Breast Pathology 2024

June 13-14, 2024 // Rome, Italy

21st International Conference on Breast Pathology and Cancer Diagnosis

Rome, Italy

June 13-14, 2024

Breast Pathology 2024

Invitation

Dear Attendees,

We are glad to announce the **21st International Conference on Breast Pathology and Cancer Diagnosis** to be held in **Rome, Italy** from **June 13-14, 2024** organized by **Conferenceseries LLC LTD** in collaboration with generous support and cooperation from enthusiastic academicians and editorial Board Members.

This conference is a unique international platform that's a confluence of all stake holders of the ecosystem – Industry, Academia, Researchers, Innovators, Regulators – coming together to present and discuss current topics in Breast Cancer, Cancer Genetics, Types of Breast Cancer, Cancer Research, Breast Cancer Screening, Breast Pathology Diagnosis, Cancer Genomics

Cancer Therapy, Breast Cancer Monitoring, Cancer Diagnosis, Breast Pathology Benign and Malignant Tumors, Breast Pathology Treatment

Treating HER2 Breast Cancer with Targeted Therapies, Breast Pathology Surgery, Breast Pathology and Pregnancy, Latest Advances in the Management of Breast Cancer, Innovative Therapeutic Approaches in Breast Cancer Therapy, Newest clinical trials and their potential impact on New Treatments, Breast Pathology and Prevention and will be available to discuss with you the latest issues and trends in ***Exploring the Spectrum: Advances in Breast Pathology.***

As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts.

Life is full of give and take. Make it count in your professional life. Attend the Breast Pathology Conference to network with your peers, exchange expertise and experiences, and arm yourself with the latest information to take your department to the next level.

We look forward to personally welcoming you to **Rome** this June.

Breast Pathology 2024
Organizing Committee

Market Analysis Report

The objective behind the Conference:

The main objective of holding Breast Pathology and Cancer Diagnosis 2019 conference is to share the latest research and developments of individuals in the sphere of cancer, which helps to develop new techniques for the treatment and can also discuss and plan to reduce the use of chemotherapy treatment by introducing special drugs that will continue to develop and directly attack special targeted breast cancer cells.

Survey Report:

Breast cancer is the second leading cancer in women worldwide, with nearly 1.7 million new cases diagnosed in 2012. Breast cancer is most common after menopause. American Cancer Society, for the year 2016 estimates that about 252,710 new cases of invasive breast cancer will be diagnosed in women, about 63,410 new cases of carcinoma in situ (CIS) will be diagnosed and about 40,601 women will die from breast cancer.

Trends in breast cancer incidence

Incidence rates vary from 19.3 per 100 000 women in Eastern Africa to 89.9 per 100 000 women in Western Europe and are high in developed regions of the world (more than 80 per 100 000) except Japan and low in most of the developing regions (less than 40 per 100 000). Although developed countries have high incidence rates, in the transition countries like Latin America, it is going to be increased in the future. The rates vary worldwide, with Europe being the highest. The rates are increasing in Latin America and Asian countries mainly due to the population aging and screening practices..

About Us

Our International Open Access Journals

- **700+ Leading**-edge Peer Reviewed Open Access Journals
- **21 Day** Rapid Review Process
- **50000+** Editorial Board Team, **35000+** Reviewers team
- **30 Million Readers** and High Visibility
- **1000+ Scientific Associations** Collaborations
- **100000+** facebook fans Likes
- **Publication** immediately after acceptance
- **Quality and Quick** editorial, review processing

Salient Features

- **Easy to Submit** and Review Systems
- **High Quality** and Fast Publishing Guaranteed
- **Unbiased, quality-oriented,** and transparent reviews
- **Truly impartial recognition** of the best papers
- **Feedback** on the impact of every article
- **Enhanced feature:** Audio version of published paper
- **Digital articles** to share and explore
- **Sharing option:** Social networking enabled
- Authors, reviewers and editors are provided with **scientific credits**
- User friendly/feasible website articles **translations** across more than **50 world languages**

