3rd International Conference on

Advanced Robotics, Mechatronics and Artificial Intelligence

November 11-12, 2019 | Tokyo, Japan

https://robotics-mechatronics-ai.insightconferences.com/

Invitation

Dear Attendees,

Conference Series LLC Ltd welcomes you to attend the **3rd International Conference on Advanced Robotics, Mechatronics and Artificial Intelligence during November 11-12, 2019 | Tokyo, Japan.** We cordially invite all the participants who are interested in sharing their knowledge and research in the arena of Artificial Intelligencetology.

Artificial Intelligence 2019 anticipates more than 100 participants around the globe with thought provoking keynote lectures, oral and poster presentations. The attending delegates include editorial board members of related open access journals.

This is an excellent opportunity for the delegates from universities, institutes and industries to interact with the world class scientists. The intending participants can confirm their participation by registering for the conference along with your colleagues. Avail the delegate early bird offer. The main theme of the conference is **"Boundless Implications of Automation and Control Systems in Mechatronics"**

As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts.

Life is full of give and take. Make it count in your professional life. Attend the Artificial Intelligence 2019 to network with your peers, exchange expertise and experiences, and arm yourself with the latest information to take your department to the next level. We look forward to personally welcoming you to Tokyo this November.

Sincerely,

Artificial Intelligence 2019

Organizing Committee

About Us

Our International Open Access Journals

- 700+ Leading-edge Peer Reviewed Open Access Journals
- 21 Day Rapid Review Process
- 50000+ Editorial Board Team, 35000+ Reviewers team
- 30 Million Readers and High Visibility
- 1000+ Scientific Associations Collaborations
- 100000+ facebook fans Likes
- Publication immediately after acceptance
- Quality and Quick editorial, review processing

Salient Features

- Easy to Submit and Review Systems
- High Quality and Fast Publishing Guaranteed
- Unbiased, quality-oriented, and transparent reviews
- Truly impartial recognition of the best papers
- Feedback on the impact of every article
- Enhanced feature: Audio version of published paper
- Digital articles to share and explore
- Sharing option: Social networking enabled
- Authors, reviewers and editors are provided with scientific credits
- User friendly/feasible website articles translations across more than 50 world languages

Our International Scientific Conferences

- More than 3000 Conferences happening across the globe
- Conferences organized in Medical, Pharma, Engineering, Science, Technology and Business.
- CME/CPD Accredited Conferences fostering professional and Personal development
- Continuum of education through organized scientific program
- Renowned speakers and scientists representing from 40 countries
- Highly Interactive sessions and Panel Discussions
- B2B Meetings offers perfect platform for Global Networking

Salient Features

- Robust on-line publicity for all the speakers and organizing committee members
- Career Guidance Workshops for students and early career researchers
- Accepted Abstracts will be published in various indexed journals
- Accepted abstracts will be labeled with a Digital Object Identification Number (DOI) provided by Cross Ref
- Creation of speakers and abstracts pages in Google
- Opportunity to publish full Manu Scripts in our Open Access Journals

Special Issues : All accepted abstracts will be
published inrespective UK: Conference Series LLC Ltd Journals
Each abstract will be provided with digital Object Identifier by Crossref

About Conference

The Artificial Intelligence conference interacts with members across the globe focused on learning about Artificial Intelligence and its Applications. This is the single best opportunity to reach the largest participants. Sharing the knowledge and demonstrations, information and B2B meetings with industrialists and potential clients to make a splash with innovative products live and brand recognition at this event. World-renowned speakers, the most recent techniques, and the latest advancements in Artificial Intelligencetology are hallmarks of this conference.

Artificial Intelligence 2019 salient features

- Meet academia and industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly organized and structured scientific programs
- Poster presentations and world class exhibitions
- Meet with new vendors and suppliers

How Conference Series Conferences differs from others?

- 3000+ Conferences across the globe in 30+ countries all through the year
- Over 25 million+ visitors and 20000+unique visitors per conference
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for global networking

Goals

- The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goal of the conference is to provide a transformative professional development experience.
- Bringing together the world's scientific experts to catalyse and advance scientific knowledge about Artificial Intelligence and regulatory measures present the most recent research findings, and promote and enhance scientific collaborations around the world.
- Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address regional, national and local responses to elderly population around the world and overcome barriers that limit access to care and services.

About Conference

Objectives

After participating in this meeting, attendees should be able to

- Discuss emerging issues in the field of artificial intelligence and robotics
- Discuss and apply recent research findings related to artificial intelligence and robotics
- Reflect on the place of critical distance in artificial intelligence and robotics

Who should attend

The Artificial Intelligence conference interacts with members across the globe focused on learning about Artificial Intelligence and its Applications. This is the single best opportunity to reach the largest participants. Sharing the knowledge and demonstrations, information and B2B meetings with industrialists and potential clients to make a splash with innovative products live and brand recognition at this event.

