Fisheries management. She is a lecturer at The Federal University of Technology Akure, South Western Nigeria and her research area focuses majorly on Fisheries management and nutrition.

Title: Comparative study of the morphology and histology of the testes of wild and cultured male african catfish, , *Clarias gariepinus* (Burchell, 1822) in Maiduguri, Nigeria

Name: Mbilari Badawi Mshelia

Affiliation: University of Maiduguri

Biography: Since the time i joined the University of Maiduguri, I,Dr. M. B. Mshelia have been involved in research and lecturing to students in the field of fisheries and Aquaculture in Inlands water bodies In Nigeria. Before joining the University, I worked at the National Institute for Freshwater Fisheries Research, New Bussa, Nigeria as a senior researcher from 2002 – 2010. Since 2010, I have been working as a lecturer/Exam and time table coordinator. Now is a lecturer as well as a SIWES coordinator.

Title: Aquaculture & Fisheries are the most powerful and sustainable tool for reducing global poverty and hunger in the developing countries of the world like south asia

Name: Muhammad Usman

Affiliation: agricultural scientist

Biography: Mr. Muhammad Usman, Former Director General of Agricultural Research System, Government of Pakistan who retired from service after a spotless career of about 35 years with senior level experience on research and development of integrated agricultural industries with regard to livestock and dairy development, poultry, aquaculture and fisheries, sustainable agricultural production system, fruits and vegetable, seed production, bioenergy and other cash crops.
Mr. Usman is basically an agricultural scientist with specialization of agricultural/ chemistry working as plant breeder with regard to the yield and quality of various agricultural crops, released several varieties, presented and published research papers on crops and renewable energy in the different conferences like Geneva.

Title: Assessment Of Vitellogenin In The Genome Of Two Clariid Catfishes - *Heterobranchus bidorsalis* and *Clarias gariepinus*

Name: Agbebi Olubunmi

Affiliation: : Federal University of Agriculture

Biography: Agbebi Olubunmi joined the service of the Federal University of Agriculture, Abeokuta Ogun State, Nigeria in year 2001 as an Assistant Lecturer in the Department of Aquaculture and Fisheries Management. She completed her Masters and PhD from the same University. Based on her excellent performance and dedication to duty, Dr. Agbebi was promoted to the post of Associate professor in October, 2013 and currently awaiting her full pledged professorial cadre. In collaboration with Department of Animal breeding and Genetics, her involvement in the use of applicable biotechnology has made her to be a resource person to the FUNAAB Biotechnology Centre as fish biotechnologists. She is the immediate past Head of Department of Aquaculture and Fisheries. She has won local and international grants and a J-1 Scholar of United States of America

Title: Effects of essential amino acids deficiencies on gastrointestinal and hepatic enzymes

Name: J.G. Marammazi

Affiliation: Iranian Fisheries Science Research Institute

Biography: J.G. Marammazi working inAquaculture Research Center-South of IRAN, Iranian Fisheries Science Research Institute,Agricultural Research Education and Extension Organization (AREEO), Ahwaz, Iran

Title: Effects of yeast (*Saccharomyces cerevisiae*) products on African catfish (*Clarias*)

Name: Ayodeji A. Adeoye

Affiliation: Federal University of Agriculture

Biography: Adeoye career in aquaculture goes back almost a decade when in 2009 he achieved his first degree, a Bachelor in Aquaculture and Fisheries Management (First Class Honours), from Federal University of Agriculture, Abeokuta – Nigeria. He quickly followed that with an MSc in Aquaculture Economics in same University the following year before completing his PhD in 2016 as a Commonwealth Scholar at Plymouth University in England. On completion of his PhD programme in the United Kingdom, Dr. Adeoye returned to his home country where he performs teaching and research roles (Fish Nutrition and Aquaculture) in Federal University of Agriculture, Abeokuta – Nigeria. Dr. Adeoye is skilled in molecular techniques for profiling fish gut microbiomes and evaluating fish gut health using histology techniques (light and electron microscopy).

Title: Smartphone-Based Assessment for Ship Stability Experiment

Name: Mohamed Abdelkader

Affiliation: Department of Maritime Engineering

Biography: Mr. Mohamed Abdelkader is working in Department of Maritime Engineering,

Title: Feeding Habits, Length -Weight relationship and Condition Factor of *Chrysichthys nigrodigitatus* (Lacepède, 1803)from Ogun River, Nigeria

Name: Adeosun

Affiliation: Fish biology

Biography: Adeosun, Festus Idowu, has his expertise in Fish biology and passion in researching into the possible domestication of some fish species. His work has been published in various journals and has provided baseline information as to the possible domestion of some species of economic importance in Nigeria.

