Announcement

6th Asia Pacific Congress on

Chemical and Biochemical Engineering

September 17-18, 2018

Hong Kong

Theme:
Evolution of Chemical Engineering: Back to the Future

www.chemicalengineeringconference.com/

Invitation

Dear Colleagues,

Conference Series llc LTD. is delighted to welcome you to Hong Kong for the prestigious 6th Asia Pacific Congress on Chemical and Biochemical Engineering. Asia Chemical Engineering 2018 will focus on the theme "Evolution of Chemical Engineering: Back to the Future". We are confident that you will enjoy the Scientific Program of this upcoming Conference.

We look forward to see you at Hong Kong.

With Regards,

Asia Chemical Engineering 2018 Operating Committee

Conference Series llc LTD. Conferences

Editorial Board Members of Supporting Journals:

Liming Dai
Case Western Reserve University, USA

Shing-Yi Suen
National Chung Hsing University
Taiwan

Victor Starov
Loughborough University, UK

Joseph D Smith
Missouri University of Science and Technology, USA

Junwang Tang
Department of Chemical Engineering
University College London, UK

Fawzi Banat
Department of Chemical engineering
The Petroleum Institute, UAE

Eduard Rogatsky
Albert Einstein Medical college, USA

Hideharu Shintani
Chuo University, Japan

Qin Hu
State University of New York at Buffalo
NY, USA

Accommodation

A large number of rooms have been reserved. Discounted room rates for Asia Chemical Engineering 2018 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by Public transportation.

Exhibition and Sponsorship

An Exhibition will be held concurrently with the Congress. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the field of Chemical and Biochemical Engineering.

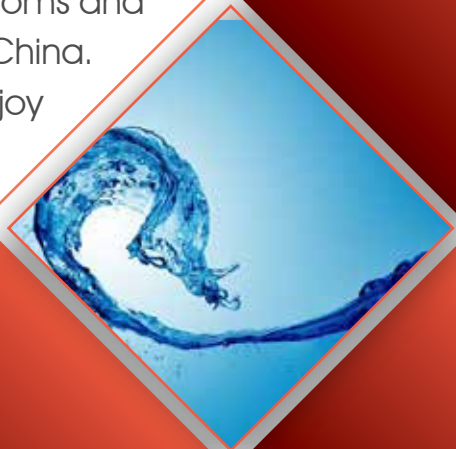

About Hong Kong

As a Special Administrative Region of China, Hong Kong is situated on the southeast coast of China. The city is one of the world's leading financial, banking and trading centres. It is made up of four parts: Hong Kong Island, Kowloon Peninsula, the New Territories and the Outlying Islands. The prosperous island is the centre of economy, politics, entertainment and shopping with its southern part noted for sea shores and ba?ys. Kowloon is another flourishing part where Tsim Sha Tsui, Yau Ma Tei and Mong Kok are the most popular destinations. The New Territories and Outlying Islands are ideal places to experience a peaceful and natural holiday.

Hong Kong serves as an important transport hub between international cities and regions with major cities in Mainland China. The well-developed urban transport system can be used to most places in the city, making traveling convenient and cheap. Different cultures bring food all over the world to this city, so it is a paradise for foodies. After a busy day of traveling, it is highly recommended to appreciate the colourful nightlife. An open city with a wonderful natural harbour, it is a place where various cultures blend harmoniously. British culture can be found everywhere as a result of former colonial rule, while it also preserves traditional customs and the core values of Confucianism that have faded in Mainland China. It is the backdrop for modern movies and pop music that enjoy worldwide recognition.