About hosting organization

Conference Series is the world's leading specialist in organizing Academic, Scientific and Business conferences, meetings, symposiums and exhibitions in different verticals and horizontals like Engineering, Science, Technology and Business to promote scientific research. Every year we host more than 3000+ global events inclusive of 1000+ Conferences 1000+ Symposiums 1000+ Workshops in USA, Europe, Middle East and Asia with the generous support and cooperation from our 30000+ Editorial Board Members, 1000+ Scientific Societies. All the conference proceedings are published in the special issues of our 700+ Open Access International Journals with the DOI provided by Crossref

2019

Major Sessions

- Artificial Intelligence
- Mechatronics
- Intelligent System
- Robotics
- Human Robot Interaction
- How Robots Changing Our Life
- Robots: A Helping Hand
- Robots in Industry
- Automation
- Automation Tools
- Ethics of Artificial Intelligence
- The Coming Future of AI
- Big Data Analysis
- Big data application
- Artificial Neural Network
- IoT System of Systems
- Control Methods
- Deep Learning

Supporting Journals

- Journal of Computer Engineering & Information Technology
- Journal_Advances in Robotics & Automation

About Tokyo

Why Tokyo, Japan ?

Tokyo, the working capital of Japan, combines the taste of both futuristic and the traditional ethics picking the glaze from neon-lit skyscrapers to historic temples. Tokyo has also crowned the title as the world's most well-to-do city to live in due to its comfortable ways of rail and subway networks. The cultural casting of Tokyo is well-known for its numerous museums; theatres; festivals; internationally noted cuisines; and professional sports clubs, including baseball, football, along with traditional Japanese crave Sumo Wrestling.

The focused attraction of Tokyo's Marunouchi district is the Imperial Palace known for its beautiful 17th-century parks guarded by walls and moats and which is still in use by the Imperial family. This Palace is on the site where the Feudal Lord Ota Dokan created the first fortress, in 1457 and is the initial residence for the Emperor of Japan and it is placed at the focal point of Tokyo and built on the site of old Edo Castle.

The palatial attraction Meiji Shinto Shrine of Shibuya district is known for its surrounding woods of about 120,000 trees representing species that are found across Japan, a special ward in Tokyo. The shrine's attention includes its Inner Precinct (Naien) with its museum including royal treasures, and the Outer Precinct (Gaien), home to the Meiji Memorial Picture Gallery with its splendid number of murals relating to the lives of the emperor and empress. The Skytree of Tokyo is the highlighted tower for its broadcasting, incredible panoramic scenes from its restaurant and observation decks in Sumida, Tokyo, Japan. It became the tallest structure in Japan in the year 2010 and is about 2,080 ft by March 2011 that paved its way to achieving the title of tallest tower in the world, replacing the Canton Tower after the Burj Khalifa.

The National Museum of Tokyo is almost grounded with 100,000 important works of Japanese, Chinese, and Indian art, including more than 100 national treasure and was opened in 1938. The museum includes highlights of numerous Buddhist sculptures from Japan and China from the 6th century to the present connected with the collection of old textiles, historical weapons, and military equipment, historical Japanese clothing as well as Asian ceramics and pottery and many fine examples of calligraphy.

Other astounding attractions that can quench the thirst of tourism and worth travelling includes-the Cherry blossom garden at Ueno Onshi Park,Yoyogi Park,Ryogoku Kokugikan(The National Hall of Sumo),Mt Fuji which is located at Honshu island of Japan, Disneyland & DisneySea, Tokyo Dome(Stadium) and the fabulous tongue tickling foods such as Sushi.

Registrations

Academic

Only Registration: **$599**
Package A (Registration + 2 nights Accommodation): **$899**
Package B (Registration + 3 nights Accommodation): **$1049**

Business

Only Registration: **$699**
Package A (Registration + 2 nights Accommodation): **$999**
Package B (Registration + 3 nights Accommodation): **$1149**

Student

Student Registration: **$249**
Student Poster: **$349($249+$100 for Poster)**
Young Research Forum: **USD $249**
E-poster: **USD 99**

IMPORTANT DATES

ABSTRACT SUBMISSION OPENS:
APRIL 02, 2019

EARLY BIRD REGISTRATION:
MAY 24, 2019

REGISTRATION OPENS:
APRIL 02, 2019

ON SPOT REGISTRATION:
NOVEMBER 11, 2019