Title: Provisional (2007 / 8) landing decline of Kinneret Tilapia was not overfishing but ecological impact

Name:Gophen Moshe

Affiliation: Migal-Scientific research institute

Biography: Birth date: 18.12.1936
Studied Biology in the Hebrew University ,Jerusalem:
1963-BSc; 1967-MSc; 1976-PhD; 1985-Full Professor.
1968-2002 Senior scientist in KLL (IOLR).
1980-1986-Director of KLL- IOLR..
2002 - onwards senior scientist in Migal Scientific Research Institute.
1996 - 2014 lecturer in Tel Hai Academic College (Limnology).
1992-1995 Visiting Full Professor in the University Of Oklahoma, USA.
Visiting Professor in the universities of Valdivia, Chile and UNAM, Mexico.

Title: Reproductive performance and sex ratio of Nile tilapia (*Oreochromis niloticus)* fed dietary *Aspilia mossambicensis* and *Aazadirachta indica* leaf powder

Name: Imani Kapinga

Affiliation: Dar es salaam University

Biography: Imani kapinga is a PhD student at Dar es salaam University, Tanzania. she is research officer at Tanzania Fisheries research institute. she has published one paper in an international journal and one submitted for peer review.

Title: Phage Therapy For Vibriosis

Name: Palaniappan Ramasamy

Affiliation: BIHER-Bharath University

Biography: Prof.P.Ramasamy M.Sc., Ph.D., Director–Research, has made significant contributions on the virusal, bacterial and fungal diseases of of penaeid prawns and diseases of fish constituting the first of its kind from this subcontinent, suggesting a great scope for further investigation and will remain as the important data for the foreseeable.

Title: Growth Performance And Genotoxicity Effects Of *Clarias Gariepinus* At Varying Level Of Inclusion Of Walnut Shell

Name: Ayoola, Simeon

Affiliation: Department of Marine Sciences, University of Lagos

Biography: Simeon Oluwatoyin Ayoola is a lecturer of Aquaculture, toxicology and Aquatic pollution in the Department of Marine Sciences, University of Lagos, Lagos State. He obtained B. Sc and M. Sc from the University of Ibadan. He also obtained his PhD from University of Ibadan, Nigeria. He has wide experience in production, teaching and administrative positions over the years. He is a consultant in Aquaculture and Pollution Management.

Title: The Crucial Role Of Women In Food Security Through Aquaculture Development Specially In Rural Areas

Name: Jayshree soni

Affiliation: Jai Narayan Vyas university

Biography: Research in (2008)"An analytical Study on the Food and Agriculture Organization (Fisheries) : A Specialized agency of UNO" - 3 years
Research in (2018) " A Study On The Potential of Agro-Industries To Achieve Food Security In Rural India "- 3 years. University Research Scholarship, Jai Narayan Vyas University, Jodhpur (Raj.)2006-2008. Shortlisted for Dr. Radhakrishna post doctoral fellowship (University Grant Commision, New Delhi) -2017. Shortlisted for post doctoral Women fellowship (University Grant Commision, New Delhi) -2017. Shortlisted for post doctoral fellowship (Indian Council of Social Science Research, New Delhi) -2017

Title: Isolation and identification of fungal genera from freshwater ornamental fish in Punjab, Pakistan

Name: Fauzia Haroon

Affiliation: University of The Punjab Quaid i Azam Campus Lahore

Biography: Fauzia Haroon has completed her PhD in "Fish Diseases and Health Management" from the department of the zoology, at the age of 30 years from University of the Punjab, new campus Lahore, Pakistan. She is lecturer in Zoology, at Govt Queen Mary College, Lahore. She has 3 international publications. As a researcher she is interested to do more work on the Fisheries and aquaculture. Her expertise in identification and characterization of fungal and parasitic infection in aquaculture. She is pioneer in research on parasitic and fungal infection in freshwater ornamental fishes, imported to Pakistan. She is also supervising BS Hons Students research work in aquaculture specialization.

Title: Growth of *Clarias gariepinus* fingerlings fed on fixed ration level at different feeding frequencies

Name: Adewolu Morenike

Affiliation: Lagos State University

Biography: Adewolu Morenike Adunni is a Professor of Fish Nutrition and Aquaculture at the Department of Fisheries, Lagos State University, Lagos Nigeria. Based on her 34years of research and teaching experience, she has been able to establish the crude protein requirements of the catfish Chrysichthys nigrodigitatus at different stages of growth. She discovered that growth of African catfish, Clarias gariepinus were improved when cultured in darkness and feeds were better utilized in monoculture system. She identified local feed ingredients that are suitable for the formulation of catfish diet. Feed costs were reduced by 50% when fishmeal in fish diets was substituted by feed local ingredients. Her current research has established the feeding frequency for the fingerlings of African catfish, Clarias gariepinus.

