Program

10th World Congress on

Virology and Mycology

May 11-12, 2017 Singapore

Theme: New technologies and therapeutic approaches in virology and mycology

Seating is Limited
Register Today!

Conference Secretariat
2360 Corporate Circle, Suite 400 Henderson
NV 89074-7722, USA
Conference Series
Direct: (702) 508-5200 Ext: 8083
Tel: +1 (800) 216 6499
Email: asiavirology@microbiologyconferences.org

Program

Day 1: May 11, 2017

Opening Ceremony

Conference Souvenir Launch

Virus & Viral Evolution, General Virology; Viral Pathogenesis & Latency, Virulence

Keynote Forum (& Exhibitions Full day)

(Panel discussions and Reviews)

Coffee Break: Networking & Refreshments

Group Photo

Speaker Forum

Sessions Chair's Introduction

Session 1: Molecular & Genomic Virology; Vaccines & Antiviral Drugs; Viral Replication; Herpes Simplex virus; Oncogenic Virus

Session 2: Neurovirology; Sexually Transmitted Viral Infections

Session 3: Current trends and research in Virology; Serological Methods in Virology

Panel discussions and Reviews

Lunch Break

Young Research Forum

(Panel discussions and Reviews)

Coffee Break: Networking & Refreshments

B2B Meetings

Certificates Felicitation by the organizing Committee

Day 2: May 12, 2017

Introduction

Keynote Forum (& Exhibitions Full day)

(Panel discussions and Reviews)

Coffee Break: Networking & Refreshments

Speaker Forum

Sessions Chair's Introduction

Session 4: Viral Bioweapon; Viral Therapy & Viral Vectors; Viral Respiratory Infections; Mycology & Ecology; Mycotoxins

Session 5: Medical & Industrial Mycology; Mycology & its diversity; Plant & Agricultural Virology; Viral Hepatitis; Aquatic Viral Disease

Session 6: Veterinary Virology; Food & Veterinary Mycology; Clinical Mycology & Mushrooms; Viral Haemorrhagic Fever; Transplant associated Viral Infections

Panel discussions and Reviews

Young Research Forum

(Panel discussions and Reviews)

Lunch break

Speaker Sessions (Cont...)

Poster Sessions Evaluation by the Committee

Refreshments

Award Ceremony

Felicitation of the best poster awards

Closing Ceremony

Why to Attend???

Meet Your Target Market with members from around the world focused on learning about Virology and Mycology, this is your single best opportunity to reach the largest assemblage of participants from the viral community. Conduct demonstrations, distribute information, meet with current and potential Scientists, make a splash with a new research, and receive name recognition at this 2-day Virology and Mycology Event. World-renowned speakers, the most recent techniques, tactics, and the newest updates in Microbiology Fields are hallmarks of this conference.

Abstract Information: Oral / Poster Presentation Guidelines

Oral Presentations are generally split into TWO categories, as follows:

1. Plenary Lectures
   - Each Plenary lecture is 25 minutes in length and comprises one presentation. We recommend you plan to present for approximately 20 minutes with 5 minutes for questions/discussion.
   - Where Plenary Lectures are presented as debates, each of two speakers should plan to present for 20 minutes, allowing five minutes for closing questions and conclusions. We recommend that invited speakers communicate in advance of the Moderator so that presentations may be coordinated.
2. Oral Sessions
   - Each Oral Session is 60 minutes in length and comprises two presentations, of 30 minutes each. We recommend that you plan to present for approximately 15 minutes, allowing time for questions/discussion at the end of the presentation.

Please prepare you presentation in 16:9 format (screen are in format 16:9). We recommend you to save your PowerPoint presentation using PPT(X) format instead of PPS.

A technician is available in every session room to provide assistance when needed. Due to the online presentation system, all speakers are kindly requested to use provided PC onsite. Please be present in the session room 15 minutes prior the start of your session and follow the instructions from the Chairs and/or technician. During your presentation a remote control will be available for controlling your presentation. Please observe the time allotted to you as you will not be permitted to speak for longer time. At the end of the Congress, all presentations will be deleted from the presentation system and computers on-site.

Speaker Preview Room

All speakers are asked to upload their presentation at the Speaker Preview Room (located in the Registration area) at least one hour before the beginning of the session or the day before in case of a morning session.

Speaker Guidelines

1 Language

- Presentations as well as all audio visual material should be presented in English (slides, DVDs).