Our International Scientific Conferences

- More than **3000 Conferences** happening across the globe
- Conferences organized in **Medical, Pharma, Engineering, Science, Technology and Business.**
- **CME/CPD Accredited** Conferences fostering professional and Personal development
- **Continuum of education** through organized scientific program
- **Renowned speakers** and scientists representing from **40 countries**
- **Highly Interactive sessions** and Panel Discussions
- **B2B Meetings** offers perfect platform for Global Networking

Salient Features

- **Robust on-line publicity** for all the speakers and organizing committee members
- **Career Guidance** Workshops for students and early career researchers
- **Accepted Abstracts** will be published in various **indexed journals**
- **Accepted abstracts** will be labeled with a **Digital Object Identification Number** (DOI) provided by **Cross Ref**
- **Creation** of speakers and abstracts pages in Google
- **Opportunity** to publish full Manu Scripts in our Open Access Journals

Special Issues : All accepted abstracts will be published inrespective Conference Series Journals

Each abstract will be provided with digital Object Identifier by Crossref

About Conference

Breast Pathology 2024 Conference website is attracting **25000+** Pathologist, Researchers, Gynaecologists, Oncologist, Radiation Oncologist, Palliative Medicine, Primary Care Providers, Plastic Surgeons, Surgeons, Women's Healthcare professors, epidemiologists, Breast cancer Nurses, Patients, Councillors & who all are the part of Breast Pathology, This unique opportunity that we extend to our speakers and attendees is not being offered by any other conference organizers. Through this the abstracts and research profiles of our speakers and organizing committee members getting global visibility which is an additional feature that you would be receiving in addition to networking opportunities before, during and after the conference.

How Conference Series Conferences differs from others?

- 3000+ Conferences across the globe in 30+ countries all through the year
- Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

Breast Pathology 2024 salient features

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Meet with new vendors and suppliers

About Conference

Purpose

21st International Conference on Breast Pathology and Cancer Diagnosis is an arena for interdisciplinary exchange among professionals in the fields of Breast Pathology Education and Training, Radiology, Breast Cancer Research, Breast Surgery and Breast Imaging.

Goals

- Knowledge Sharing and Education: The conference aims to facilitate the sharing of the latest research findings, advancements, and best practices in breast pathology. By bringing together experts and professionals from various disciplines, the conference provides a platform for attendees to broaden their knowledge, stay updated on emerging trends, and enhance their understanding of the spectrum of breast pathology.
- Collaboration and Networking: The conference seeks to foster collaboration and networking among pathologists, radiologists, surgeons, oncologists, and other healthcare professionals involved in breast pathology. Through interactive sessions, panel discussions, and networking opportunities, attendees can build relationships, exchange ideas, and form interdisciplinary collaborations, ultimately leading to improved patient care and outcomes.
- Translating Research into Clinical Practice: The conference aims to bridge the gap between research and clinical practice in breast pathology. By highlighting advances in molecular pathology, diagnostic techniques, treatment strategies, and emerging technologies, the conference provides a platform to discuss the practical implications of research findings. The goal is to facilitate the translation of scientific knowledge into actionable practices that can be implemented in routine clinical settings, benefiting patients with breast pathology worldwide..

Objectives

After participating in this meeting, attendees should be able to

- Foster knowledge exchange and dissemination of the latest advancements in breast pathology research and diagnostic techniques.
- Promote interdisciplinary collaboration among pathologists, radiologists, surgeons, and oncologists to enhance patient care and treatment outcomes.
- Provide a platform for networking and collaboration, facilitating the translation of research findings into clinical practice for improved breast pathology management.

About Conference

Who should attend

21st International Conference on Breast Pathology and Cancer Diagnosis is exclusively designed for Women's Healthcare professors, Researchers, nurses, Cancer center Managers, Vice Presidents or Directors, Brand Manufacturers or Marketers of screening instrumental Products, Professors, Directors or Co-directors, Medical Oncologists, Surgical Oncologists, Teachers seeking educational material, Radiation Oncologists, Surgeons, Gynaecologists Pathologists, Epidemiologists Breast cancer Nurses & Trainees in breast pathology, Medical staff & Medical Journalists, Researchers and Students from Academia in the study of Women's health filed, Pharmaceutical researchers, Clinical organizations Educational institutes, Other healthcare professionals interested in the latest advances and techniques in the field.

