Gathering The Greatest Minds And Innovators Under One Roof

We Invite you to Join us!

Welcome to most exciting and fascinating Madrid, Spain! Within this splendid setting, we plan to deliver a conference that will exceed your expectations. During this year's 5th International Conference on Brain Disorders and Therapeutics, we hope that you will seize the opportunity to rekindle ongoing connections and spark new ones with your colleagues from around the globe.

The Conference theme is ***"Rethinking the Brain: Spread Your Intellectual Insight in Comprehending Brain Disorders"***

Our Conference Series LLC organizes 1000+ Conferences Every Year across USA, Europe & Asia with support from 1000 more scientific societies and Publishes 700+ Open access journals which contain over 100000 eminent personalities, reputed scientists and editorial board members.

Brain Disorders 2017 will offer ample opportunities for all stakeholders working on Brain disorders and neurological disorders to expose their research work. Our conference aims to gather the Researchers, principal investigators, experts, neurologists and researchers working on brain disorders from both academia and health care industry, Business Delegates, Scientists and students across the globe to provide an international forum for the dissemination of original research results, new ideas and practical development experiences.

In Brain Disorders 2017, international symposiums, B2B meetings and International workshops will also be organized to discuss the specific topics in the field of Brain research and Neurology.

This year's Conference program, coupled with the Business Opportunity Exchange, is an event you can't afford to miss!

Tourist Attractions

CLIMATE:

Madrid will surprise you with its intense, enveloping blue sky. November is a very popular time for Christmas shopping in Madrid, as visitors from across Europe begin their gift purchasing for the upcoming festive season. Madrid is one of those popular cities for shopping, and when you consider the huge number of malls and shopping streets, it's no wonder! Madrid experiences an average November temperature of around 12°C, with a high of a very pleasant 15°C, and a low of 5°C during the evening. With a dry climate and little rainfall, the city has hot summers and cold winters.

Because of its central location and high altitude, the climate of Madrid is characterized by warm dry summers and cool winters. No matter what time of the year you choose to come, you're very likely to see with your own eyes the deep blue sky Velázquez loved to paint.

CURRENCY:

The Euro is the official currency of Spain. There are several bureaux de change in central Madrid, especially in Puerta del Sol. Most banks and some hotels offer currency exchange services as well.

Madrid Public Transport Tickets & Travel Passes

Within Spain, Madrid is the hub of the country's outstanding bus and train network. Bus routes radiate into and out from the Spanish capital to all four corners of the country, and long-haul cross-border services fanning out across Europe. The Travel Pass is a wonderful way to save money when using Madrid's public transport systems, and is the perfect compliment to the Madrid Tourist Card.

Madrid public transportation is clean, fast, safe, extensive and efficient. It includes 13 metro lines, more than 170 bus lines (EMT), 3 tram lines and 10 lines of Cercanias (local trains that link the city centre with the suburbs). In addition, it is very cheap: a single ticket costs only 1.50 - 2 €, and if you buy a 10 trips ticket (valid both for buses and the metro, and can be shared by several people) it's €12,20.

With 301 stations, the Metro network is very easy to use. Each metro line has a color and a number, and the commuting doesn't take that long. It runs from 6:00 am to 1:30 am. EMT buses connect downtown with the neighborhoods. All this network's buses are blue. They run every day from 6:00 am to 23:30 am, every 5 to 15 minutes. The frequency may vary according to the time and the bus line.

The Cercanias railway is connected to the subway at Atocha, Chamartín, Nuevos Ministerios, Príncipe Pío, Delicias, Pirámides or Méndez Alvaro stations. Cercanías trains take you to popular Paseo de la Castellana and Nuevos Ministerios. It runs from 6.00 am to 11:00 pm, every 3 to 5 minutes, and trains are extremely punctual and efficient..

Venue

Madrid, Spain's central capital, is a city of elegant boulevards and expansive, manicured parks such as the Buen Retiro. It's renowned for its rich repositories of European art, including the Prado Museum's works by Goya, Velázquez and other Spanish masters. The heart of old Hapsburg Madrid is the portico-lined Plaza Mayor, and nearby is the baroque Royal Palace and Armory, displaying historic weaponry. Among its highlights are the medieval center dating back to the Habsburg Empire and the Prado Museum. Madrid is a city of great monuments. Spain's broad sweep of architectural history provides a glorious backdrop to city life, from medieval mansions and royal palaces to the unimagined angles of Spanish contemporary architecture, from the sober brickwork and slate spires of Madrid baroque to the extravagant confections of the belle époque. Few cities boast an artistic pedigree quite as pure as Madrid's: many art lovers return here again and again. The city has wholeheartedly embraced all the creativity and innovation of Spain's gastronomic revolution. In Madrid you will find all kind of interesting things to do and to see, whatever your interests are. The city has a wide offer for tourism, culture, business and for ludic activities with excellent facilities and services.

No city on earth is more alive than Madrid!!!
