WELCOME MESSAGE

21st International Conference on Clinical & Experimental Cardiology

FROM THE OFFICE OF MAYOR CAROLYN G. GOODMAN

Dear Friends:

As Mayor of the great City of Las Vegas, I am pleased to welcome you to America's most dynamic, entertaining, and intriguing city! You could not have chosen a better locale.

I am convinced that once you get a taste of what the city has to offer, you will never want to leave. Las Vegas continues to capture the world's imagination as the city where anything is possible. With world-class hotels, award-winning restaurants, luxurious spas, fantastic shopping, the finest golf courses, and spectacular entertainment, Las Vegas remains one of the most electrifying destinations in the world.

At its heart Las Vegas is all about making sure residents and visitors are well taken care of, treated courteously, and shown a great time. Beyond the neon of the fabulous Strip and the Fremont Street Experience, there is another Las Vegas--one in which we are building a world-class city featuring the best in arts, culture, sporting opportunities, and quality medical care. The new Smith Center for the Performing Arts has set a high standard for art and culture in our city, and I encourage everyone to take in a concert or Broadway show at this magnificent venue. Regardless of your age, a must-visit spot is the children's interactive Discovery Museum adjacent to the Smith Center. Buzzing with excitement and a great vibe is the Fremont East Entertainment District, a place with an energy and enthusiasm through its taverns, restaurants, and music venues.

The city also offers beautiful weather and outdoor activities, from top class golfing to opportunities for world-class hiking and rock climbing at the Red Rock Canyon National Conservation Area, to skiing at Mount Charleston, and a visit to the awe-inspiring Hoover Dam at the Lake Mead National Recreation Area. If history is more your speed, you are in luck because The National Museum of Organized Crime and Law Enforcement and the Neon Boneyard Museum are two of the most interesting and unique experiences in the country.

I want to thank you for choosing Las Vegas for your conference and look forward to seeing you around town. Please accept my heartfelt gratitude for your ongoing service in the medical field. As the proud daughter of a physician and proud mother of a medical doctor, I hold a special affinity for those of you who work in this most important area.

I know you will have a fabulous time enjoying our great city and everything it has to offer. Now what are you waiting for? The party has already started! Welcome.

Sincerely,

Carolyn G. Goodman

Carolyn G. Goodman
Mayor, City of Las Vegas

21st International Conference on

Clinical & Experimental Cardiology

November 06-07, 2017 | Las Vegas, USA

Day 1 November 06, 2017

09:00-09:30 **Registrations**

09:30-10:00 **Opening Ceremony**

Keynote Forum

10:00-10:40 **Title:** Non-invasive quick diagnosis of cardiovascular diseases from eyebrows & upper lip, and new method of detecting various cancers from recorded ECGs

Yoshiaki Omura, New York Medical College, USA

10:40-11:20 **Title:** Role of Nicotine in cardiac arrhythmias leading to Sudden Infant Death Syndrome

Robert Dumaine, Université de Sherbrooke, Canada

Coffee Break 11:20-11:40

Special Session

11:40-12:40 **Title:** Long Term Effects and the Congenital Gap

Jay Risk, Tetralogy of Fallot Foundation, USA

Sessions: Clinical Cardiology| Interventional Cardiology |Cancer and Heart| Cardiovascular Disease

Session Introduction

Session Chair: To be updated

Session Co-chair: To be updated

12:40-13:10 **Title:** Translational and clinical applications of pharmacogenomics in cardiovascular medicine

Joseph Kitzmiller, The Ohio State University Medical Center, USA

Lunch Break 13:10-14:10

14:10-14:40 **Title:** Emerging role of non-cardiac sodium channels in arrhythmias

Robert Dumaine , Université de Sherbrooke, Canada

14:40-15:10 **Title:** The attempts to diagnose and treat children with asymptomatic arrhythmias in Japan

Satoru Takeno, Kindai University, Japan

15:10-15:40 **Title:** ICD Lead Migration Case Report : A Lesson to Learn

Ahmed A M Abbas, Blackpool Teaching Hospital, UK

15:40-16:10 **Title:** Atria Fibrillation (AF) detection from photoplethymography (PPG) based on pattern analysis

Dennis Boateng, University of Hasselt, Belgium

16:10-16:40 **Title:** Magnetic Resonance Imaging in evaluation of Heart Failure: A prospective Study of 500 consecutive patients

P.Manokar, Sri Ramachandra University, India

Coffee Break 16:40-17:00

17:00-17:30 **Title:** Case Report: Case of Coronary Revascularization in a Patient with Situs Inversus Totalis in a Brazilian Hospital

Ricardo Choma, Hospital São José, Brazil

17:30-18:00 **Title:** Factors Associated with Hypertension Control by Sex: A Systematic Review