Title: Effect of Dichlorvos on Biochemical Parameters of *Clarias gariepinus* Juveniles

Name: Nwamba Helen

Affiliation: Enugu State University of Science and Technology

Biography: Helen Ogochukwu Nwamba has a key interest in research on Aquatic Toxicology. She used various pesticides to determine health status of fish, such pesticides includes: Herbicides, Insecticides, etc. Acute toxicity of the pesticides have been determined and documented. Result obtained can be used to detect and monitor environmental pollution, its management and treatment can also be evaluated through the research findings.

conferenceseries.com

Opening Ceremony

Keynote Forum

Introduction

Title: Shellfish aquaculture–Environmental interaction in relation to the impact of aquatic invasive species

Thomas Landry, Department of Fisheries and Oceans, Canada

Networking & Refreshments

Title: Fish domestication in aquaculture: Trends and emerging questions

Fabrice Teletchea, University of Lorraine, France

Workshop

Title: *Nannochloropsis limnetica* (Eustigmatophyceae): A new freshwater microalga for rotifer feed in marine hatcheries

Federico G Witt, AlgaEnergy S A, Spain

Group Photo

Lunch Break

Title: Tumor necrosis factor receptor-associated factor 6 (TRAF6) from mud crab participates in anti-lipopolysaccharide factors (ALFs) gene expression

Shengkang Li, Shantou University, China

Oral Session 1

Aquatic Ecosystem and Aqua Farming Method | Targets and Tools for Selective Breeding of Aquaculture Species | Food Safety in Aquaculture | Biosecurity in Aquaculture

Session Chair: Thomas Landry, Department of Fisheries and Oceans, Canada
Session Co-Chair: Zuoxi Ruan, Shantou University, China

Session Introduction

Title: Experimental advances in shellfish offshore zone production in basque country (SE Bay of Biscay)

Luis Lagos, AZTI, Spain

Title: Effect of resveratrol and genistein on Δ6-desaturase expression and protein levels in rainbow trout

Claudia Grimm, Gesellschaft fuer Marine Aquakultur mbH, Germany

Title: Sardine oil as a source of lipid in the diet of giant freshwater prawn, *Macrobrachium rosenbergii*

Ramachandra Naik A T, College of Fisheries, India

Title: Determination of effective parameters on growth rate and protein content of *Spirulina platensis* under laboratory condition

Mohammad Gorgij Jaski, Islamic Azad University, Iran

Networking & Refreshments

Title: Evaluation of the productive performance characteristics of Nile tilapia, *Oreochromis niloticus* under the effect of DNA transfer

Samy Yehya El-Zaeem, Alexandria University, Egypt

Title: Functional elucidation of *PvRaf* from *Penaeus vannamei* using RNA interference

Joseph Carlo V. Vergel, University of Santo Tomas, Philippines

Panel Discussions

Session Adjournment

Day 2 | March 31, 2017

Cordoba

Keynote Forum

Title: Recent research on largemouth bass production and fillet nutritional characterization of freshwater fish species in Portugal

Antonio Moitinho Rodrigues, Instituto Politecnico de Castelo Branco, Portugal

Workshop

Title: The influence of the N source on C allocation in the cyanobacterium *Synechococcus* sp. depends on energy availability

Zuoxi Ruan, Shantou University, China

Networking & Refreshments

Title: Study on genes involved in biosynthesis of PUFA in marine bivalves

Zheng Huaiping, Shantou University, China

Oral Session 2

Aquaculture Disease, Diagnostic and Health Management | Hydroponics: Present and Future | Biochemistry of Marine Animals | Aquaculture Waste Management

Session Chair: Antonio Moitinho Rodrigues, Instituto Politécnico de Castelo Branco, Portugal
Session Co-Chair: Anjanayappa H N, College of Fisheries, India

Title: A critical reappraisal of fisheries in Saint-Pierre et Miquelon with emphasis on the economic, social and political consequences of the Northern cod collapse in the late 1980s.

Fabrice Teletchea, University of Lorraine, France

Title: Breeding biology of *Priacanthus hamrur* (Forsskal) of Mangalore coast, Karnataka, India

Anjanayappa H N, College of Fisheries, India

Lunch Break

Title: Evaluation of Pacific white shrimp *Litopenaeus vannamei* (Boone, 1931) culturing management in Teyab farms, Hormozgan, Iran

Kiuomars Rohani-Ghadikolaei, Agricultural Research- Education & Extension Organization, Iran

Title: The impact of climate change on species and number of fish on Tigris river in Mosul Dam/Duhok, Kurdistan Region of Iraq

Shokri Omar Mustafa, Ministry of Agriculture and Water Resources- Kurdistan Regional Government, Iraq

Title: Development of probiotics based culture system of *Macrobrachium rosenbergii* using different stocking densities

