WELCOME MESSAGE

21st International Conference on Clinical & Experimental Cardiology

FROM THE OFFICE OF MAYOR CAROLYN G. GOODMAN

Dear Friends:

As Mayor of the great City of Las Vegas, I am pleased to welcome you to America's most dynamic, entertaining, and intriguing city! You could not have chosen a better locale.

I am convinced that once you get a taste of what the city has to offer, you will never want to leave. Las Vegas continues to capture the world's imagination as the city where anything is possible. With world-class hotels, award-winning restaurants, luxurious spas, fantastic shopping, the finest golf courses, and spectacular entertainment, Las Vegas remains one of the most electrifying destinations in the world.

At its heart Las Vegas is all about making sure residents and visitors are well taken care of, treated courteously, and shown a great time. Beyond the neon of the fabulous Strip and the Fremont Street Experience, there is another Las Vegas--one in which we are building a world-class city featuring the best in arts, culture, sporting opportunities, and quality medical care. The new Smith Center for the Performing Arts has set a high standard for art and culture in our city, and I encourage everyone to take in a concert or Broadway show at this magnificent venue. Regardless of your age, a must-visit spot is the children's interactive Discovery Museum adjacent to the Smith Center. Buzzing with excitement and a great vibe is the Fremont East Entertainment District, a place with an energy and enthusiasm through its taverns, restaurants, and music venues.

The city also offers beautiful weather and outdoor activities, from top class golfing to opportunities for world-class hiking and rock climbing at the Red Rock Canyon National Conservation Area, to skiing at Mount Charleston, and a visit to the awe-inspiring Hoover Dam at the Lake Mead National Recreation Area. If history is more your speed, you are in luck because The National Museum of Organized Crime and Law Enforcement and the Neon Boneyard Museum are two of the most interesting and unique experiences in the country.

I want to thank you for choosing Las Vegas for your conference and look forward to seeing you around town. Please accept my heartfelt gratitude for your ongoing service in the medical field. As the proud daughter of a physician and proud mother of a medical doctor, I hold a special affinity for those of you who work in this most important area.

I know you will have a fabulous time enjoying our great city and everything it has to offer. Now what are you waiting for? The party has already started! Welcome.

Sincerely,

Carolyn G. Goodman

Carolyn G. Goodman
Mayor, City of Las Vegas

21st International Conference on

Clinical & Experimental Cardiology

November 06-07, 2017 | Las Vegas, USA

Day 1	November 06, 2017	Monday
Registrations
Opening Ceremony
Keynote Forum
Introduction
Title: Non-invasive quick diagnosis of cardiovascular diseases from eyebrows & upper lip, and new method of detecting various cancers from recorded ECGs
Yoshiaki Omura, New York Medical College, USA
Group Photo
Sessions: Clinical Cardiology | Interventional Cardiology | Cancer and Heart | Cardiovascular Disease
Session Introduction
Session Chair: To be updated soon
Session Co-Chair: To be updated soon
Title: Translational and clinical applications of pharmacogenomics in cardiovascular medicine
Joseph Kitzmiller, The Ohio State University Medical Center, USA
Network & Refreshment Break
Title: Acute limb ischemia due to retention of collagen plug
Reema A. Sheth, Institution: McLaren Greater Lansing Hospital, USA
Title: Emerging role of non-cardiac sodium channels in arrhythmias
Robert Dumaine , Université de Sherbrooke, Canada
Title: An obesity paradox based on the autopsy findings that show an inverse correlation between the body mass index and atherosclerosis of the aorta
Sergey Brodsky, Ohio State University Wexner Medical Center, USA
Title: The risk of antidepressants drugs in patients with prolonged congenital QT syndrome
Manuela Stoicescu, University of Oradea, Romania
Title: The attempts to diagnose and treat children with asymptomatic arrhythmias in Japan
Satoru Takeno, Kindai University, Japan
Lunch Break
Title: Lack of correlation between fluid removal and changes in serum natriuretic peptide levels in patients with acute heart failure treated with ultrafiltration
Abhilash Koratala, University of Florida, Gainesville, USA
Title: ICD Lead Migration Case Report : A Lesson to Learn
Ahmed A M Abbas, Blackpool Teaching Hospital, UK
Title: Stent clarity using enhanced visulisation systems (Clearstent) may be Influenced by stent length and type of coronary vessel
Maytham Omran, Frimley Park Hospital NHS Foundation Trust, UK
Title: Linking obstructive sleep apnea with sudden cardiac death
Tatiana O. Brodovskaia, Ural State Medical Academy, Russia
Title: Reduction of post-tavi legnth-of-stay duration: A Franco-Italian experience
Annamaria Dachille, University of Bari, Italy
Network & Refreshment Break

Title: Clinical Factors Impacting Access Site in Patients Presenting with ST Elevation Myocardial Infarction

Howard Lan, Loma Linda University Medical Center, USA

Title: Case Report: Case of Coronary Revascularization in a Patient with Situs Inversus Totalis in a Brazilian Hospital

Ricardo Choma, Hospital São José, Brazil

Title: Are oral diseases connected to sytemic diseases ??

