Glimpses of Nursing Series Conferences

About Chicago

Chicago is the third most populous city in the United States. Chicago was incorporated as a city in 1837, near a portage between the Great Lakes and the Mississippi River watershed, and experienced rapid growth in the mid-nineteenth century. Today, the city is an international hub for finance, commerce, industry, technology, telecommunications, and transportation, with O'Hare International Airport being the busiest airport in the world; it also has the largest number of U.S. highways and railroad freight. In 2012, Chicago was listed as an alpha global city by the Globalization and World Cities Research Network, and ranks seventh in the world in the 2014 Global Cities Index. Chicago is famous for its wonderful attractions. On the top of the list is the famous Adler Planetarium, Brookfield zoo, Chicago History Museum, Grant Park, 360 Chicago, Lincoln park zoo. There are a number of activities that one can do while visiting this nature park. One can go canoeing, kayaking, trekking, bird watching, and many more.If you are into shopping, then Chicago City will not fail to satiate that urge to spend. There are a number of outlets and stores located in open malls. Most of these malls are designed to recreate that tropical feel with its architectural designs and structure. If you are a bit tired from all that shopping, you can stop by at cafes and restaurants to get your fill and a boost for that needed energy.Traveling in and out of the city will not be a problem. O'Hare International Airport is quite near and can be easily accessed from Chicago City.