Istiaq Ahmad Chowdhury, University of Chittagong, Bangladesh

Poster Presentations

Session Judge: Fabrice Teletchea, University of Lorraine, France

AE-101

Title: Identification and characterization of a 18.4kDa antimicrobial truncation from shrimp *Litopenaeus vannamei* hemocyanin upon *Vibrio parahaemolyticus* infection

Yue Ling Zhang, Shantou University, China

AE-102

Title: Tascmar: Development of new tools and strategies to overcome existing bottlenecks in the discovery and application of biomolecules derived from the sea

Carolina Alonso Pozas, iMare Natural SL, Spain

AE-103

Title: Studies on biodiversity of pelagic fishes of Mangalore coast, Karnataka, India

Nayana P, College of Fisheries, India

AE-104	**Title: Culture improvements of mesophotic species with biotechnological interest in the framework of TASCMAR project** **Pedro Antonio Alvarez Molina,** iMare Natural S L, Spain
AE-105	**Title: Reproductive biology of fringe-lipped carp, *Labeo fimbriatus* (Bloch) from Vanivilas Sagar Reservoir of Karnataka, India** **Rajanna K B,** Fisheries Research and Information Centre, India
AE-106	**Title: Length–weight relationship and relative condition factor of *Atropus atropos* (Bloch and Schneider, 1801) from Mangalore coast, India** **Rajesh D P,** College of Fisheries, India
AE-107	**Title: A life cycle assessment of gilt-head seabream (*Sparus aurata* L.) aquaculture using different fish feeds** **Sergio Calle Lobo,** Lund University, Sweden
AE-108	**Title: Evidences of abundant hemocyanin variants in shrimp *Litopenaeus vannamei*** **Yue Ling Zhang,** Shantou University, China
AE-109	**Title: Phenotype of *Aeromonas salmonicida* subsp. *salmonicida* cyclic adenosine 3',5'- monophosphate receptor protein (Crp) mutants and its virulence in rainbow trout *(Oncorhynchus mykiss)*** **Katherinne Valderrama Rios,** Catholic University of North, Chile

Aquatic Farming Methods: Hatchery, Nutrition and Feed Management
Fish Habitat, Ecology and Conservation
Comparative Biology of Aquatic Species
Aquaculture Related Diseases and Health Management
Aquaponics- Planning, Construction and Maintainance

Session Chair: Helmut Wedekind, Institute for Fisheries of the Bavarian States Research Center, Germany
Session Co-Chair: Bernhard Feneis, Federation of European Aquaculture Producers, Germany

Session Introduction

Title: Recirculating aquaculture – Status and developments
Helmut Wedekind, Institute for Fisheries of the Bavarian States Research Center, Germany
Title: Fish diseases and treatment in the light of EU Law
Bernhard Feneis, German Aquaculture Association, Germany
Title: Effects of dietary propolis and Vitamin E on growth performance and antioxidant status in juvenile rainbow trout *Oncorhynchus mykiss* under different flow rate
Guluzar Tuna Kelestemur, Firat University, Turkey
Title: The potentail of crude palm oil as a dietary lipid source in the practical diets of hybrid grouper *Epinephelus fuscoguttatus x Epinephelus lanceolatus*
Rossita Shapawi, Universiti Malaysia Sabah, Malaysia

Lunch Break

Title: Evaluation of essential oils as a glazing material for frozen rainbow trout (*Oncorhynchus mykiss*) fillet
Ozlem Emir Coban, Firat University, Turkey
Title: The struggle to convince traditional fishermen to become aquaculturists in Southeast Brazil
Luiz Fernando Loureiro Fernandes, Universidade Federal do Espírito Santo, Brazil
Title: Culture-based fisheries based on biomanipualtion bring about better economic benefits and biodiversity recovery in lakes of China
Jiashou Liu, Chinese Academy of Sciences, China
Title: Physiological and immune responses of Atlantic salmon after high stocking density stress in RAS
Jun Li, Chinese Academy of Sciences, China
Title: Aquaculture in China: Achievements, challenges and perstectives
Zhongjie Li, Chinese Academy of Sciences, China
Title: Disease hazards of petroleum hydrocarbons contamination in *Gafrarium pectinatum* (LINNAEUS, 1758) from Egyptian lake Temsah
Iman Abumourad, National Research Centre, Eygpt
Title:The existence of kisspeptin-like peptides and effects on ovarian development and maturation in the giant freshwater prawn, *Macrobrachium rosenbergii*
Tipsuda Thongbuakaew, Mahidol University, Thailand

Network and Refreshments Break

Title: Research and application of aquatic animal eco-nutrition based on industrialized culture
Yong Li, Chinese Academy of Sciences, China
Title: The effect of preservatives on the keeping quality of spiced dried tuna sticks (*Katsuwonus pelamis*)
Wilma Q Chua, Cagayan State University, Philippines
Title: Research and application of aquatic animal eco-nutrition based on industrialized culture
Xian Li, Chinese Academy of Sciences, China
Title: An assessment of the current status and future potential of the fresh water and marine aquaculture of Barramundi (*Lates calcarifer*) industries in Cairns region 2015
Mossamat Rashida Akter, James Cook University, Australia

