Invitation…

Dear Colleagues,

Conference Series llc LTD extends its welcome to **12th Annual Meet on Bacteriology & Applied Microbiology** during **September 23-24, 2019** at **Tokyo, Japan** with a theme **"Advance Research in Bacteriology and Applied Microbiology"**. Conference Series llc LTD through its Open Access Initiative is committed to make genuine and reliable contributions to the scientific community.

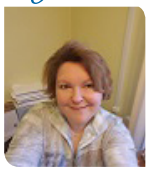

Conference Series llc LTD Organizes 1000+ Conferences Every Year across USA, Europe & Asia with support from 1000 more scientific societies and Publishes 700+ Open access journals which contains over 100000 eminent personalities, reputed scientists as editorial board members.

World Nursing Congress 2019 Conference will focus on educational research directed toward its impact on clinical outcomes, through oral and poster presentations, educational workshop sessions, and influential plenary presentations. Attendees will be provided with the tools to enhance nursing education programs to make education more effective in nursing practice.

Conference will focus on the following topics during presentations of the two day event, which reflect current education research, developments and innovations internationally and as evidenced in both Nurse Education and Evidence Based Practice.

- Teaching, Assessment and Learning in University and Clinical Practice
- Technology, Simulation and Education
- Continuing Professional Development
- Continuing Education
- Patient Safety
- Innovation, Academic Leadership and Evaluation Research
- Midwifery Education

Organizing Committee Members

Anna G Afinogenova

Award Ceremony	
Conference Concludes	

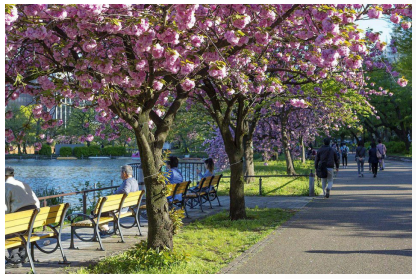

Tourist Attractions

Venue

Tokyo, the busy capital of Japan, blends the taste of both ultramodern and the traditional ethics picking the glaze from neon-lit skyscrapers to historic temples. Tokyo has also crowned the title as the world's most affluent city to live in due to its easiest ways of rail and subway networks. The cultural casting of Tokyo is famous for its numerous museums; theatres; festivals; internationally noted cuisines; and professional sports clubs, including baseball, football, along with traditional Japanese crave Sumo Wrestling. The focused attraction of Tokyo's Marunouchi district is the Imperial Palace known for its beautiful 17th-century parks guarded by walls and moats and which is still in use by the Imperial family. This Palace stands on the site where the Feudal Lord Ota Dokan built the first fortress ,in 1457 and is the primary residence for the Emperor of Japan and it is located at the focal point of Tokyo and built on the site of old Edo Castle. The palatial attraction Meiji Shinto Shrine of Shibuya district is known for its surrounding woods of about 120,000 trees representing species that are found across Japan, a special ward in Tokyo. The shrine's limelight includes its Inner Precinct (Naien) with its museum containing royal treasures, and the Outer Precinct (Gaien), home to the Meiji Memorial Picture Gallery with its splendid collection of murals relating to the lives of the emperor and empress.The Skytree of Tokyo is the highlighted tower for its broadcasting, incredible panoramic views from its restaurant and observation decks in Sumida, Tokyo, Japan. It became the tallest structure in Japan in the year 2010 and is about 2,080 ft by March 2011 that paved its way to achieve the title of tallest tower in the world, displacing the Canton Tower after the Burj Khalifa.

You'll fall in love with Tokyo, Japan
