About Chicago:

Chicago is the third most populous city in the United States, located in the center of the United States on the shores of Lake Michigan.

• It ranks 4th in financial services. There are about 15 Universities in and around Chicago which are working in the field of Brain disorders.

• Around 1000 clinical neurologist and neurosurgeons are working exclusively on brain disorders in Chicago.

• Mainly stroke, epilepsy, dementia, headache and head injury are the neurological conditions suffered in USA. It has been estimated that the lifetime risk of developing brain and other central nervous system cancer
is 1 in 133 for men and 1 in 185 for women in the USA.

• Each year 600,000 people (1% of the USA population) are newly diagnosed with a brain disorders condition. Primary brain tumors represent about 1.6% of all tumors diagnosed in the USA.

• The aggregate costs of all mental disorders in the United States are $ 32 billion.
