Air and Space Museum

The National Air and Space Museum of the Smithsonian Institution, also called the NASM, is a museum in Washington, D.C. It holds the largest collection of historic aircraft and spacecraft in the world. It was established in 1946 as the National Air Museum and opened its main building on the National Mall near L'Enfant Plaza in 1976. In 2014.

Balboa Park

The predominant architecture is Spanish-style low-rise buildings that blend in with the natural surroundings.

Cabrillo National Momentum

Cabrillo National Monument is at the southern tip of the Point Loma Peninsula in San Diego, California. It commemorates the landing of Juan Rodríguez Cabrillo at San Diego Bay on September 28, 1542. This event marked the first time a European expedition had set foot on what later became the West Coast of the United States.

Hotel del Coronado

Hotel del Coronado (also known as The Del and Hotel Del) is a historic beachfront hotel in the city of Coronado, just across the San Diego Bay from San Diego, California. La Jolla Cove

La Jolla Cove is the jewel of La Jolla. Located across the water from La Jolla Shores, La Jolla Cove may not be much in terms of a beach, but its striking beauty and snorkelling reputation more than make up for it among recent visitors. The site is an ecologically protected area that is home to vibrant wildlife both in and out of the water.
