19th World Congress on

Biomarkers, Cancer Therapy & Clinical Research

June 27-28, 2024

London, UK

Exploring the Possibilities in Shaping the Future of Biomarkers

INVITATION

Dear Attendees,

We are glad to announce the **"19th World Congress on Biomarkers, Cancer Therapy & Clinical Research"** to be held in **London, UK** on **June 27-28, 2024, 2023** organized in collaboration with generous support and cooperation from enthusiastic academicians and Editorial Board Members. **BIOMARKERS_2024** aims at sharing new ideas and technologies amongst the professionals, industrialists and students from research areas of Epidemiology & Public Health and it's Research. As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts.

19th World Congress on Biomarkers, Cancer Therapy & Clinical Research amid **June 27-28, 2024** at **London, UK.** This consolidates incite keynote presentations, Oral talks, Poster presentations and Exhibitions.

Sincerely,

BIOMARKERS_2024
Organizing Committee

ABOUT US

Our International Open Access Journals

- 700+ Leading-edge Peer Reviewed Open Access Journals
- 21 Day Rapid Review Process
- 50000+ Editorial Board Team, 35000+ Reviewers team
- 30 Million Readers and High Visibility
- 1000+ Scientific Associations Collaborations
- 100000+ Likes
- Publication immediately after acceptance
- Quality and Quick editorial, review processing

Salient Features

- Easy to Submit and Review Systems
- High Quality and Fast Publishing Guaranteed
- Unbiased, quality-oriented, and transparent reviews
- Truly impartial recognition of the best papers
- Feedback on the impact of every article
- Enhanced feature: Audio version of published paper
- Digital articles to share and explore
- Sharing option: Social networking enabled
- Authors, reviewers and editors are provided with scientific credits
- User friendly/feasible website articles translations across more than 50 world languages

Our International Scientific Conferences

- More than 3000 Conferences happening across the globe
- Conferences organized in Medical, Pharma, Engineering, Science, Technology and Business.
- CME/CPD Accredited Conferences fostering professional and Personal development
- Continuum of education through organized scientific program
- Renowned speakers and scientists representing from 40 countries
- Highly Interactive sessions and Panel Discussions
- B2B Meetings offers perfect platform for Global Networking

Salient Features

- Robust on-line publicity for all the speakers and organizing committee members
- Career Guidance Workshops for students and early career researchers
- Accepted Abstracts will be published in various indexed journals
- Accepted abstracts will be labeled with a Digital Object Identification Number (DOI) provided by Cross Ref
- Creation of speakers and abstracts pages in Google
- Opportunity to publish full Manu Scripts in our Open Access Journals

ABOUT CONFERENCES

BIOMARKERS_2024 Scientific Committee is honored to welcome you all to attend "**19th World Congress on Biomarkers, Cancer Therapy & Clinical Research"** which will be held during **June 27-28, 2024| London, UK**. **Biomarkers 2024 Congress** will raise the most dynamic and latest issues in the field of Biomarkers. The Congress will highlight the discussion around the theme **"Exploring the Possibilities in Shaping the Future of Biomarkers"** by bridging the gaps between the intellectuals from across the globe to enlighten their research and findings at BIOMARKERS_2024. The highlights of the conference BIOMARKERS_2024 The expeditious growth in the research & development in biosensors has revolutionized the efficacy and sensitivity of analytical devices across Healthcare, Food & Agriculture, and Defenses industries. However numerous difficulties remain for such devices and competing forms of the assay are still relevant, with some still outperforming and providing better value than biosensor-based technologies..

BIOMARKERS_2024 salient features

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Meet with new vendors and suppliers

How Conference Series Conferences differs from others?

- 3000+ Conferences across the globe in 150+ countries all through the year
- Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientist's representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

Goals

- The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goals of the conference is to provide a transformative professional development experience through.
- Bringing together the world's scientific experts to catalyze and advance scientific knowledge about International Conference on Biosensors, present the most recent research findings, and promote and enhance scientific collaborations around the world.
- Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address regional, national and local responses to Elderly Population around the world and overcome barriers that limit access to care and services

ABOUT CONFERENCES

Objectives

- After participating in this meeting, attendees should be able to
- Discuss emerging issues in Biosensors
- Discuss and apply recent research findings related to Biosensors.
- Reflect on the place of critical distance in Biosensors Research.

Who should attend?