Sania, Indian Dental Association, India

Title: Tricuspid Valve Repair with Dacron Band Versus DeVaga or Segmental Annuloplasty. Hospital Outcome and Short Term Results

Ahmed Abdelgawad, National Heart Institute, Egypt

Title: Living at high altitude area, promotes deep venous thrombosis

Tarek Elgamal, National Heart Institute, Egypt

Title: Thrombolysis in prosthetic heart valve obstruction versus emergency surgery: Immediate and short term follow up

Mohamed Ahmed Nassr, National Heart Institute, Egypt

Panel Discussions

Day 2 | November 07, 2017 | Tuesday

Keynote Forum

Title: Bicuspid Aortopathy: What is the latest medical and surgical approach?

Subodh Verma, St. Michael's Hospital, Canada

Sessions: Heart Failure | Diabetic Cardiovascular Disease | Cardiac Surgery | Current Research in Cardiology

Session Introduction

Session Chair: To be updated soon

Session Co-Chair: To be updated soon

Title: Correlation of natriuretic peptide to inferior vena cava compressibility and caval index in patients with dyspnea

Harjot Singh, West Suburban Medical Center, USA

Title: Sonographer pain and on the job injury. It's a worldwide epidemic. what do we do about it? Let's start with correction of sonographer back pain

Doug Wuebben, Avera Sacred Heart Hospital , USA

Title: Rating of the limitation of damage to the left ventricle through the use of hypothermia of heart after reperfusion in STEMI - animal model

Tomasz Kameczura, Jagiellonian University, Poland

Title: Indication of vascular endothelial growth factor binding components from herbal extracts by

Weihui Hu, HKUST, Hong Kong

Title: Level of understanding and adherence to medications amongst heart failure patients - A review study at general hospital setting

Syed Raza, Awali Hospital, Bahrain

Title: Long-Term survival in an Un-operated Single Ventricle

Gobinda Kanti Paul, Mymensingh Medical College & Hospital, Bangladesh

Lunch Break

Title: Minimal radiation exposure transcatheter patent ductus arteriosus closure using only venous access- A novel technique
Nurul Islam, Calcutta National Medical College, India
Title: Scoring balloon versus drug eluting balloon in coronary intervention for very small coronary vessel less than 2.25mm diameter
Yasser G. Metwally, National Heart Institute, Egypt
Title: Role of fragmented QRS complex in the prediction of the extent of myocardial damage following acute coronary syndrome (ACS)
Ahmad Salah Younis, Cairo University, Egypt
Title: Provocation of left ventricular outflow tract obstruction using nitrate inhalation in hypertrophic cardiomyopathy: Relation to electromechanical delay
Tamer Alashkar, National Heart Institute, Giza
Title: Developing a Guideline Driven Provider-to-Provider Handoff Tool for Heart Failure Patients
Nicole Dellise, Belmont University, USA
Network & Refreshment Break
Title: Knowledge, attitude and practice of life style modification in the management of hypertension
Md Zahid Hasan Khan, Nothern University, Bangladesh
Title: Cardiac benefits of black seed extract: Its main compound thymoquinone inhibits ouabain-induced arrhythmia in isolated rat atria
Azam Bakhtiarian, Tehran University of Medical Sciences, Iran
Title: Level of Understanding and Adherence to Medications amongst Heart Failure Patients - A Review Study at General Hospital Setting
Syed Raza, Awali Hospital, Bahrain
Title: Proper method for preoperative chest prepration of patients listed for cardiac surgery
Al Masri H, Madinah Cardiac Center, Saudi Arabia
Title: Early Outcome Of Tetralogy Of Fallot Repair Among Bangladeshi Patients
Kazi Zahidul Hoque, Dhaka Shishu (Children) Hospital, Bangladesh
Panel Discussions
Closing Ceremony
Note: Tentative Program has been designed with the projected Speakers Names and Titles. Dates and timings in this program are subject to change

Conference Highlights:

- Clinical Cardiology
- Interventional Cardiology
- Pediatric Cardiology
- Cardiac Imaging
- Cardiovascular Disease
- Heart Failure
- Diabetic Cardiovascular Disease
- Women and Cardiac
- Arrhythmia
- Critical Cardiac Care
- Cardiac Surgery
- Cancer and Heart
- Atherosclerosis
- Obesity and Heart
- Cardiac Medications
- Cardiac Care Nursing
- Current Research in Cardiology
- Cardiologists Training and Education
- Advances in Cardiologists Education

