16TH INTERNATIONAL CONFERENCE ON

AQUACULTURE & MARINE BIOLOGY

OCTOBER 14-15, 2022 | PARIS, FRANCE

Invitation to AQUACULTURE 2022

We look forward to see researchers from all around the 16th international Conference on Aquaculture & Marine Biology during October 14-15, 2022 the delightful venue of Paris, France . AQUACULTURE 2022 is the premier international forum to present and discuss progress, research, development and application of the major topics related to Aquaculture & Marine Biology.

The 2022 edition of the summit will offer high quality and relevant research session, poster session, workshop, exhibition, panel discussion etc. for the better understanding of the subject. The conference agenda has been prepared by the scientific committee to enable the exchange of ideas and to expand network with leading experts and researchers during the summit.

AQUACULTURE 2022 will be a great meeting point for sharing the latest research papers of academic as well as to experience the matchless environment of Paris, France which has been known for its artistic, cultural as well as scientific developments.

We look forward to your participation for AQUACULTURE 2022 summit at Paris, France.

Sincerely,

Operating Committee

AQUACULTURE 2022

Scientific Sessions

- Sustainable Aquaculture
- Aquatic Diseases & Immunity
- Aquaculture Nutrition & Supplies
- Aquaculture Genetics & Biotechnology
- Marine Life & Conservation
- Freshwater Biology
- Coastal and Marine Ecosystem

Why to join

- Meet Experts & Influencers
- Networking Opportunities
- Learning In a Global Space
- Added Research Value
- Investment in Knowledge for Future

Paris Attractions

Paris, city and capital of France, situated in the north-central part of the country. People were living on the site of the present-day city, located along the Seine River some 233 miles (375 km) upstream from the river's mouth on the English Channel (La Manche), by about 7600 BCE. The modern city has spread from the island (the Île de la Cité) and far beyond both banks of the Seine. Paris occupies a central position in the rich agricultural region known as the Paris Basin, and it constitutes one of eight départements of the Île-de-France administrative region. It is by far the country's most important centre of commerce and culture. For centuries Paris has been one of the world's most important and attractive cities. It is appreciated for the opportunities it offers for business and commerce, for study, for culture, and for entertainment; its gastronomy, haute couture, painting, literature, and intellectual community especially enjoy an enviable reputation. Its sobriquet "the City of Light" ("la Ville Lumière"), earned during the Enlightenment, remains appropriate, for Paris has retained its importance as a centre for education and intellectual pursuits. Paris's site at a crossroads of both water and land routes significant not only to France but also to Europe has had a continuing influence on its growth. Under Roman administration, in the 1st century BCE, the original site on the Île de la Cité was designated the capital of the Parisii tribe and territory. The Frankish king Clovis I had taken Paris from the Gauls by 494 CE and later made his capital there. Under Hugh Capet (ruled 987–996) and the Capetian dynasty the preeminence of Paris was firmly established, and Paris became the political and cultural hub as modern France took shape. France has long been a highly centralized country, and Paris has come to be identified with a powerful central state, drawing to itself much of the talent and vitality of the provinces.

Important Dates

Registration Open: **March 15, 2022**
Early Bird: **June 20, 2022**
On Spot Registration: **October 14, 2022**

Registration Prices

Speaker Registration **449 euros**
Delegate Registration **359 euros**
Young Research Forum **380 euros**