2 General instructions

- All presentations are held in Microsoft PowerPoint on a PC running Windows.
- If you are using other than Microsoft Power point on a PC running Windows (example : Open Office, Power point for Mac, Keynote), please make sure your presentation is converted to Microsoft Power point for Windows PCs before you travel to the Congress (preferably by trying the converted presentation on a Windows PC).
- Presentations in Acrobat PDF format or Word format are not accepted.
- Speakers are kindly requested to respect the allotted time to guarantee a smooth running of the sessions.
- Computer projection will be available. Neither slide (35mm) projections nor personal laptops (MAC and PC) will be used in the congress rooms. A single computerized system will manage all projections and will send the presentations to the assigned Congress rooms automatically. This method guarantees an easier management, a higher quality of projection and a quicker and smoother running of the presentations. The use of personal laptops (MAC and PC) for presentations will not be allowed.
- In the Speakers Preview Room, a technician will be present to help the speaker to transfer his or her presentation into the central congress network. When the transfer is complete, the technician performs a quick run of the presentation with the speaker to check whether the presentation runs correctly and all parts of the presentation are copied. Desktop computers will be available at the speaker's secretariat for last minute changes and review of presentation.
- No more changes can be made inside the session rooms where the session takes place
- In each presentation room, a technical assistant starts each presentation at the right time using the computer connected to the central congress network. When the presentation is launched, the speaker has control and can navigate with a remote device.

3 Technical instructions

- During the congress, presentations will run on PowerPoint 2010 with a resolution of 1024 x 768 pixels.
- Your presentation should be prepared in PowerPoint 2003, 2007 or 2010.
- Preferred page setup is landscape orientation with high-contrast lettering and readable fonts (minimum font size = 24)
- Use high-contrast colours: light text on dark background or vice versa
- A maximum of 7 lines / slide and 5 words / line will improve the communication value of your slide.
- PowerPoint presentations on USB memory stick (preferred medium) disk or CD Rom must be delivered at the Speaker Preview Room at least two hours before the beginning of the session.

4 Suggestions to improve a PowerPoint presentation

- In general: the smaller your PowerPoint presentation (in size) the easier to handle it.
- Any movie/image file must be in the same folder of the Power Point presentation and must be copied in the folder before including in the presentation. (1) Alternatively use "Pack and go" or "Package to CD/DVD/USB" in PowerPoint. For ease of possible assistance, if there is a problem with your movies (not playing on standard ma-

chines because codecs under which the movie was recorded are unknown and uninstalled on standard machines) we recommend not to use the new feature in PowerPoint 2010 to EMBED the movies inside your presentation. We advise to LINK to the movie file.

- We suggest putting maximum one movie per slide.
- The following media are recommended to facilitate the presentation download at the Slide Centre: USB memory sticks (preferred medium), CD-ROMs and DVD. It is also possible to download the presentation from a personal laptop at the Slide Centre, provided that the speaker stops at the Slide Centre at least two hours before the beginning of the session.
- Only single projection is available in the congress rooms, as the Organizer does not foresee the double projection.
- Transitions
- Please do not use timer controlled transitions. Timer controlled transitions are transitions that will switch to the next slide after x seconds or minutes. This will interfere with our cue light system and confuse you during your talk.
- Pictures
- Do NOT save the picture as BMP or TIFF (size is too big).
- Images with .gif and .jpg extensions are recommended to obtain a light presentation (other kinds of extensions -recognizable by Power Point -will be accepted all the same).
- Save the pictures used in your presentation on your CD, DVD or USB-stick (In case of problems we can re-insert the original).
- Video
- Movies must not exceed 50 MB each (50 mb is not necessary the limit, we can handle larger movies without any problems but the video may not show up smoothly). Always bring your movies in DVD or other support, and inform the technicians at the Slide Centre the day before the presentation.
- MPG (MPEG), WMV or AVI are the only acceptable video formats.

Poster Guidelines

The poster exhibition will be an integral part of Virology Asia 2017.

The poster exhibition will be located on the exhibition area of the congress centre. The area will be clearly signposted from the registration area.

Technical Instructions:

- Posters must be prepared in Portrait style.
- Please DO NOT prepare a landscape poster
- The dimensions should be 100 cm high by 70 cm wide
- Posters should be attached to the boards with stickers, which you will be supplied to the organizers.
- Poster session schedule Posters will be displayed and presented in session.

Please plan to be at your poster and available to answer questions from delegates at the time of your assigned poster session. Posters will be displayed according to the POSTER numbers given by the organizers and will be grouped by sub topic.

For further information please contact: asiavirology@microbiologyconferences.org

Registration Information

How To Register

Website: http://virology.conferenceseries.com/asiapacific//registration.php

Registration Fees

- Early Registration Fee: $599.00
  (SAVE $100.00 — DEADLINE: February 27, 2017)
- Regular Registration Fee: $699.00
  (SAVE $100.00 — February 28, 2017 through April 15, 2017)
- Late Registration Fee: $799.00
  (April 16, 2017 through May 11, 2017)
- Group Discount: Register three or more attendees and receive
  $50.00 off per person
- Student Registration: 299$
- Young Researchers Forum Fee: 399$

Visa Information

Keeping in view of increased security measures, we would like to request all the participants to apply for Visa as soon as possible.

Conference Series/Conferenceseries Ltd will not directly contact embassies and consulates on behalf of visa applicants. All delegates or invitees should apply for Business Visa only.

Important note for failed visa applications: Visa issues cannot come under the consideration of cancellation policy of Conference Series /Conferenceseries Ltd, including the inability to obtain a visa.