Best Poster Awards

- You will be given about 5-7 minutes to present your poster including questions and answers. Judges may pose questions during the evaluation of the poster
- Judges will even evaluate the student's enthusiasm towards their study, interest and knowledge in the area of their research
- The winners will be announced at the closing ceremony of the conference. The decision of the winner will be withdrawn if the winner/winners is/are not present at the time of announcement
- Apart from the judging time you may also be present at the poster to share your research with interested delegates

Young Researchers Forum

- Present your research through oral presentations
- Learn about career development and the latest research tools and technologies in your field
- This forum will give pertinent and timely information to those who conduct research and those who use and benefit from research
- Develop a foundation for collaboration among young researchers
- The forum will provide an opportunity for collegial interaction with other young investigators and established senior investigators across the globe
- Interact and share ideas with both peers and mentors

Why to Attend?

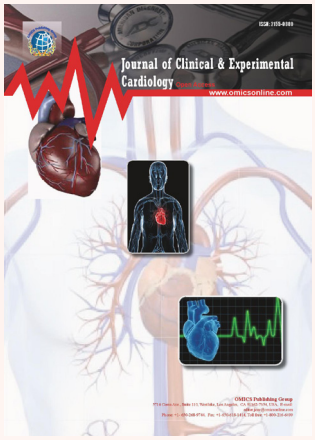

21st International Conference on Clinical & Experimental Cardiology is among the World's leading Scientific Conference. The three day event on Cardiology practices will host 60+ Scientific and technical sessions and sub-sessions on cutting edge research and latest research innovations in the field of cardiology and cardiac surgeries across the globe. This year Cardiology conference will comprises of 18 major sessions designed to offer comprehensive sessions that address current issues in various field of Cardiology. The attendees can find:

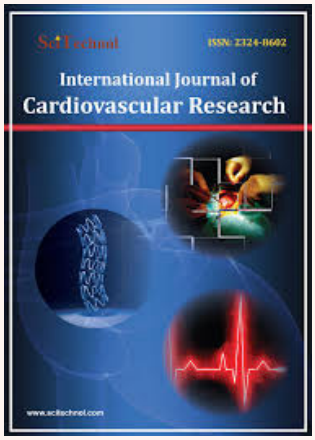

- Exclusive Sessions and Panel discussions on latest innovations in Cardiac Surgeries and Heart Failure.
- There is also a centre of attraction of this conference will be that how these Cardiologic surgeries having their side effect on the other cells of the body.
- Poster presentation on all the highlighted topics of the conferences by the young researchers.
- Keynote forums by Prominent Professors, Doctors
- Open Innovation Challenges
- Global Networking sessions with 50+ Countries
- Discussion on the new techniques and medicines in the field of cardiovascular disease and related surgeries.
- Best platform for Global business and Networking opportunities
- Meeting of the editors of referred journals, Society and Association members across the Globe
- Excellent platform to showcase and share the latest products and formulation ideas in Cardiac field.

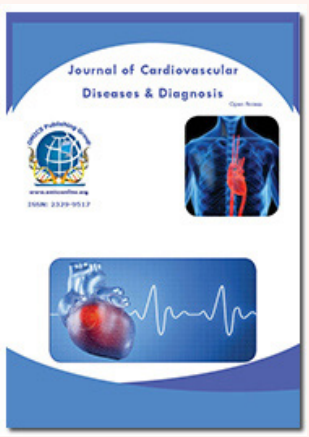

Target Audience

- Practicing Cardiologists
- Cardiologists in training
- Cardiac Surgeons
- Interventional cardiologists
- Advanced Practice Nurses
- Physicians interested in the latest advances and techniques in the field of Cardiology

About Las Vegas

The City of Las Vegas often known simply as Vegas, it is the 29th-most populated city in the United States, the most populated city in the state of Nevada, and the county seat of Clark County. The city anchors the Las Vegas Valley metropolitan area and also the largest city within the greater Mojave Desert. Las Vegas is an internationally renowned major resort city known primarily for its shopping, gambling, fine dining, entertainment, and nightlife. It is the leading financial, commercial, and cultural center for Nevada. The city bills itself as The Entertainment Capital of the World, and is famous for its mega casino-hotels and associated activities. It is a top three destination in the United States for business meetings and a global leader in the hospitality industry.

The main center of gambling and entertainment industry is located right here on the Las Vegas Strip, besides this city limits itself in surroundings with the communities of Paradise and Winchester in Clark County. There are many largest and most notable casinos and buildings situated in this city. In past recent years many new attractions have begun to emerge with already existing attraction like casinos and hotels in Las Vegas.
