ABOUT CONFERENCE

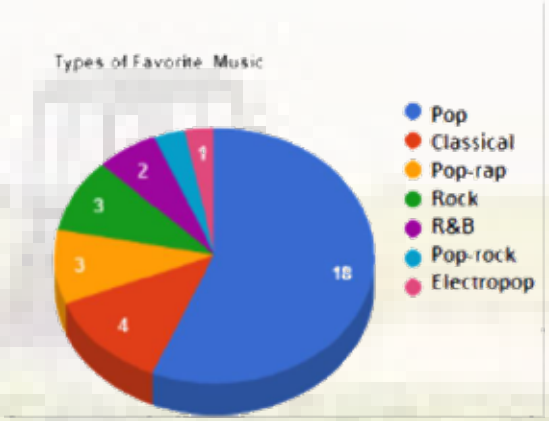

The 13th World Summit on Aquaculture and Fisheries will be held in Dubai, United Arab Emirates, on February 23–24, 2023. Conference Series LLC, Ltd. invites all participants from all over the world to attend. This international conference includes oral lectures, exhibitions, posters, and short presentations.

More than 3,000 worldwide events, including more than 300 conferences, more than 500 upcoming and past symposia, and workshops throughout the United States, Europe, and Asia, are organised by Conference Series LLC Ltd. with the help of an additional 1,000 scientific societies.

Market analysis:

The aquaculture market had a 2018 market value of USD 30.1 billion and is anticipated to grow to USD 42.6 billion by 2023, at a CAGR of 7.2%. This is a result of people eating more fish due to its nutritious value. Additionally, the demand for aquaculture goods is being boosted by the trend toward smart fishing and the expansion of the seafood trade. Small-scale farming is practised in developing nations such as Asia-Pacific, South America, and Africa due to the rising demand for aqua-products due to their high protein content. Additionally, since aquaculture is one of the main employment.