Ji-Eun Park, Korea Institute of Oriental Medicine, South Korea

18:00- 18:30 **Title:** Minimal radiation exposure transcatheter patent ductus arteriosus closure using only venous access- A novel technique

Nurul Islam, Calcutta National Medical College, India

Panel Discussions

Day 2 November 15, 2016

Keynote Forum

10:00-10:40 **Title:** Cardiac Applications of Gene and Stem Cell Therapy, Update: 25 years and Counting

Richard A Schatz, Scripps Clinic, USA

Coffee Break 10:40-11:20

Sessions: Heart Failure| Diabetic Cardiovascular Disease |Cardiac Surgery | Current Research in Cardiology

Session Introduction

Session Chair: To be updated

Session Co-Chair: To be updated	
11:20-11:50	**Title:** Rating of the limitation of damage to the left ventricle through the use of hypothermia of heart after reperfusion in STEMI - animal model **Tomasz Kameczura**, Rzeszów Uniwersity, Poland
11:50-12:20	**Title:** Long-Term survival in an Un-operated Single Ventricle **Gobinda Kanti Paul**, Mymensingh Medical College & Hospital, Bangladesh
12:20:12:50	**Title:** Development and Implementation of High-Fidelity Cardiac Surgical Simulation as a Training Tool for the Next Generation of Cardiac Surgeons: Description of a New Paradigmextracts by HerboChip: a platform for drug screening on a chip **Paul S. Ramphal**, University of the West Indies – Nassau Campus, Bahamas
12:50-13:20	**Title:** Tricuspid Valve Repair with Dacron Band Versus DeVaga or Segmental Annuloplasty. Hospital Outcome and Short Term Results **Ahmed Abdelgawad**, National Heart Institute, Egypt
	Lunch Break 13:20-14:30
	YRF
14:30-15:00	**Title:** A comparison of the haemodynamic performance of five different prosthetic aortic valves implanted at a single Cardiothoracic Centre in the UK **Ahmed Abdel Maksoud**, Weston General Hospital, Weston Super Mare UK
15:00-15:30	**Title:** Investigating the involvement of glycogen synthase kinase-3β and gap junction signaling in TRPV1 and remote hind preconditioning-induced cardioprotection **Puneet Kaur Randhawa**, Punjabi University, India
15:30-16:00	**Title:** Heat shock protein 60 induced atherosclerotic plaque inflammation inhibition by annexin A5 **Mizanur Rahman**, Karolinska Institute, Sweden
16:00-16:30	**Title:** Clinical Factors Impacting Access Site in Patients Presenting with ST Elevation Myocardial Infarction **Howard Lan**, Loma Linda University Medical Center, USA
	Video Presentations
16:30-16:50	**Title:** New mechanism of acute kidney injury. Pathological role of arteriovenous anastomoses **Vladimir Ermoshkin**, Russian New University, Russia
16:50-17:10	**Title:** The risk of antidepressants drugs in patients with prolonged congenital QT syndrome **Manuela Stoicescu**, University of Oradea, Romania
	Coffee Break 17:10-17:30
	Poster Session **17:30-18:00**
CEP1	**Title:** An obesity paradox based on the autopsy findings that show an inverse correlation between the body mass index and atherosclerosis of the aorta **Sergey Brodsky**, The Ohio State University Wexner Medical Center, USA
CEP2	**Title:** LV Non-Compaction at the age of 85 years: A Case Report **Gobinda Kanti Paul**, Mymensingh Medical College & Hospital, Bangladesh
CEP3	**Title:** A Child with Facial Dysmorphism with Stunted growth having Precordial Systolic Murmur **Gobinda Kanti Paul**, Mymensingh Medical College & Hospital, Bangladesh
CEP4	**Title:** Simultaneous Monitoring of Multiple Human CVD Protein Biomarkers in Circulation by Quantitative Multiplex Immunoassay **Adam Venable**, USA
CEP5	**Title:** Routine use of handheld ultrasound lead to early diagnosis and treatment of life threatening cardiac condition: A case report of early diagnosis and treatment of cardiac tamponade **Howard Lan**, Loma Linda University Medical Center, USA
CEP6	**Title:** Acupuncture for Prehypertension and Stage 1 Hypertension in Postmenopausal Women: A Randomized Controlled Pilot Trial **Ji-Eun Park**, Korea Institute of Oriental Medicine, South Korea

Conference Highlights:

- Clinical Cardiology
- Interventional Cardiology
- Pediatric Cardiology
- Cardiac Imaging
- Cardiovascular Disease
- Heart Failure
- Diabetic Cardiovascular Disease
- Women and Cardiac
- Arrhythmia
- Critical Cardiac Care
- Cardiac Surgery
- Cancer and Heart
- Atherosclerosis
- Obesity and Heart
- Cardiac Medications
- Cardiac Care Nursing
- Current Research in Cardiology
- Cardiologists Training and Education
- Advances in Cardiologists Education

