Invitation

Dear Colleagues,

Conference Series LLC Ltd. is delighted to welcome you to Shanghai, China for Brain Death 2020 conference.

The conference is based on the theme **"Glimpses of Novel Concepts on Cessation of Brain Functions"** which will provide a global networking platform for all the attendees.

This gathering is dedicated to neurologists, neurosurgeons and brain healthcare professionals, neuroscience researchers, academicians, students, scholars, delegates, practitioners, nurses from critical care unit, business personnel, pharmaceutical companies, organ donation & preservation companies and laboratories with the objective to provide an international platform for precious discussions on recent innovations, clinical trials, present and future challenges on brain death management along with one on one expertise meeting to build open opportunities for collaboration and strengthening professional network to continue in the future.

With a great support, the conference committee is featuring many exciting academic programs including paper presentations, poster presentations, panel discussions, workshops, group lunch, exhibition and scientific sessions by reputed experts from all over the world which will make a grand success for this conference.

We look forward to see you in Shanghai, China this October.

Sincerely,
Brain Death 2020
Organizing Committee

Brain Death 2020

Brain Death 2020 conference committee is going to give a warm welcome to all the attendees of different countries from all over the world to attend the conference which is being organized in the capital city of Shanghai, China during October 21-22, 2020. This meeting will be focused on modern conceptualization of brain death, its determination, prevention and brain death management.

The gathering of this event will aim to enlighten causes, prevention and complications of irreversible brain damage, which is commonly called Brain Death. The conference committee has created a successful collaboration among the neurologists, neurosurgeons, neuro-physicians, critical care specialists and field related experts from all over the world. This opportunity will provide a global platform to them for enlightening the subject matter towards the world. Brain Death 2020 is a specially designed conference which consists of keynote presentations, Oral talks, Poster presentations, Workshops, Panel Discussions and Exhibitions, Young Researcher Forums (YRF) and Best Poster Award.

Why to attend ?

The conference program emphasizes evidence-based practice, innovation, practical application and peer to peer networking and collaboration. The goals of the conference is to provide a transformative professional development experience through bringing together the world's scientific experts to catalyze scientific knowledge about Brain Death, present the most recent research findings and enhance scientific collaborations around the world.

Salient Features

- CPD certification
- Participation/ presentation certificates

Who are Attending ?

Target Audience:

- Heads, Deans and Professors & University Faculty
- Scientists and Researchers
- Neuroscience Associations and Organizations
- Laboratory members and Students working in this field
- Physicians in the field of Neurology
- Neurosurgeons
- Nurse Practitioners (specially from critical care unit)
- Business Intelligence Experts of Pharmaceutical Industries

Major Sessions

Brain Death

Brain Injury

Brain Death Causes

Brain Death Diagnosis

Brain Death and Disorders of Consciousness

Brain Tumor

Coma vs. Brain Death

Brain Stem Stroke

Mental Illness

Pediatrics Brain Diseases

Rehabilitation of Traumatic Brain Injury

Clinical Evaluation of Brain Death

Anoxic Brain Injury

Nursing and Intensive Care practices

Organ Donation and Complications

Miscellaneous Neurological Disorders

Supporting Journals

Journal of Neurology and Neuroscience

Journal of Neurology and neurophysiology

Journal of Neurological Disorders

Host City

Shanghai is one of the four municipalities of the People's Republic of China. It is located on the southern estuary of the Yangtze, and the Huangpu River flows through it. With a population of 24.2 million as of 2018, it is the most populous urban area in China and the second most populous city proper in the world. Shanghai is a global centre for finance, innovation, and transportation, and the Port of Shanghai is the world's busiest container port.

Originally a fishing village and market town, Shanghai grew in importance in the 19th century due to trade and its favourable port location. The city was one of five treaty ports forced open to foreign trade after the First Opium War. The Shanghai International Settlement and the French Concession were subsequently established. The city then flourished, becoming a primary commercial and financial hub of the Asia-Pacific region in the 1930s. During the Second Sino-Japanese War, the city was the site of the major Battle of Shanghai. After the war, with the CPC takeover of mainland China in 1949, trade was limited to other socialist countries, and the city's global influence declined.

Registrations

Chose your category of registration based on your profile and specialization.
Visit conference website for more details on discounts and offers.
