

2018 ARTIFICIAL INTELLIGENCE

5TH INTERNATIONAL CONFERENCE ON

ARTIFICIAL INTELLIGENCE

APRIL 16-17, 2018 | LAS VEGAS, USA

artificialintelligence.conferenceseries.com

Invitation

Las Vegas
USA
April 16-17
2018

Dear Attendees,

We are glad to announce the **5th International conference on Artificial Intelligence** to be held in Las Vegas, USA from April 16-17, 2018 organized by Conference Series LLC Ltd, USA in collaboration with generous support and cooperation from enthusiastic academicians and editorial Board Members.

The Automation & Robotics 2018 annual meeting offers unparalleled educational, networking and business development opportunities. This three-day meeting is so highly regarded that more than 250+ attendees travel from 90 countries to attend and participate – making it the largest educational event in robotics in the world. We're excited to invite you to be part of it. The goal of the Automation & Robotics 2018 is to respond to the changing educational needs of its members whether this is through additional workshops, simulation or electronic media. The attending delegates include Editorial Board Members of related International Journals.

This is an excellent opportunity for the attendees from Universities and Institutes to interact with the world class Experts. Automation & Robotics 2018 is committed to providing attendees with an amazing experience. The Automation & Robotics 2018 annual meeting is sure to exceed your expectations in every way. With over 60 educational sessions that cross 16 tracks, you are invited to participate in seminars, refresher course lectures, panels, pro-con debates, clinical forums, hands-on workshops, scientific abstract posters and presentations. This meeting offers something for everyone

We look forward to personally welcoming you to Las Vegas, USA

Sincerely,
Artificial Intelligence 2018
Organizing Committee

About Conference

Las Vegas
USA
April 16-17
2018

Artificial Intelligence 2018 Conference website is attracting 25000+ Data Scientists, online visitors ranging from Researchers, Academicians and Business professionals, who are working in this field. This unique opportunity that we extend to our speakers and attendees is not being offered by any other conference organizers. Through this the abstracts and research profiles of our speakers and organizing committee members getting global visibility which is an additional feature that you would be receiving in addition to networking opportunities before, during and after the conference.

How Conference Series Conferences differs from others?

- 3000+ Conferences across the globe in 70+ countries Annually
- Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

Artificial Intelligence 2018 salient features

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Meet with new vendors and suppliers

About Conference

Las Vegas
USA
April 16-17
2018

Purpose

5th International conference on Artificial Intelligence is an arena for interdisciplinary exchange among professionals in the fields of Data Mining and Artificial Intelligence.

Goals

The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goals of the conference is to provide a transformative professional development experience through

Bringing together the world's scientific experts to catalyze and advance scientific knowledge about Artificial Intelligence and data mining present the most recent research findings, and promote and enhance scientificcollaborations around the world

Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address regional, national and local responses to Elderly Population around the world and overcome barriers that limit access to care and services.

Objectives

After participating in this meeting, attendees should be able to

Discuss emerging issues in Artificial Intelligence

Discuss and apply recent research findings related to Artificial Intelligence

Reflect on the place of critical distance in Artificial Intelligence

About Conference

Las Vegas
USA
April 16-17
2018

Who should attend

5th International conference on Artificial Intelligence is exclusively designed for Data Mining and Artificial Intelligence, Researchers, Academicians, Practitioners, Early Career Scholars, students along with Industries and others engaged in endeavors related to Artificial Intelligence research and business.

About hosting organization

Conference Series is the world's leading specialist in organizing Academic, Scientific and Business conferences, meetings, symposiums and exhibitions in different verticals and horizontals like Medical, Pharma, Engineering, Science, Technology and Business to promote scientific research. Every year we host more than 3000+ global events inclusive of 1000+ Conferences 1000+ Symposiums 1000+ Workshops in USA, Europe, Middle East and Asia with the generous support and cooperation from our 30000+ Editorial Board Members, 1000+ Scientific Societies. All the conference proceedings are published in the special issues of our 700+ Open Access International Journals with the DOI provided by crossref

Major sessions

- Machine Learning
- Quest for Artificial Intelligence
- Ambient Intelligence & Knowledge Representation
- Role of artificial intelligence in intelligent systems, virtual reality systems and autonomous vehicles
- Multiagent Systems
- Ontologies and Knowledge-Based Systems
- Mathematical Preliminaries and Notation
- Prototypical Applications
- Philosophy and ethics
- Artificial Intelligence and Robotics
- Affective computing
- Artificial Neural Networks
- Big Data Applications
- Artificial Intelligence Applications in Cybersecurity, Science, Engineering, Healthcare and Medicine
- Cloud Computing

About Las Vegas

Las Vegas
USA
APRIL 16-17
2018

Las Vegas officially the City of Las Vegas and often known simply as Vegas, is the 28th-most populated city in the United States, the most populated city in the state of Nevada, and the county seat of Clark County. The city anchors the Las Vegas Valley metropolitan area and is the largest city within the greater Mojave Desert. Las Vegas is an internationally renowned major resort city, known primarily for its gambling, shopping, fine dining, entertainment, and nightlife. The Las Vegas Valley as a whole serves as the leading financial, commercial, and cultural center for Nevada.

The city bills itself as The Entertainment Capital of the World, and is famous for its mega casino–hotels and associated activities. It is a top three destination in the United States for business conventions and a global leader in the hospitality industry, claiming more Five Diamond hotels than any other city in the world. Today, Las Vegas annually ranks as one of the world's most visited tourist destinations. The city's tolerance for numerous forms of adult entertainment earned it the title of Sin City, and has made Las Vegas a popular setting for literature, films, television programs, and music videos.