Best Poster Awards

- You will be given about 5-7 minutes to present your poster including questions and answers. Judges may pose questions during the evaluation of the poster
- Judges will even evaluate the student's enthusiasm towards their study, interest and knowledge in the area of their research
- The winners will be announced at the closing ceremony of the conference. The decision of the winner will be withdrawn if the winner/winners is/are not present at the time of announcement
- Apart from the judging time you may also be present at the poster to share your research with interested delegates

Young Researchers Forum

- Present your research through oral presentations
- Learn about career development and the latest research tools and technologies in your field
- This forum will give pertinent and timely information to those who conduct research and those who use and benefit from research
- Develop a foundation for collaboration among young researchers
- The forum will provide an opportunity for collegial interaction with other young investigators and established senior investigators across the globe
- Interact and share ideas with both peers and mentors

Why to Attend?

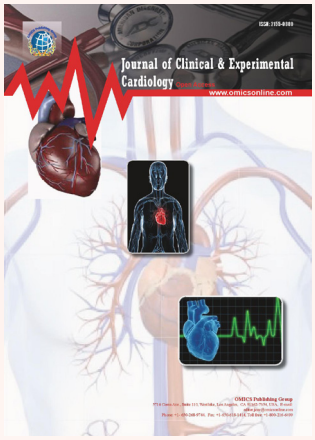

21st International Conference on Clinical & Experimental Cardiology is among the World's leading Scientific Conference. The three day event on Cardiology practices will host 60+ Scientific and technical sessions and sub-sessions on cutting edge research and latest research innovations in the field of cardiology and cardiac surgeries across the globe. This year Cardiology conference will comprises of 18 major sessions designed to offer comprehensive sessions that address current issues in various field of Cardiology. The attendees can find:

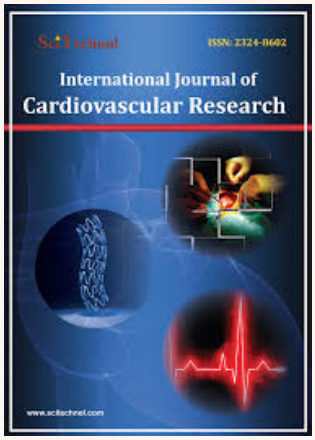

- Exclusive Sessions and Panel discussions on latest innovations in Cardiac Surgeries and Heart Failure.
- There is also a centre of attraction of this conference will be that how these Cardiologic surgeries having their side effect on the other cells of the body.
- Poster presentation on all the highlighted topics of the conferences by the young researchers.
- Keynote forums by Prominent Professors, Doctors
- Open Innovation Challenges
- Global Networking sessions with 50+ Countries
- Discussion on the new techniques and medicines in the field of cardiovascular disease and related surgeries.
- Best platform for Global business and Networking opportunities
- Meeting of the editors of referred journals, Society and Association members across the Globe
- Excellent platform to showcase and share the latest products and formulation ideas in Cardiac field.

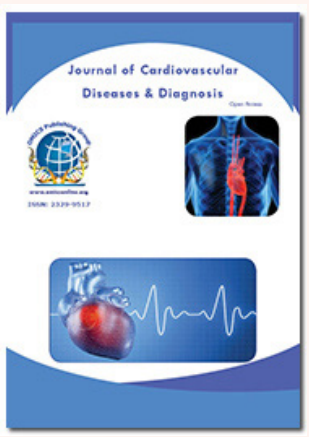

Target Audience

- Practicing Cardiologists
- Cardiologists in training
- Cardiac Surgeons
- Interventional cardiologists
- Advanced Practice Nurses
- Physicians interested in the latest advances and techniques in the field of Cardiology

About Las Vegas

The City of Las Vegas often known simply as Vegas, it is the 29th-most populated city in the United States, the most populated city in the state of Nevada, and the county seat of Clark County. The city anchors the Las Vegas Valley metropolitan area and also the largest city within the greater Mojave Desert. Las Vegas is an internationally renowned major resort city known primarily for its shopping, gambling, fine dining, entertainment, and nightlife. It is the leading financial, commercial, and cultural center for Nevada. The city bills itself as The Entertainment Capital of the World, and is famous for its mega casino-hotels and associated activities. It is a top three destination in the United States for business meetings and a global leader in the hospitality industry.

The main center of gambling and entertainment industry is located right here on the Las Vegas Strip, besides this city limits itself in surroundings with the communities of Paradise and Winchester in Clark County. There are many largest and most notable casinos and buildings situated in this city. In past recent years many new attractions have begun to emerge with already existing attraction like casinos and hotels in Las Vegas.
