Dear Colleagues!!

On behalf of Conference Series LLC Ltd, we would like to take an immense pleasure and honor to welcome professional chemists, researchers, professors, scientific communities, delegates, students, business professionals and executives from all over the world to attend the **" 20th International Conference On CADD & Drug Delivery"**, from **Sept 24-25, 2018** at **Chicago, USA**.

Theme: Discovering & Seizing Opportunities in Drug Discovery and Delivery.

CADD & Drug Delivery 2018 explores different ways how chemists are modifying molecules structure so as to design innocuous and effective drugs. It is one of the most rapidly developing areas within chemistry, both globally and locally. This International conference on CADD & Drug Delivery focuses on the importance to understand drugs therapeutic, drug development and alternatives in the field of Research and Technology, thus how can we maximize the use of cell line models and also various other monitoring aspects in research and development.

The different spectroscopic techniques for drug design, synthesis and characterization of novel therapeutic agents including small molecules, peptide drugs and natural products will be discussed. Applications in novel methods of drug delivery systems and formulations for better bioavailability of biotech compounds are also welcomed.

It will also provide a platform as sponsorship and exhibitors to industrialists, business men from medical sectors, entrepreneurs a chance to espouse their product or organization which will be promoted by our conference.

Looking forward to see you in Chicago @ CADD & Drug Delivery 2018. Thank You!!!

With Best Regards

I am very pleased about this conference because the session designed was based upon both scientific and in general and mode where we can discuss and express our views about it, I love and appreciate this type of conferences.

HirendraNath Banerjee
Elizabeth City State University, USA

The conference was very interactive and quite interesting, as I have come from all the way from north Carolina to attend this conference, I have enjoyed every bit of learning new sciences in the field of oncology which is my research field. I am very grateful to the organiser especially Conference Series LLC Ltd for inviting me and giving me a chance to present my research work here.

Scott J. Tebbutt
Chief Scientific Officer, PROOF Centre of Excellence, Canada

I enjoyed the conference very much. Cutting-edge and wide range of disciplines, but with a small enough group size to be conducive to excellent discussions and networking.

Houkai Li
Professor, Shanghai University of Traditional Chinese Medicine, China

It is an exciting and wonderful experience during the 3-days meeting, which gives us the opportunity to get to know so many friends and inspire new ideas in our research. Also, the meeting organization is perfect and considerate. We very appreciate all the works you have done for us. I also hope to meet these friends and new friends in the next meeting.

Julian Menter

Why CHICAGO, USA?

Chicago is among the largest cities in the U.S. Famed for its bold architecture, the population of the city is 2,695,598 and rank 3rd largest city in US. Chicago had the third largest gross metropolitan product in the United States at US$571billion. With over 2.7 million residents, it is the most populous city in the state of Illinois and the Midwest.

However, America commanded the largest share of the chemical, biological, radiological market followed by Europe. And it's Chicago holds many labs dealing with chemical biology research work. Technological advancements in radiotherapy systems, increasing incidence and prevalence of cancer, rising geriatric population, the growing adoption of radiotherapy devices and procedures are the major factors driving market growth.