Cancellation Policy

Cancellations must be received in writing 60 days prior to the meeting and are subject to a $100 processing fee. Refunds will not be granted after April 03, 2017, nor will they be given for no-shows. Please email cancellations to asiavirology@microbiologyconferences.org

Accommodations

Holiday Inn Singapore Atrium
317 Outram Road Singapore 169075

To make reservations and ensure that you will have a hotel room at the same location as the conference, please choose your package and register at http://virology.conferenceseries.com/asiapacific//registration.php

Stay Connected Before, During and After the Event!

About the Conference

After the splendid success of the ""8th World Congress on Virology" (10 Plenary Forums-1 Event)" held at San Antonio,USA during November 28-30, 2016 we proudly announce the "10th World Congress on Virology and Mycology" which will be held during May 11-12, 2017 at Singapore.

Virology deals with the research on viruses – submicroscopic, parasitic particles of genetic material contained in a protein coat and virus-like agents. It fixates on the following aspects of viruses: their structure, relegation and evolution, their ways to infect and exploit host cells for reproduction, their interaction with host organism physiology and immunity, the diseases they cause, the techniques to isolate and culture them, and their utilization in research and therapy. Virology is considered to be a subfield of microbiology or of medicine. Mycology is the branch of biology which is based on fungi, including their genetic and biochemical properties, their taxonomy and their utilization to humans as a source for tinder, medicine, aliment, and entheogens, as well as their perils, such as poisoning or infection.

Virology Asia 2017 revolves around the theme ""New technologies and therapeutic approaches in virology and mycology" which addresses and discuss on the recent advancements and technologies being used and developed for the research on viruses and fungi. Our virology and mycology conference is bringing experts from the field of virology and mycology for discussion of the latest advances and ideas and to stimulate interdisciplinary interactions. Conference like ours will help to speed up of the development of effective therapies for viral and fungal disorders" which is all about simplifying the complex phenomenon behind transcription & protein expression, the ability to get an overall picture of disease transcriptomes & how it provides a clear understanding of the underlying genome which is converted into the functional proteins, patient classification, diagnosis, and individualized treatment.

Why to attend?

Virological and Mycological research provides a profitable business opportunity to several pharmaceutical and microbiological companies as these technologies have wide application areas such as drug discovery and research followed by clinical diagnosis of various disorders. With the arrival of advanced technological platforms, it creates a need for effective Viral tools such as viral bioweapons and serological methods in order to analyse the various viral diseases. in order to manage and analyse huge amount of data released from these technologies. With this view, the scientific sessions for the conference have been designed which paves a way to gather visionaries through the research talks and presentations and put forward many thought provoking information and therapeutic techniques related to Virology and Mycology. Thus, it's a great opportunity to concrete your ideas and meet the experts from across the world.

Virology and Mycology-2017 mainly focusses on the universities, institutes, research centres and major societies along with companies which hold a big market in viral technologies. Target audience invloves students, faculties, researchers, scientists, dean, directors and CEO's of the companies.

We welcome all interested participants to join us for our conference on Virology Asia 2017 at the exquisite destination of Singapore.

Our Conference will provide a perfect platform addressing:

- Laudable talks by the top-notch of the global scientific community
- Sterling workshop sessions
- Remarkable Awards and Global Recognition to meritorious Researchers
- Global Networking with 50+ Countries
- Novel Techniques to Benefit Your Research
- Global Business and Networking Opportunities
- Exquisite Platform for showcasing your products and International Sponsorship

About Singapore

SINGAPORE, known as "the LION city," becomes a favourite destination because it is a global city and is a densely populated island with tropical flora,parks and gardens. Singapore is a global commerce,finance and transport hub.

Singapore is considered as an important center for higher education and harbours, healthcare,well reputed and prestigious colleges and Universities. Singapore conferences indeed play a vital role in promoting scientific information and ideas all over the world. It can be considered as a suitable medium for the relocation of valuable knowledge about research and novel advancements worldwide. The conferences taking part here would promote a variety of scientific ideas among contenders belonging to diverse areas of science and technology. They serve as a major center of attraction for reputed and highly affiliated global scientific leaders and provide an opportunity of conversing the various research highlights at an international podium.

Apart from this, Singapore has been set aside for parks and natural reserves. The network of natural reserves,parks,park connectors,natural ways,tree-lined roads and other natural areas have enhanced the sense of green space in the city which will keep you busy for weeks. Singapore has a tropical rainforest climate with no distinctive seasons,uniform temperature,pressure,high humidity and abundant rainfall. Sentosa,Singapore Flyer,Universal Studios Singapore,Night Safari Singapore,Singapore Botanic Gardens,Jurong Bird Park,Singapore Zoo, Sri Mariamman Temple,Pulau Hantu famous for its rich coral reefs and Peranakan Museum are some of the points of interest in Singapore. Singapore is the home of the football,basketball,cricket,swimming,sailing,table tennis,badminton and water sports such as sailing,water skiing and scuba diving. A splendid location, life expectancy, quality of life,personal safety and housing that is unsurpassed for its livability makes Singapore a city to visit and remember.

Venue Details:

Holiday Inn Singapore Atrium
317 Outram Road
Singapore 169075

Conference Dates: May 11-12, 2017
