Dear Attendees,

We take great pleasure in inviting you to the "3rd International conference on Astronomy, Astrophysics & Space Science" to be held in Rome, Italy on October 18-19, 2018 organized by Conference series LCC, USA. The conference is dedicated and aimed to bring together interested group of Scientists, Space Researchers, Engineers, Astronomers, Academia, Innovators, Students, Business Leaders to discuss, present and exchange ideas relating to The Universe, Astronomy, Cosmology, Astrophysics, Computational Astrophysics, High Energy Astrophysics, Dark Energy, Black Hole, Solar Astronomy, Radio Astronomy, Planetary Geology, Space Weather, Optical Astronomy, Exoplanet, Infrared Astronomy, Space Technology, Spacecraft System, Satellite Communication and Space Human Relation. The principal objective of Astronomy 2018 conference is to provide a prospect for the researchers, delegates to meet, interact and exchange new ideas in the various areas of Astronomy, Astrophysics, Space Science and other related fields.

In addition to the field of Astronomy, we acknowledge a similar growing interest among participants about Astrophysics and Space related science. This prestigious conference will provide a great platform for you to interact with the leading expert from all these fields.

We would be delighted to have your presence at this conference to interact with the leading experts, astronomers and researchers. We would also love to hear your thoughts and opinions about this conference.

We look forward to your confirmed presence in the Astronomy 2018 conference.

Sincerely Yours,
Astronomy 2018
Organizing committee

Our International Open Access Journals

- 700+ Leading-edge Peer Reviewed Open Access Journals
- 21 Day Rapid Review Process
- 50000+ Editorial Board Team, 35000+ Reviewers team
- 30 Million Readers and High Visibility
- 1000+ Scientific Associations Collaborations
- 100000+ facebook fans Likes
- Publication immediately after acceptance
- Quality and Quick editorial, review processing

Salient Features

- Easy to Submit and Review Systems
- High Quality and Fast Publishing Guaranteed
- Unbiased, quality-oriented, and transparent reviews
- Truly impartial recognition of the best papers
- Feedback on the impact of every article
- Enhanced feature: Audio version of published paper
- Digital articles to share and explore
- Sharing option: Social networking enabled
- Authors, reviewers and editors are provided with scientific credits
- User friendly/feasible website articles translations across more than 50 world languages

Our International Scientific Conferences

- More than 3000 Conferences happening across the globe
- Conferences organized in Medical, Pharma, Engineering, Science, Technology and Business.
- CME/CPD Accredited Conferences fostering professional and Personal development
- Continuum of education through organized scientific program
- Renowned speakers and scientists representing from 40 countries
- Highly Interactive sessions and Panel Discussions
- B2B Meetings offers perfect platform for Global Networking

Salient Features

- Robust on-line publicity for all the speakers and organizing committee members
- Career Guidance Workshops for students and early career researchers
- Accepted Abstracts will be published in various indexed journals
- Accepted abstracts will be labeled with a Digital Object Identification Number (DOI) provided by Cross Ref
- Creation of speakers and abstracts pages in Google
- Opportunity to publish full Manuscript in our Open Access Journals

Special Issues : All accepted abstracts will be
published in respective Conference Series LLC Journals
Each abstract will be provided with digital Object Identifier by Crossref

About Conference

Astronomy 2018 Conference website is attracting 25000+ Professors, Market Leaders, Experts, Students and Online visitors ranging from Researchers, Academicians and Business professionals, who are working in this field. This unique opportunity that we extend to our speakers and attendees is not being offered by any other conference organizers. Through this the abstracts and research profiles of our speakers and organizing committee members are getting global visibility which is an additional feature that you would be receiving in addition to networking opportunities before, during and after the conference.

Astronomy 2018 salient features

- Meet Academia and Expert to get motivated
- Enhance your knowledge and offer solutions to difficulties
- Knowledge and interaction offered under one roof
- Highly organized and systematized scientific programs
- Poster presentation and world class exhibition
- Be introduced to industry leader, innovators and professionals

How Conference Series Conferences differs from others?

- 3000+ Conferences across the globe in 30+ countries all throughout the year
- Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

Goals

- The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goals of the conference is to provide a transformative professional development experience through
- Bringing together the world's scientific experts to catalyze and advance scientific knowledge about Astronomy, Astrophysics and Space Science present the most recent research findings, and promote and enhance scientific collaborations around the world.
- Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address regional, national and local issues.