About hosting organization

Conference Series is the world's leading specialist in organizing Academic, Scientific and Business conferences, meetings, symposiums and exhibitions in different verticals and horizontals like Medical, Pharma, Engineering, Science, Technology and Business to promote scientific research. Every year we host more than **3000+ global events** inclusive of **1000+ Conferences 1000+ Symposiums 1000+ Workshops** in **USA, Europe, Middle East and Asia** with the generous support and cooperation from our **30000+ Editorial Board Members, 1000+ Scientific Societies.** All the conference proceedings are published in the special issues of our **700+ Open Access International Journals** with the **DOI** provided by

Major sessions

- Molecular Pathology: Unraveling Breast Cancer Subtypes
- Diagnostic Challenges: From Atypical Ductal Hyperplasia to Ductal Carcinoma In Situ
- Precision Medicine in Breast Pathology: Integrating Genomics and Targeted Therapies
- Immunohistochemistry and Biomarkers in Breast Pathology
- Breast Imaging: Innovations in Radiology and Pathology Correlation
- Pathology of Triple-Negative Breast Cancer: Clinical Implications and Therapeutic Strategies
- FMetastatic Breast Cancer: Pathological Insights and Treatment Approaches
- Pathological Assessment of Breast Core Biopsies: Pitfalls and Best Practices
- Inflammatory Breast Cancer: Pathogenesis, Diagnosis, and Therapeutic Advances
- Pathological Assessment of Breast Reconstruction: Challenges and Surgical Considerations
- Biomarkers and Predictive Factors in Breast Pathology: Translating Research into Clinical Practice
- Multidisciplinary Approach to Breast Pathology: Collaboration between Pathologists, Radiologists, Surgeons, and Oncologists

About Rome

Rome is the capital city of Italy. It is also the capital of the Lazio region, the centre of the Metropolitan City of Rome, and a special comune named Comune di Roma Capitale. With 2,860,009 residents in 1,285 km2 (496.1 sq mi), Rome is the country's most populated comune and the third most populous city in the European Union by population within city limits. The Metropolitan City of Rome, with a population of 4,355,725 residents, is the most populous metropolitan city in Italy. Its metropolitan area is the third-most populous within Italy. Rome is located in the central-western portion of the Italian Peninsula, within Lazio (Latium), along the shores of the Tiber. Vatican City (the smallest country in the world) is an independent country inside the city boundaries of Rome, the only existing example of a country within a city. Rome is often referred to as the City of Seven Hills due to its geographic location, and also as the "Eternal City". Rome is generally considered to be the "cradle of Western civilization and Christian culture", and the centre of the Catholic Church.

Rome's history spans 28 centuries. While Roman mythology dates the founding of Rome at around 753 BC, the site has been inhabited for much longer, making it a major human settlement for almost three millennia and one of the oldest continuously occupied cities in Europe. The city's early population originated from a mix of Latins, Etruscans, and Sabines. Eventually, the city successively became the capital of the Roman Kingdom, the Roman Republic and the Roman Empire, and is regarded by many as the first-ever Imperial city and metropolis. It was first called The Eternal City (Latin: Urbs Aeterna; Italian: La Città Eterna) by the Roman poet Tibullus in the 1st century BC, and the expression was also taken up by Ovid, Virgil, and Livy. Rome is also called "Caput Mundi" (Capital of the World). After the fall of the Empire in the west, which marked the beginning of the Middle Ages, Rome slowly fell under the political control of the Papacy, and in the 8th century, it became the capital of the Papal States, which lasted until 1870. Beginning with the Renaissance, almost all popes since Nicholas V (1447–1455) pursued a coherent architectural and urban programme over four hundred years, aimed at making the city the artistic and cultural centre of the world. In this way, Rome became first one of the major centres of the Renaissance, and then the birthplace of both the Baroque style and Neoclassicism. Famous artists, painters, sculptors, and architects made Rome the centre of their activity, creating masterpieces throughout the city. In 1871, Rome became the capital of the Kingdom of Italy, which, in 1946, became the Italian Republic.
