Bioscience Congress

Program Announcement

Accommodation

A large number of rooms have been reserved. Discounted room rates for Bioscience Congress participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by public transportation.

Exhibition and Sponsorship

An Exhibition will be held concurrently with the Conference. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the fields of Bioscience.

About China

China, an ancient, mysterious and beautiful land, is always appealing to adventurous foreign visitors. As the third largest country in the world occupying an area of 9,600,000 sq km, it spans 62 degrees of longitude and 49 degrees of latitude. A wide variety of terrain and climate shape its numerous natural attractions. Abundant in a variety of resources, plants, animals, and minerals, the land has nurtured countless generations of Chinese people.

One of China's greatest treasures is her long, rich history. As early as 1.7 million years ago, the earliest humans evolved on this land. The first dynasty, the Xia Dynasty, dates to about the 21st century BC. For 4,000 years, feudalism was the dominant economic and cultural model. Then, in 1911, the revolution led by Sun Yat-sen brought the monarchy to an end. On October 1st, 1949, PRC was founded, fully named the 'People's Republic of China'. Since then, this country has developed independently and vigorously. Most recently, reform and opening-up policy has energized life in this country.

China is proud of her many people, long history, resplendent culture and distinctive customs. Among her greatest gifts to the world are the 'four great inventions' (paper, gunpowder, printing and the compass).

Chinese arts and crafts, including painting, calligraphy, operas, embroidery and silk are distinctive and unique. Kung Fu, which have only recently begun to enjoy popularity in other parts of the world have been part of Chinese culture for centuries, and Chinese literature is testifies to the country's rich heritage. And, of course, there is Chinese food, which has been exported to every corner of the globe.

Venue

Beijing, China
August 10-12, 2017