About Conference

Astronomy 2018

Advantages of Attending the Conference

- To meet Experts in the field of Astronomy, Astrophysics & Space Science
- To discuss and share knowledge with Scientist, Researchers, Professors, Engineers and Industry Leaders and Business Intelligences
- An opportunity to interact with world's renowned speakers of various fields
- To enhance your knowledge in the field of Astronomy, Astrophysics and Space Science
- All accepted abstracts will be published in the particular International Journal after conference as conference proceeding
- Each abstract will receive a digital object identification number(DOI).

Who should attend

3rd International Conference on Astronomy, Astrophysics & Space Science is exclusively planned for Scientists, Directors, HOD's of Astrophysics, Astronomy, Space Science departments, Professors, Professionals related to Physics, Astronomy, Astrophysics, Space Science, Aerospace, Mechanical Engineering, Electrical Engineering, Astronomers, Space Engineers, Postgraduate Students, CEO, President, Vice Presidents, Business Delegates, Market Leaders and Researchers doing research in the above topics & those who are interested to explore The Universe.

About hosting organization

Conference Series is the world's leading specialist in organizing Academic, Scientific & Business conferences, meetings, symposiums and exhibitions in different verticals and horizontals like Medical, Pharma, Engineering, Science, Technology and Business to promote scientific research. Every year we host more than 3000+ global events inclusive of 1000+ Conferences 1000+ Symposiums 1000+ Workshops in USA, Europe, Middle East and Asia with the generous support and cooperation from our 30000+ Editorial Board Members and 1000+ Scientific Societies. All the conference proceedings are published in the special issues of our 700+ Open Access International Journals with the DOI provided by Crossref

Major Sessions

- Cosmology
- Particle Astrophysics
- Computational Astrophysics
- Spectroscopy
- High Energy Astronomy
- Planetary Geology
- Space Human Interaction
- Satellite Communications
- Infrared Astronomy
- Exoplanet
- Astrodynamics
- Big Bang Theory
- Cosmological Neutrinos
- Astrometry
- Reusable Launch System
- Future of Earth
- Theoretical Astrophysics
- Raman Spectroscopy
- Solar Astronomy
- Radio Astronomy
- Black Hole & Dark Matter
- Space Weather
- Spacecraft System
- The Universe
- Astronomy
- Optical Astronomy
- Space Technology
- Deep Space Navigation
- Cosmic Inflation
- Plasma Modeling
- LIGO Large Hadron Collide
- Space Tourism

About Rome

Rome is the capital of Italy, also the country's largest and most populated comune and fourth-most populous city in the European Union. The Metropolitan City of Rome has a population of 4.3 million residents. The city is located in the central-western portion of the Italian Peninsula, within Lazio (Latium), along the shores of Tiber River. Vatican City is an independent country within the city boundaries of Rome, the only existing example of a country within a city, for this reason Rome has been often defined as capital of two states. It is referred to as "Roma Aeterna" (The Eternal City) and "Caput Mundi" (Capital of the World), two central nations in ancient Roman culture. One of the most important city, Rome, was founded in 753 B.C. by Romulus.

The Apennine Mountains form its "backbone" and stretch from north to south, with the Tiber River cutting through them in central Italy. Along the northern border, the Alps serve as a natural boundary. The three major bodies of water surrounding Italy are the Adriatic Sea, the Ionian Sea, and The Mediterranean Sea. Ancient Rome is characterized by the seven hills and the Tiber River, which flows from the Apennine Mountain to the Tyrrhenian Sea.

Rome is a sprawling, cosmopolitan city with nearly 3,000 years of globally influential art, architecture and culture on display. In 2005, the city received 19.5 million global visitors, up of 22.1% from 2001. Its historic center is listed by UNESCO as a World Heritage Site. Monuments and museums such as The Vatican Museum and The Colosseum are among the world's most visited tourist destinations with both locations receiving millions of tourists a year.

The weather is fantastic in Rome in October, when the average temperature starts off at around 20°C and gradually climbs up to 18°C-23°C as the month progresses.

Italy has a huge international network of public and state affiliated universities and schools offering degrees in higher education. State-run universities of Italy constitute the main percentage of tertiary education in Italy and are managed under the supervision of Italian's Ministry of Education. Italian universities are among the oldest universities in the world.