Day 2

Meeting Room 10

Workshop
Title: Animal Welfare in Aquaculture
Helmut Wedekind, Bavarian States Research Center for Agriculture, Germany

Session 2
RAS- Recirculating Aquaculture Systems
Aquatic Biology- Immunology, Physiology, Toxicology
Diversification in Aquaculture
Aquaculture Environment Interactions- Measuring, Modelling and Mitigation
Aquaculture Law and Policy

Session Chair: Paul B Brown, Purdue University, USA
Session Co-Chair: Junda Lin, Florida Institute of Technology, USA

Session Introduction

Title: Length weight relationships and condition factor of snapper (*Lutjanus russelli*), pony fish pepetek (*Leiognathus fasciatus*) and white-spotted spinefoot (*Siganus canaliculatus*) harvested from Ulelhee Bay, Banda Aceh City, Indonesia
Zainal Abidin Muchlisin, Syiah Kuala University, Indonesia

Network and Refreshments Break

Title: SCUBA diving and diversity of edible bivalve and gastropod molluscs from Raigad, Ratnagiri, Maharashtra, west coast of India
Sunil Narayan Khade, Phulsing Naik College, India
Title: Preliminary Study: Effect of feeding frequency on growth, feed conversion ratio and specific growth rate of red Tilapia, *Oreochromis Sp*
Esther Michelle Gunben, Polytechnic of Sandakan, Malaysia
Title: Documentation and inventory of aramang stocks *N. tenuipes* in northern Cagayan, Phillipines
Lenimfa P Molina, Cagayan State University, Philippines
Title: Replacement of fish meal with poultry by-product meal in the formulated feeds for a commonly cultured grouper in Malaysia
Esther Michelle Gunben, Polytechnic of Sandakan, Malaysia
Title: Iran shrimp industry strategic planning, Vision 2025
Khosrow Aein Jamshid, Iranian Fisheries Science Research Institute, Iran
Title: Comparison of omega3 fatty acids amount in male and female of *Otolithesruber* in Abadan and Khorramshahrs coated water
Mojgan Khodadadi, Islamic Azad University, Iran

Lunch Break

Title: "AVISHIT", A new herbal drug for substitution of Malachite green
Sharif Rohani M, Iranian Fisheries Science Research Institute, Iran
Title: Water quality and sediment conditions in white shrimp *Litopenaeus vannamei* (boone) pond during the cultivation period in Iran
Kiuomars Rohani Ghadikolaei, Ecological Research Institute, Iran
Title: Post-escape movements and habitat use of farmed sea *bream Sparusauratain* the eastern Adriatic Sea
Tanja Šegvić-Bubić, Institute of Oceanography and Fisheries,Croatia
Title: Evaluation of health status on complete replacement of animal protein with plant protein (33 %: replacing fish trash) of *L. leucocephala* pod seed
Vipin Kumar Verma, University of Delhi, India

Poster Presentations:

Young Researchers Forum

Session Chair: Chair: Ying Liu, Chinese Academy of Sciences, China
Session Co-Chair: Shi Yen Shiau, National Taiwan Ocean University, Taiwan

Session Introduction

Title: Combined interaction of size phenotype of donor and recipient pearl oyster and gene expression on final pearl growth in *Pinctada margaritifera*
Carole Blay, Ifremer, France
Title: Stress and fish welfare - non-invasive measurement of Cortisolin fish holding water
Kay Lubke, Bavarian States Research Center for Agriculture, Germany
Title: Effect of starvation on hepatopancreas of whiteleg shrimp *(Penaeus vannamei)* using computer-assisted image analysis on paraffin and frozen sections
Fabio Cervellione, Skretting Aquaculture Research Centre, Norway

Network and Refreshments Break

Title: Development and application of a real-time PCR assay for the detection of *Aeromonas salmonicida*
Yishuai Du, Chinese Academy of Sciences, China
Title:Do aquatic insect change over time and space? A study from different lentic ecosystems of Cachar district, Assam, India
Arpita Dalal, Assam University, India
Title: Pre-treatment of phytochemical (Tribulus extract) alleviates intra-follicular oxidative stress and ameliorates oocyte maturation in catfish
Mahammed Moniruzzaman, University of Calcutta, India
Title: Parasite-host interactions at elevated temperatures- Getting into hot water: Sick guppies frequent warmer thermal conditions
Ryan S. Mohammed, The University of the West Indies, Trinidad and Tobago
Title: Population genetic structure of *Scomberomorus commerson* from Persian Gulf, Oman Sea and Arabian Sea and Thunnus tonggol from Oman Sea using sequence analysis of the mitochondrial DNA D-loop region
Ana Mansourkiaei, Islamic Azad University, Iran
Title: Culture of *Spirulina platensis* in different source of nitrogen for optimizing of protein content
Mohammad Gorgij Jaski, Bandar Abbass Azad University, Iran

