Journal of Cancer Science and Therapy: Open Access
Journal of Clinical and Experimental Oncology
Journal of Radiology :Open Access

Host City

Athens is a worldwide city and one of the greatest financial focuses in south eastern Europe. It has a huge money related segment, and its port Piraeus is both the biggest traveller port in Europe, and the second biggest on the planet. The Municipality of Athens (additionally City of Athens), which really comprises a little managerial unit of the whole city, had a population of 664,046 (in 2011) within its official limits, and a land region of 38.96 km2 (15.04 sq mi). The urban territory of Athens (Greater Athens and Greater Piraeus) stretches out past its authoritative metropolitan city limits, with a population of 3,090,508 (in 2011) over a region of 412 km2 (159 sq mi). As per Eurostat in 2011, the utilitarian urban region (FUA) of Athens was the ninth most crowded FUA in the European Union (the sixth most crowded capital city of the EU), with a populace of 3.8 million individuals. Athens is additionally the southernmost capital on the European territory and the hottest significant city in Europe.

The city is a world focal point of archeological research. Alongside national establishments, for example, the Athens University and the Archeological Society, there are numerous archeological Museums including the National Archeological Museum, the Cycladic Museum, the Epigraphic Museum, the Byzantine and Christian Museum, Acropolis, Kerameikos, and the Kerameikos Archeological Museum.

Vision & Plan

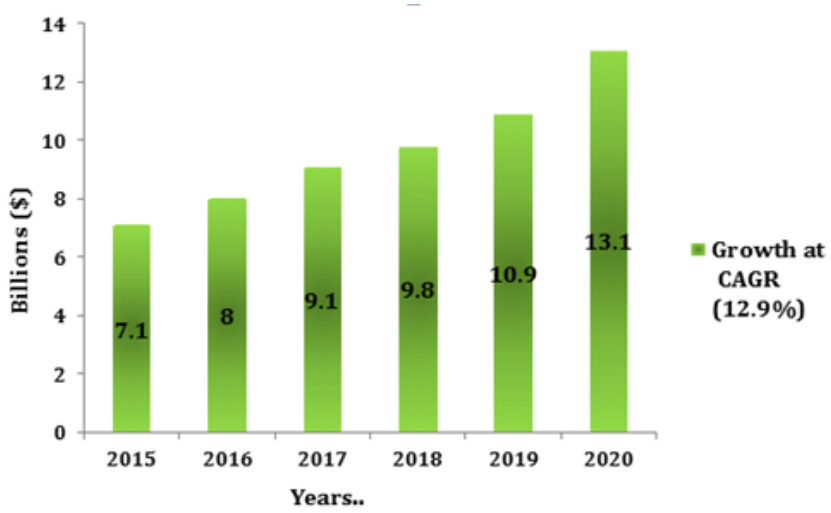

International Market Approach

The Global Cancer therapeutics Market was valued at $81,291 million in 2016 and is calculable to achieve at $178,863 million by 2023, registering a CAGR of 11.9% from 2017 to 2023. Cancer therapeutics involves the employment and administration of medical chemistry, chemotherapy and oncology medicine to treat cancer.

Increase in cancer prevalence, the surge together between pharmaceutical corporations, and also the rise in cancer analysis area unit the key factors that augment the expansion of the cancer medical specialty market.

By 2021 international cancer medical care market is calculable to achieve $52.2 billion with an increase in 17.6% CAGR and by 2016 it's reached $30.8 billion with CAGR of 15% within the international cancer therapy market..

Global Telemedicine Market Outlook 2020 The shortage of physicians in rural and remote areas provides opportunity for telemedicine to spread its reach to millions of patients and this widespread deployment of services will continue at a rapid pace in the future as well. In the latest research study, "Global Telemedicine Market Outlook 2020", the analysts have studied the complete telemedicine industry with focus on market segmentation, government initiatives and competitive landscape. According to our analysis, the market for telemedicine technologies, including hardware, software & services, stood at US$ 17.8 Billion in 2014, and is anticipated to grow at a CAGR of 18.4% during 2014-2020.Telemedicine applications are surging due to high prevalence of chronic diseases, rising smartphone users, consistent need for improved quality services and rising the elderly population across countries which thereby urge telemedicine to deliver improved products with the higher patient satisfaction. On the contrary, reimbursement challenges, uneven distribution of telecom network in remote areas, and high operating cost are the major factors hindering its implementation

Vision & Plan

The global radiology information systems market is expected to reach $722.1 million by 2019 from $501.1 million in 2014, at a CAGR of 7.6% from 2014 to 2019.

Oct 22, 2018 -- The Global Radiology Market was valued at USD XX million in 2016 and is expected to grow at a CAGR of 8.9% by 2025. The market is driven by the rising prevalence of chronic diseases, increasing demand for minimally invasive procedures; technological advancements are expected to drive the growth of this market.
