Artificial Intelligence 2020

Scientific Program

Webinar on Automation and Artificial Intelligence

Date: May 21, 2020

Scientific Program	
Webinar on Automation and Artificial Intelligence	
May 21, 2020	
13:30-13:35	**Introduction**
13:35-13:50	Title: A challenge to AI based Engagement fund
	Osamu Miyashita, J-Phoenix Research Inc, Japan
13:50-14:05	Title: Medical Artificial Intelligence
	Dr.Yifan Zhu, China
14:05-14:20	Title: Trust in Artificial Intelligence: What do we know and why is it important
	Dr. Steven Lockey, University of Queensland Business School, Australia
14:20-14:35	Title: IoT, AI and Blockchain Convergence
	Yassir Karroute, Founder & CEO @REDLab, Paris, France
14:35-14:50	Title: Artificial Intelligence Based on Eccentricities
	Dr.Santi Esteva, Univ. of Girona, Spain
Networking and Refreshments 14:50-14:55	
14:55-15:10	Title: Real-time Tools for Exploring the English Language
	Andrew Ernest Ritz, Langtech, Katowice, Poland
15:10-15:25	Title: Data and Artificial Intelligence Strategy: A Conceptual Enterprise Big Data Cloud Architecture to Enable Market-Oriented Organisations
	Caio Moreno, PhD Student at Complutense University of Madrid, Spain
15:25-15:40	Title: Hierarchical Reinforcement Learning for Factual Claim Generation
	Fatima T Al-Khawaldeh, University of York, Department of Computer Sciences. UK
15:40-15:55	Title: skin cancer classification using ResNet
	University degli studi dell' Aquila, Italy
Video Presentation	
15:55-16:05	Proposal Toward “No-Fault” Civil Liability Regulation Following artificial intelligence evolution in Health-Care
	Emiliano Marchisio, “Giustino Fortunato” University, Benevento, Italy
Poster Presentation	
16:05-16:15	Title: The Robot A06, semi humanoid robot for education
	Senor Abiud Ademir Bermúdez Aguilar, El Salvador
Closing Ceremony 16:15-16:20