Poster Presentations:

Title: Protein requirement in the granulated microdiet for larval rockfish *(Sebastes schlegeli)*
Hee Sung Kim, Korea Maritime and Ocean University, Korea
Title: Lipid requirement in the granulated microdiet for larval rockfish *(Sebastes schlegeli)*
Hee Sung Kim, Korea Maritime and Ocean University, Korea
Title: Genetic and morphological characteristics of wild populations and captive stocks of the noble crayfish *(Astacus astacus L.)* in Estonia"
Katrin Kaldre, Estonian University of Life Sciences, Estonia
Title: To induce brood stock of *Heterobranchus longifilis* using a synthetic hormone
Romanus Keke, Imo State University, Nigeria
Title: Application of breeding methods to production genetically improved farmed Nile tilapia, *Oreochromis niloticus*
Fawzia S, National institute of Oceanography and Fisheries (NIOF), Kasr El Aini, Egypt
Title: Evaluation of immunogical genes at gill of *Ictalurus punctatus* immunized with live theronts of *Ichthyophthirius multifiliis*
Gabriel S. A. Moreira, University of Sao Paulo, Brazil
Title: Exogenous proteinases recovered from fishery waste as feed supplement for Nile tilapia (*Oreochromis niloticus*)
Yamila Eliana Rodriguez, Universidad Nacional de Mar del Plata, Argentina
Title: Application of new medicinal plant as prophylactic treatment for epizootic ulceration syndrome
Laila Elarraj, INRH, Morocco

Day 3

Extended Networking and Lunch

291st OMICS International Conference

Scientific Program

CPD APPROVED BY
Institute of Marine Engineering, Science & Technology
IMAREST

International Conference on

Aquaculture & Fisheries

July 20-22, 2015 Brisbane, Australia

UK: Conference Series llc LTD
47 Churchfield Road, London, W3 6AY
Ph: +1-888-843-8169, Fax: +1-650-618-1417, Toll free: +1-800-216-6499
Email: aquaculture@conferenceseries.net; aquaculture@omicsgroup.com

08:30 - 09:00 Registrations

Quay 2

conferenceseries.com

Opening Ceremony

Keynote Forum

Introduction

Networking & Refreshments

Niels O G Jorgensen
University of Copenhagen, Denmark

Kirsten Heimann
James Cook University, Australia

Group Photo

Quay 2

Track 1: Aquatic Ecosystem and Aqua Farming Methods
Track 3: Comparative Biology of Aquatic Species
Track 4: Aquaculture and Biosystem Research
Track 9: Aquatic Immunology
Track 10: Aquatic Physiology
Track 14: Aquatic Toxicology

Session Chair: W Lindsey White, Auckland University of Technology, New Zealand
Session Co-chair: Werner Kloas, Leibniz-Institute of Freshwater Ecology and Inland Fisheries, Germany

Session Introduction

Title: World seaweed utilization: A summary
W Lindsey White, Auckland University of Technology, New Zealand
Title: A new concept for aquaponic systems to improve sustainability, increase productivity, and reduce environmental impacts
Werner Kloas, Leibniz-Institute of Freshwater Ecology and Inland Fisheries, Germany
Title: Tasmanian salmonid aquaculture: Historical perspectives and future drivers of research in physiology and nutrition
Chris G Carter, University of Tasmania, Australia
Title: Sensorial and skeletal ontogenesis: A useful tool for the optimization of larval rearing of new candidate species for aquaculture
Clara Boglione, University of Rome Tor Vergata, Italy
Title: Orange gills in *Litopenaeus stylirostris* : A new phenomenon in caledonian shrimp ponds
Nelly Wabete, IFREMER, New Caledonia
Title: Ornamental aquatic plants industry in Sri Lanka with special reference to constraints for booming
Shyamalie D Senadheera, Ocean University of Sri Lanka, Sri Lanka

