Future trends development and new intervention in biosensors technologies

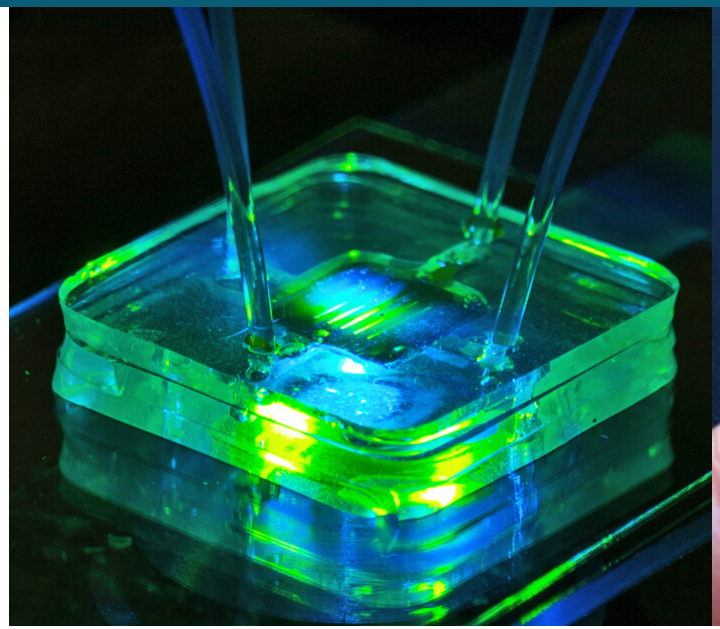

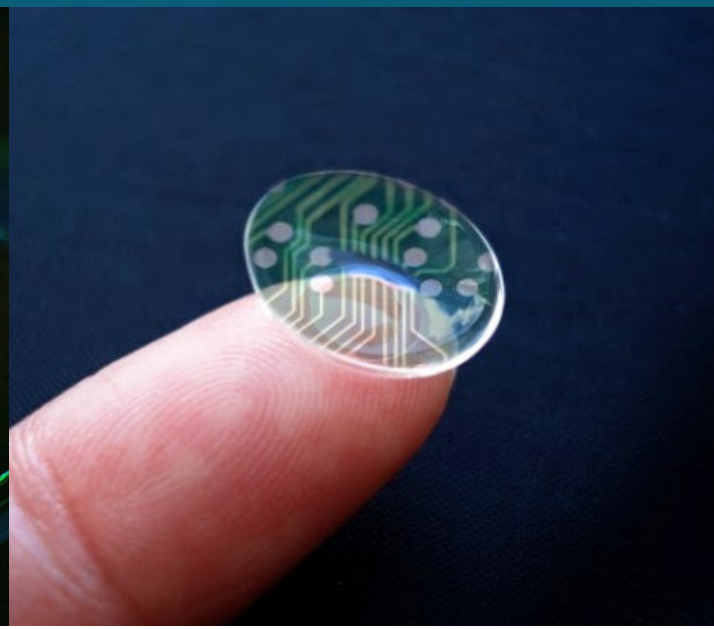

BIOSENSORS & BIOELECTRONICS 2020

SEPTEMBER 25-26
MONTREAL, CANADA

ABOUT CONFERENCE

Biosensors 2020 – The expeditious growth in the research & development in biosensors has revolutionized the efficacy and sensitivity of analytical devices across Healthcare, Food & Agriculture, and Defenses industries. However numerous difficulties remain for such devices and competing forms of the assay are still relevant, with some still outperforming and providing better value than biosensor-based technologies.

OUR GOALS

ACTIVITIES

Keynote Sessions
Plenary Sessions
Oral Sessions
Poster Presentation
Workshops
Exhinition & Networking

RESEARCH

The under ground breaking research and development will be present from the academia and key industrial leaders, providing the global platform on real-world issues within healthcare, and emerging market insights.
