9th International conference on

Bioinformatics

Paris, France

October 23-24, 2017

bioinformaticscongress@biochemconferences.org

Invitation

Dear Attendees,

Conference Series LLC welcomes you to attend the **9th International Conference on Bioinformatics**, which is going to be held in **Paris, France during October 23-24, 2017.**

We cordially invite all the participants who are interested in sharing their knowledge and research in the arena of Bioinformatics.

Bioinformatics Congress 2017 anticipates more than 200 participants around the globe with thought provoking Keynote lectures, Oral Presentations and Poster Presentations. The attending delegates include Editorial Board Members of related Supporting International Journals.

This is an excellent opportunity for the delegates from Universities and Institutes to interact with the world class Scientists.

The intending participants can confirm their participation by registering for the conference along with your colleagues. Avail the delegate early bird offer.

The main theme of the conference is "*Exploring the latest innovations in Bioinformatics*".

We look forward to personally welcoming you to Paris this October

Sincerely,

Bioinformatics 2017

Organizing Committee

About Us

Our International Open Access Journals

- **700+ Leading**-edge Peer Reviewed Open Access Journals
- **21 Day** Rapid Review Process
- **50000+** Editorial Board Team, **35000+** Reviewers team
- **30 Million Readers** and High Visibility
- **1000+ Scientific Associations** Collaborations
- **100000+** facebook fans Likes
- **Publication** immediately after acceptance
- **Quality and Quick** editorial, review processing

Salient Features

- **Easy to Submit** and Review Systems
- **High Quality** and Fast Publishing Guaranteed
- **Unbiased, quality-oriented,** and transparent reviews
- **Truly impartial recognition** of the best papers
- **Feedback** on the impact of every article
- **Enhanced feature:** Audio version of published paper
- **Digital articles** to share and explore
- **Sharing option:** Social networking enabled
- Authors, reviewers and editors are provided with **scientific credits**
- User friendly/feasible website articles **translations** across more than **50 world languages**

Our International Scientific Conferences

- More than **3000 Conferences** happening across the globe
- Conferences organized in **Medical, Pharma, Engineering, Science, Technology and Business.**
- **CME/CPD Accredited** Conferences fostering professional and Personal development
- **Continuum of education** through organized scientific program
- **Renowned speakers** and scientists representing from **40 countries**
- **Highly Interactive sessions** and Panel Discussions
- **B2B Meetings** offers perfect platform for Global Networking

Salient Features

- **Robust on-line publicity** for all the speakers and organizing committee members
- **Career Guidance** Workshops for students and early career researchers
- **Accepted Abstracts** will be published in various **indexed journals**
- **Accepted abstracts** will be labeled with a **Digital Object Identification Number** (DOI) provided by **Cross Ref**
- **Creation** of speakers and abstracts pages in Google
- **Opportunity** to publish full Manu Scripts in our Open Access Journals

Special Issues : All accepted abstracts will be published inrespective Conference Series LLC Journals

Each abstract will be provided with digital Object Identifier by Crossref

About Conference

Bioinformatics 2017 Conference The field of Bioinformatics is aiding in the development of medical science. Its advancement is making tremendous impacts on various diseases including cancer and Genetic diseases. Its importance and significance can be gauged by the fact that it has made huge advancements over the course of time and is continuing to influence various sectors.

How Conference Series Conferences differs from others?

- 3000+ Conferences across the globe in 30+ countries all through the year
- Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

Bioinformatics 2017 salient features

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Meet with new vendors and suppliers

About Conference

Purpose

- 9th International conference on Bioinformatics is an arena for interdisciplinary branch which collaborates with fields like Genetics,Biotechnology,Machine learning,Protein engineering etc.

Goals

- The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goals of the conference is to provide a transformative professional development experience through
- Bringing together the world's scientific experts to catalyze and advance scientific knowledge about Bioinformatics present the most recent research findings, and promote and enhance scientific collaborations around the world.
- Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address regional, national and local responses to Elderly Population around the world and overcome barriers that limit access to care and services.

Objectives

After participating in this meeting, attendees should be able to

- Discuss emerging issues in Bioinformatics
- Discuss and apply recent research findings related to Bioinformatics
- Reflect on the place of critical distance in Bioinformatics

About Conference

Who should attend

9th International conference on Bioinformatics is designed for Scientists,Post-doctoral researchers,Researchers,Professors ,Ph.d Students and who wants to explore the latest research,tools,databases and much more in bioinformatics.

About hosting organization

Conference Series is the world's leading specialist in organizing Academic, Scientific and Business conferences, meetings, symposiums and exhibitions in different verticals and horizontals like Medical, Pharma, Engineering, Science, Technology and Business to promote scientific research. Every year we host more than **3000+ global events** inclusive of **1000+ Conferences 1000+ Symposiums 1000+ Workshops** in **USA, Europe, Middle East and Asia** with the generous support and cooperation from our **30000+ Editorial Board Members, 1000+ Scientific Societies.** All the conference proceedings are published in the special issues of our **700+ Open Access International Journals** with the **DOI** provided by Crossref

Major sessions

- Bioinformatics And Computational Biology
- Systems Biology In Bioinformatics
- Emerging Trends In Proteomics
- Emerging Trends In Genomics
- Health Informatics In Bioinformatics
- Structural Bioinformatics
- Evolutionary Bioinformatics
- Biostatistics - An Approach To Bioinformatics
- Bioinformatics Algorithms & Databases
- Bioinformatics Tools And Software
- Immunology And Drug Discovery
- Perspectives Of Clinical Informatics
- Epigenetics
- Clinical Case Reports
- Machine learning

About Paris

Paris, otherwise called the City of Light, is the capital city of France and has a population of 12 million. The city is the economic, political and cultural centre of France. Earlier named Lutetia by Romans, who conquered the Celtic Parisii tribe in 51 BC, it got its name Paris in 212 AD. The Hundred Years' War marks the English control over Paris from 1420 to 1437. Paris witnessed a period of social and political upheaval in France, French Revolution, which lasted from 1789 to 1799 and is often marked as the greatest revolution in the history of mankind. Paris was the capital of the French Empire, ruled by Napoleon from 1804-1814. In 1814, Paris was conquered by the Russians, and was again captured by the Prussian army in 1871. In 1940, the German Nazis seized Paris and with World War II, the Allied released the city in 1944. Paris has much to offer it tourists. The Eiffel Tower is the most famous sight in Paris built by Gustave Eiffel in 1889 with 18,000 pieces of iron and 2.5 million rivets. The Louvre museum, the third biggest museum, is famous for its old works of art, such as the Mona Lisa and the Venus de Milo. The building was built as a house for French kings. The Moulin Rouge is a cabaret with many shows, and it opened in 1889. It is in Montmartre, where women put on a famous dance called the French cancan. The Notre Dame de Paris is a major Gothic cathedral located in "Île de la Cité". The Basilica of Sacré-Coeur is a major church in Paris devoted to the Sacred Heart. For centuries, Paris has attracted artists from around the world, who arrive in the city to educate themselves and to seek inspiration from its vast pool of artistic resources and galleries. Paris is also the department with the highest proportion of highly educated people. The University of Paris, founded in the 12th century, often called the Sorbonne after one of its original medieval colleges, is one of the oldest universities in history.