Lunch Break

Title: Life cycle of a benthic harpacticoid, *Amphiascoides neglectus* Lang, 1965 in laboratory condition and effect of some environmental factors on the population growth
Zaleha Kassim, International Islamic University, Malaysia
Title: Polyculture of freshwater *Clambatissa violacea* and genetically improved farmed tilapia (GIFT) *Oreochromis niloticus*
Eunice A Layugan, Cagayan State University, Philippines
Title: Rotational culture of the sea cucumber *Holothuria scabra* with the shrimp *Liptopenaeus stylirostris*: Trade-off between growth performance and bioremediation, comparison with shrimp monoculture
Sébastien Hochard, IFREMER, New Caledonia
Title: Prospects of aquaculture development along the persian gulf coast of United Arab Emirates: Transfer of australian aquaculture technologies to middle east
Muhammad Naeem Khan, University of the Punjab, Pakistan
Title: The quantitative trace level analysis of heavy metals through inductively coupled plasma-optical emission spectrophotometer in fish samples collected from fresh water aquaculture
Kashifa Naghma Waheed, Fisheries Research & Training Institute, Pakistan
Title: Reproductive analysis of Indus mahseer *Tor macrolepis* (Heckel, 1838) (Teleostei: Cyprinidae)
Khalid Pervaiz, Fisheries Research & Training Institute, Pakistan
Title: A new record of Squat lobster munida curvipes benedict, 1902 (Crustacea: Decapoda: Galatheidae), off Thoothukudi coast of Gulf of Mannar, India
Vaitheeswaran Thiruvengadam, Rarbio Energies Private Limited, India

Networking & Refreshments

Day 2

Keynote Forum

Roel H Bosma
Wageningen University, Netherlands

Osman Samsun
Sinop University, Turkey

Networking & Refreshments

Poster Session

Quay 2

Track 2: Fish Habitat Ecology and Conservation
Track 4: Aquaculture and Biosystem Research
Track 5: Aquatic Organism's Byproducts and Their Applications
Track 7: Zebra Fish: A Biological Model Organism
Track 8: Diversification in Aquaculture
Session Chair: Kirsten Heimann, James Cook University, Australia
Session Co-chair: Chaoshu Zeng, James Cook University, Australia

Session Introduction

Title: Embryonic learning of chemical cues via the parents host in Anemonefish (*Amphiprion ocellaris*)
Kazuko Miyagawa Kohshima, Wildlife Research Center of Kyoto University, Japan

Title: The role of the sediment in the functioning of semi-intensive shrimp pond ecosystem: Focus on the benthic primary production
Sébastien Hochard, ADECAL Technopole, New Caledonia

Title: Growth and biochemical responses to dietary starch and protein levels in Nile tilapia (*Oreochromis niloticus*)
Jidan Ye, Fisheries College of Jimei University, China

Title: Increasing yield by managing aquatic microbiological communities
Mike Moore, Keeton Industries Inc., USA

Title: The new method of seaweed cultivation in Indonesia
Maruf Kasim, Universitas Halu Oleo, Indonesia

Title: Effects of live tubificid worms on growth performance and survival of stinging catfish, *Heteropneustes fossilis* (Bloch, 1794)
Anwar Hossain, University of Dhaka, Bangladesh

Title: Photoperiodism in the somatic growth and gonad production and quality of the sea urchin *Tripneustes gratilla*
Facundo B Asia, Mariano Marcos State University, Philippines

Title: Pesticide residues in aquatic organisms: Fish and frog
K S Tilak, Acharya Nagarjuna University, India

Title: Comparison of *Nannochloropsis* sp. cultivated in photobioreactor and open raceway pond
Mujizat Kawaroe, Bogor Agricultural University, Indonesia

Lunch Break

Title: Documentation and inventory of aramang stocks *N. tenuipes* in northern Cagayan, Phillipines
Lenimfa P Molina, Cagayan State University, Philippines

Title: Influence of *Lactobacillus acidophilus* supplementation on digestive enzyme activities, gut histomorphology and microflora of striped catfish (*Pangasianodon hypophthalmus* Sauvage, 1878) juveniles
Mst Nahid Akter, Universiti Sains Malaysia, Malaysia

Title: Toxicity and other effects of pesticides to fresh water fishes
K S Tilak, Acharya Nagarjuna University, India

Networking & Refreshments

Young Researcher Forum

Young Researcher Forum Session Judges

Session Judges:
Roel H Bosma, Wageningen University, Netherlands
Niels O G Jorgensen, University of Copenhagen, Denmark
Osman Samsun, Sinop University, Turkey

Title: Swimming performance of juvenile temperate fish in response to climate change
Nastaran Mazloumi, University of Adelaide, Australia

Title: Patenting genetic material in aquaculture: a red herring or an emerging issue to tackle?
Fran Humphries, Griffith University, Australia

Title: Potential efficacy of nanodelivery of DNA vaccine using chitosan nanoparticles against *Edwardsiella tarda*
Sajal Kole, Central Institute of Fisheries Education (CIFE), India

Title: The cultivation of red seaweed (Rhodophytes, *Kappaphycus* sp.) in raceway culture system
Wahidatul Husna Zuldin, Universiti Malaysia Sabah, Malaysia

Title: Determination of the antioxidant activity of some common seaweeds in Sri Lanka
Surendra Isiri Hiranyada Wickrama, Rajarata University of Sri Lanka, Srilanka

