The recent Stem Cell Congress in Chicago was, from the scientific standpoint, the highest quality and most useful of the three OMICS-sponsored conferences that I have attended. The presentations I heard were uniformly good.

I'd be pleased to see such meetings have a larger audience.

Simon Berkovich
The George Washington University,USA

I have received very positive feedback from Chen Shen who presented our work in Chicago and got in contact with many different people interested in our research.

Diana Anderson
University of Bradford, UK

I just want to say how much I enjoyed the meeting in Chicago. I always find the meetings extremely stimulating and very interactive. The quality of the presentations is very good and some of them are very thought-provoking.

In general, all your meetings I attend are of high quality, I hope to come to Philadelphia next year.

Zhenyi Huo
BestStem Biotech

It was a great opportunity to meet scientists, scholars and research workers in the cellular field in Chicago last week. And also I would particularly thank you for your effort to list Best Stem Biotech as one of the supporting partners for the 5th World Congress on Cell & Stem Cell Research.

I do hope we could work as partners for future events organized by Conference Series and also explore the possibility to organize the similar events in regenerative medicines in China some day. Probably, at the convenience of your executives/managers, I would like to pay a visit with them.

Christian Drapeau
Chief Scientific Officer, Stemtech International, Inc.

From what I have seen, the organization was very good. I am always impressed by the quality of presenters and the opportunity for contacts that can be made at the OMICS conferences.

Thank you for your support,