Academicians including Professors, PhD. Scholars, Students carrying out Biosensors and field studies, General Internist Pharmaceutical companies Research Scholars Doctors & Physicians Directors / Managers Industrial Professionals Clinical Researchers Healthcare Professionals Professors and students from colleges and universities Business delegates and Intelligence experts Vice Presidents of Medical institutions and Hospitals

BIOMARKERS_2024 salient features

- Clinical Research & Biomarkers
- Entrepreneur Investments Meet
- Biomarkers in Diagnosis: Challenges and Approaches
- Biomarkers in Drug discovery and development
- Biomarkers for Cancer Diagnosis
- Discovery of new biomarkers/validation/ technologies
- Biomarkers of Cardiovascular disorders
- Biomarkers of Disorders of the Nervous System
- Biomarkers in Immune-Oncology
- Immunogenicity of Biosimilars
- Biomarkers for non-cancerous diseases
- Biomarkers in Disease Treatment
- Biomarkers & Next-Generation Sequencing

About hosting organization

Conference Series is the world's leading specialist in organizing Academic, Scientific and Business conferences, meetings, symposiums and exhibitions in different verticals and horizontals like Medical, Pharma, Engineering, Science, Technology and Business to promote scientific research. Every year we host more than 3000+ global events inclusive of 1000+ Conferences 1000+ Symposiums 1000+ Workshops in USA, Europe, Middle East and Asia with the generous support and cooperation from our 30000+ Editorial Board Members, 1000+ ScientificSocieties. All the conference proceedings are published in the special issues of our 700+ Open Access International Journals with the DOI provided by CROSSREF.

ABOUT LONDON

London (/ˈlʌndən/ ⓘ) is the capital and largest city of England and the United Kingdom, with a population of around 8.8 million.[1][note 1] It stands on the River Thames in south-east England at the head of a 50-mile (80 km) estuary down to the North Sea and has been a major settlement for nearly two millennia.[9] The City of London, its ancient core and financial centre, was founded by the Romans as Londinium and retains its medieval boundaries.[note 2][10] The City of Westminster, to the west of the City of London, has for centuries hosted the national government and parliament. Since the 19th century,[11] the name "London" also refers to the metropolis around this core, historically split among the counties of Middlesex, Essex, Surrey, Kent, and Hertfordshire,[12] which since 1965 has largely comprised Greater London,[13] which is governed by 33 local authorities and the Greater London Authority.[note 3][14]

As one of the world's major global cities,[15] London exerts a strong influence on its arts, entertainment, fashion, commerce and finance, education, health care, media, science and technology, tourism, transport, and communications.[16][17] Its GDP (€801.66 billion in 2017) makes it the largest urban economy in Europe,[18] and it is one of the major financial centres in the world. With Europe's largest concentration of higher education institutions,[19] it is home to some of the highest-ranked academic institutions in the world—Imperial College London in natural and applied sciences, the London School of Economics in social sciences, and the comprehensive University College London.[20][21] London is the most visited city in Europe and has the busiest city airport system in the world.[22] The London Underground is the oldest rapid transit system in the world.[23]

London's diverse cultures encompass over 300 languages.[24] The mid-2018 population of Greater London of about 9 million[25] made it Europe's third-most populous city,[26] accounting for 13.4% of the population of the United Kingdom[27] and over 16% of the population of England. The Greater London Built-up Area is the fourth-most populous in Europe, with about 9.8 million inhabitants at the 2011 census.[28] [29] The London metropolitan area is the third-most populous in Europe, with about 14 million inhabitants in 2016,[note 4][30][31] granting London the status of a megacity.

London has four World Heritage Sites: the Tower of London; Kew Gardens; the combined Palace of Westminster, Westminster Abbey, and St Margaret's Church; and also the historic settlement in Greenwich, where the Royal Observatory, Greenwich, defines the prime meridian (0° longitude) and Greenwich Mean Time.[32] Other landmarks include Buckingham Palace, the London Eye, Piccadilly Circus, St Paul's Cathedral, Tower Bridge, and Trafalgar Square. London has many museums, galleries, libraries, and cultural venues, including the British Museum, National Gallery, Natural History Museum, Tate Modern, British Library, and numerous West End theatres.[33] Important sporting events held in London include the FA Cup Final, the Wimbledon Tennis Championships, and the London Marathon. In 2012, London became the first city to host three Summer Olympic Games.[34]