Title: Use of vegetable waste as sole feed in the diet of rohu fingerlings (*Labeo rohita*)
Fawad Aziz, Quaid-i-Azam University, Pakistan

Title: Development of ready to serve restructured surimi product from minced meat of Leather Jacket (*Triacanthus brevirosterus*)
K Hema, Tamilnadu Fisheries University, India

Title: Expression profiles of two downstream signalling molecules of Toll-pathway in Tiger shrimp (*Penaeus monodon*), Cactus and Dorsal genes in response to infection with white spot syndrome virus and *Vibrio harveyi*
Deepika Anand, Central Institute of Fisheries Education (CIFE), India
Title: Sulfated polysaccharide from Sargassum spp. in Bolinao, Pangasinan, Philippines
Nieva J A, The Marine Science Institute, Malaysia
Title: Mesozooplankton's diversity and distribution between Cape Blanc (21°N) and Cape Boujdor (26°N): Moroccan Atlantic Coast
Laila El Arraj, University Hassan II of Casablanca, Morocco
Title: Some culture management indices affecting on great Sturgeon (*Huso huso*) production in the caspian sea region, I.R of Iran
Elham Maghsoudloo, Sturgeon Fish Co., Iran
Title: Characterization and comparison of genetic strains in Clariid species and *Clarias gariepinus* using microsatellite markers in the African and aborigines regions
Bashiru Ayobami Ismaila, University of Lagos, Nigeria

Day 3

Quay 2

Special Session on Aquaculture Law and Policy

Session Chair: David Vander Zwaag, Dalhousie University, Canada
Session Co-chair: Katherine Hawes, Aquarius Lawyers, Australia

Session Introduction

Title: Towards sustainable aquaculture: Navigating international law and policy currents
David Vander Zwaag, Dalhousie University, Canada
Title: Non-compliance with international laws and why you need to know this in order to grow your businees
Katherine Hawes, Aquarius Lawyers, Australia
Title: Australian aquaculture governance
Marcus Haward, University of Tasmania, Australia
Title: New Zealand's aquaculture law and policy framework
Karen N Scott, Australian and New Zealand Society of International Law, New Zealand
Title: Regional governance of the relation between aquaculture and wild salmon in the north Atlantic
Irene Dahl, Artic University of Norway, Norway

Networking & Refreshments

Title: Governance of aquaculture in Canada: Regulation, property rights and constitutional impediments
Phillip Saunders, Dalhousie University, Canada

Workshop on Food Security & Aquaculture Development (MENA) Middle East North Africa

Prathapachandra Shetty, Emirates Star Fisheries, UAE
Chair: Chaoshu Zeng, James Cook University, Australia
Co-chair: Prathapachandra Shetty, Emirates Star Fisheries, UAE

Session Introduction

Title: Deciphering the epidemiology of Three Myxozoan parasites (Myxosporea: Myxobolidae) isolated from wild African sharptooth catfish, *Clarias gariepinus*
Hany M R Abdel Latif, Alexandria University, Eygpt
Title: Possibility of disease control by ambient dissolved oxygen level
Masashi Maita, Tokyo University of Marine Science and Technology, Japan
Title: Novel media for the culture of the salmonid pathogen *Piscirickettsia salmonis* and their biotechnological uses in the salmon industry
Alejandro J Yanez Carcamo, Universidad Austral de Chile, Chile
Title: Designing indonesia fish logistics system with based on central Sulawesi resource
Mohammad Nofal, Tadulako University, Indonesia
Title: Assessment of some plant products for the control of smoked fish pest, *Dermestes maculatus* degeer (Coleoptera: Dermestidae) in *Clariasgariepinus burchell* (Pisces: Clariidae)
Felix Olusegun Akinwumi, Adekunle Ajasin University, Nigeria

Lunch Break

Title: Comparative transcriptomic studies on food intake regulation in mandarin fish and grass carp
Xu-Fang Liang, Huazhong Agricultural University, China
Title: Microbial load of fresh water snail (*Pila ovata*) from Nembe Creek, Niger delta, Nigeria
Ogheneughwe Akise, Federal University, Nigeria
Title: Effect of water temperature management on the hatching rate and larvae production of white leg shrimp (*Litopenaeus vannami*) in shrimp hatcheries of Sistan & Baluchistan province, South-east of Iran
Javad Ghasemzadeh, Chabahar Maritime University, Iran
Title: The improvement of intensive culture system technology on Mud crab using different dosage of artificial feeds on lipid source of the growth and survival rate
Istiyanto Samidjan, Diponegoro University, Indonesia
Title: Iran seafood marketing challenges
Babataher Alizadeh, Fisheries & Co., Iran

Award Ceremony & Closing Remarks

Networking & Refreshments
